RE: Sole Source Determination for Crash Data Group, Inc.

Issue

The Santa Fe County Sheriff's Department located at the County Public Safety Complex at 35 Camino Justicia, Santa Fe New Mexico, is requesting to install a hardware/software program for fatal team crash data retrieval to image vehicles involved in vehicle accidents for crash data retrieval (CDR) units.

The Sheriff Department is currently equipped with the Bosch Automotive Service Solutions computers. The CDR products are only available for retail purchase in the United States through the distributor, Crash Data Group, Inc.

Determination

It is the determination of the Santa Fe County Purchasing Division that due to the uniqueness of the software services of the CDR units, and this uniqueness is substantially related the intended purpose of the contract. It is in the best interest of the County to purchase the CDR unit system from Crash Data Group, Inc.

For these reasons the Purchasing Department has made the determination that this is a sole source procurement pursuant to the NMSA 1978 13-1-126 that *"a contract may be awarded without competitive sealed bids or competitive sealed proposals regardless of the estimated cost when the state purchasing agent or a central purchasing office makes a determination, after conducting a good-faith review of available sources and consulting the using agency, that other similar services, construction or items of tangible personal property cannot meet the intended purpose of the contract."*
