DISPLACEMENT STRATEGY

A. Steps to Minimize or Prevent Displacement

1. Plan, organize and stage the rehabilitation of assisted housing to allow tenants to remain during and after rehabilitation so as to provide the greatest convenience, safe and economically sound rehabilitation effort possible.
2. Assist in the identifying and locating of temporary relocation facilities in order to house families whose displacement will be of short duration, so that they can move back to their neighborhood after rehabilitation or new construction.
3. Evaluate housing codes and rehabilitation standards in reinvestment areas to prevent the placing of undue financial burdens on long-established owners or tenants of multi-family buildings.
4. Counsel and advise homeowners and renters to understand the range of assistance that may be available to meet and protect their housing rights and interests.
5. In cooperation with neighborhood organizations, continuously review neighborhood development trends, identify displacement problems, and identify individuals facing displacement who need assistance.

B. Actions to Assist Displaced Persons to Remain in their Present Neighborhoods

1. Provide lower-income housing in the neighborhood through HUD housing programs; purchase units as is; rehabilitate vacant units; or construct housing units.
2. Give priority in assisted housing units in the neighborhood to area residents facing displacement.
