

Santa Fe County  
Resolution # 2005- 09

---

**A RESOLUTION IN SUPPORT OF IMPROVING THE INFRASTRUCTURE RELATED TO RECYCLING AND THE QUANTITY AND QUALITY OF RECYCLING GENERATED BY COMMUNITIES THROUGHOUT NEW MEXICO.**

---

**WHEREAS**, solid waste disposal sites and illegal dumping potentially harm ground water resources in New Mexico; and

**WHEREAS**, landfills are necessary, but sites are difficult to locate and costly to operate; and

**WHEREAS**, landfills are a finite resource, the useful life of which will be shortened without the implementation of viable and reliable programs for the diversion of recyclable materials; and

**WHEREAS**, all efforts should be made to extend the useful life of existing waste disposal facilities as long as possible, including diverting waste from landfills and into local recycling programs; and

**WHEREAS**, recycling can generate revenues to offset recycling program costs and can create jobs within the community; and

**WHEREAS**, a number of communities, both large and small, currently offer limited recycling services; and

**WHEREAS**, throughout New Mexico the demand for recycling services is increasing; and

**WHEREAS**, recycling infrastructure is limited, and communities' recycling efforts need to be supported and made more cost-effective through development of regional waste recycling facilities; and

**NOW, THEREFORE BE IT RESOLVED BY SANTA THE FE BOARD OF COUNTY COMMISSIONERS THAT**

Santa Fe County supports legislation, which would appropriate State funding for the development of recycling infrastructure throughout New Mexico; and

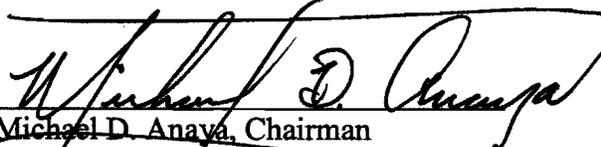

**BE IT FURTHER RESOLVED THAT**

Santa Fe County supports such State funding if the project emphasis is development of regional waste recycling facilities.
