

APPLICATION FOR FY13 FIRE PROTECTION GRANT  
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

**ACKNOWLEDGEMENT/SIGNATURES**

33	2	Good
----	---	------

**EQUIPMENT NEEDS**

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:

\$33600

What (specifically) will you purchase if awarded this grant?:

12 Complete Structural Firefighting ensembles, including jacket, pants, helmet with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?:

Yes

Please explain:

Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Eldorado Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

**Request:** Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 12 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Eldorado Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current

PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$33,600.00 to protect 12 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The Eldorado Fire District is an integral part of the community it serves. The entire membership of the Eldorado Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Eldorado Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
12	Structure jacket	\$1,300.00	\$15,600.00
12	Structure pant	\$862.00	\$10,344.00
12	Structure helmet with shield	\$280.00	\$3,360.00
12	Structure boot (pair)	\$285.00	\$3,420.00
12	Structure gloves (pair)	\$73.00	\$876.00
Total amount			\$33,600.00

Department Name: El Prado County: Santa Fe ISO Rating: 4

Less matching amount (minimum 20% of the Total amount) (\$6,720.00)

Grant amount requested (maximum request \$100000) \$26,880.00

**FISCAL AGENT COMMITMENT STATEMENT**

I, as fiscal agent for the \_\_\_\_\_ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.

**APPLICATION FOR FY13 FIRE PROTECTION GRANT**  
Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

**2007 STANDARD COMPLIANT SCBA**

Qty	Age (years)	Condition
26	1	Good

**EQUIPMENT NEEDS**

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
1	15 Structural Bunker Gear Ensambls	\$42,000.00
		Total: \$42,000.00

Cost of fulfilling this need:  
\$42000

What (specifically) will you purchase if awarded this grant?:  
15 - Structure jackets 15 - Structure pants 15 - Structure Helmets with shield 15 - Structure gloves 15 - Structure boots

Will fulfilling this need impact your organization's ISO rating?:  
Yes

Please explain:  
Providing our volunteer responders with the PPE necessary to respond appropriately will increase the number of responders and the frequency of their response. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteers.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Edgewood Fire District receives only the money allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

**Request:** Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 15 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Edgewood Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current

PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$42,000.00 to protect 15 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The Edgewood Fire District is an integral part of the community it serves. The entire membership of the Edgewood Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Edgewood Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
15	Bunker jackets	\$1,300.00	\$19,500.00
15	Bunker Pants	\$862.00	\$12,930.00
15	Structure Helmets with Shield	\$280.00	\$4,200.00
15	Structure Boots	\$285.00	\$4,275.00
15	Structure gloves	\$73.00	\$1,095.00

Department Name: Edgewood County: Santa Fe ISO Rating: 5

Total amount	\$42,000.00
Less matching amount (minimum 20% of the Total amount)	(\$8,400.00)
Grant amount requested (maximum request \$100000)	\$33,600.00

**FISCAL AGENT COMMITMENT STATEMENT**

I, as fiscal agent for the \_\_\_\_\_ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.

APPLICATION FOR FY13 FIRE PROTECTION GRANT  
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

**EQUIPMENT NEEDS**

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:  
\$42000

What (specifically) will you purchase if awarded this grant?:  
15 complete sets of structural bunker gear including jacket, pants, helmet with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?:  
Yes

Please explain:  
Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Glorieta Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

**Request:** Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 15 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is expired or very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Glorieta Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$42,000.00 to protect 15 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The Glorieta Fire District is an integral part of the community it serves. The entire membership of the Glorieta Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Glorieta Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
15	Structural jackets	\$1,300.00	\$19,500.00

**APPLICATION FOR FY13 FIRE PROTECTION GRANT**  
 Applications will be accepted from August 01, 2012 to October 01, 2012

**Eligibility**

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

**Maximum Award and Matching Funds**

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

**NFIRS Reporting**

All applicants **shall** be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

**Pump Testing**

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

**EQUIPMENT NEEDS**

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
1	10 Structural PPE (Complete sets) includes jacket, pants, helmet with shield, gloves and boots	\$28,000.00
		Total: \$28,000.00

Cost of fulfilling this need:  
\$28000

What (specifically) will you purchase if awarded this grant?:  
10 - Structural Jackets - PPE 10 - Structural pants - PPE 10 Structural helmets with shield 10 - pairs of structural gloves 10 - pairs of structural boots

Will fulfilling this need impact your organization's ISO rating?:  
Yes

Please explain:  
Providing our volunteer responders with the PPE necessary to respond appropriately will increase the number of responders and the frequency of their response. Safety is out number one priority and this equipment is vital to maintain a safe enviroments for our volunteer staff.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Agua Fria Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

**Request:** Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 10 complete sets of structural PPE for our volunteer staff to utilize when responding to calls within the community. Currently our volunteers are using some PPE which is over or very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform to their level of certification, and thereby provide a reduced level of service to the community they serve.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Agua Fria Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community. The cost of \$28,000.00 to protect 10 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The Agua Fria Fire District is an integral part of the community it serves. The entire membership of the Agua Fria Fire District is comprised of community members who are giving back by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform to their level of certification, and thereby provide the necessary service to the community.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Agua Fria Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
10	Structure Jacket	\$1,300.00	\$13,000.00
10	structure pants	\$862.00	\$8,620.00
10	structure helmets	\$230.00	\$2,300.00
10	helmet shields	\$50.00	\$500.00
10	structure boots	\$285.00	\$2,850.00
10	structure gloves	\$73.00	\$730.00
Total amount			\$28,000.00
Less matching amount (minimum 20% of the Total amount)			(\$5,600.00)
Grant amount requested (maximum request \$100000)			\$22,400.00

**FISCAL AGENT COMMITMENT STATEMENT**

                    JCM/5 9/27/12

APPLICATION FOR FY13 FIRE PROTECTION GRANT  
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

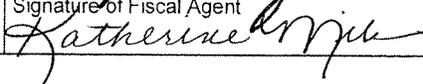

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

Describe (if yes for above)	

**HAZARDS/THREATS**

Describe the threat to the community: (i.e., fuel storage bulk plants, railroads, high hazard occupancies, etc.)

Hazard Type	Hazard Detail
Historical Significant Structures	Chimayo Fire District covers both areas of Santa Fe and Rio Arriba Counties. Large number of historically significant structures including churches, community buildings and personal property. Many are very old buildings whose age exceeds 75 years. Some are listed on the national historic registry.
Rural Community	The fire district is made up mainly of smaller homes in a very rural and very poor area of Santa Fe County, but with a very culturally historic history.
	The Fire district has very few water storage supplies which requires the fire district to provide water via tanker shuttle. This is preformed

Water Supply	via automatic aid from adjoining county fire districts. A new water storage tank has been installed in the community with the primary storage tank located at the main fire station. Fire hydrants have also been installed in limited areas of the community. Due to the rural nature and large number of acres with WUI and of the very small and narrow roadways, many structure fires required long hose lays. This requires a greater need for high pumping capacity and water carrying capacity than currently exists within the fire district.
Urban Interface	Last year our District experienced several large brush fire which required urban interface fire fighting tactics. Multiple structures and numerous acres of forest and brush land were destroyed. Our District continues to be adversely effected by drought conditions making the threat of large scale wildfires a major concern. Homes throughout the district are built within thickly forested areas making the threat to them and their residents severe. Without the award of this grant we will not be able to purchase a brush engine and thereby not have the proper equipment to safely fight fires of this type within our district.

**CURRENT PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Are all PPE inspected annually per NFPA 1851?  
Yes

**EQUIPMENT NEEDS**

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:  
\$100000

What (specifically) will you purchase if awarded this grant?:  
Urban Interface Type Brush Truck (Engine)

Will fulfilling this need impact your organization's ISO rating?:

Yes

Please explain:

The addition of an Urban Interface Engine would assist the District in lowering the ISO rating by providing another first out engine to serve the needs of our community. Currently the Chimayo District has the trained volunteer resources to respond and operate the requested engine.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Our ISO rating was just lowered and funding from previous years has been that of a ISO 9 department. Our funding is merely enough to cover the operational expenses for two Fire Station's and it's personnel. Our current funding does not allow us to save money to purchase such apparatus. Our District receives very little money when it comes to impact fees, therefore the money that we do receive from the State Fire Marshal's allocation is specifically used for the operations and sustainability of our Department and to ensure that all apparatus and buildings are functional throughout the year.

**Request:** Provide a brief description of what the request does, how the dollars will be spent and explain the need.

Our District-Communities are in dire need of an urban interface type brush truck. As previously mentioned we had two large wild fires in our Fire District last year, multiple acres of brush land and 3 structures were lost.

The money requested would be spent on the purchase a Urban Interface Brush Truck.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

The Department currently has no Urban Interface brush truck, therefore our department has to call out for automatic aid to bring in their brush trucks. Our current brush truck is our Tanker-1, which is often too large of an apparatus to deploy into our often small narrow roads for field operations.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this comparesto the proposed expenditure.

Urban interface wild land fire fighting will give us the ability to attack the fire promptly and efficiently, therefore giving us the upper had to control a fire before it gets out of control. The cost justification would be the homes that are saved.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship withinthe community and what impact this request will have.

Our department's role is public safety for all the residents of Chimayo, Cundiyo and Rio Chiquito. The impact of this request will help us better serve the communities noted when it comes to brush fire and urban interface capabilities and protection of homes.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive therequested grant, what will the department do?.

Loss of homes due to our inability to infiltrate the bosque area due to our apparatus being to big to deploy into such areas. Our community has many homes that were built right along the bosque, and protection of those homes is imperative.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
1	Tanker	\$100,000.00	\$100,000.00
Total amount			\$100,000.00
Less matching amount (minimum 20% of the Total amount)			(\$20,000.00)
Grant amount requested (maximum request \$100000)			\$80,000.00

**FISCAL AGENT COMMITMENT STATEMENT**

I, as fiscal agent for the \_\_\_\_\_ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.

APPLICATION FOR FY13 FIRE PROTECTION GRANT  
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

Are you a fire department member?	Yes
How many career fire fighters do you have?	0
How many volunteer firefighters do you have?	26
If combined, how many uniformed full-time career fire fighters are at the station at all times?	0
How many are FF-I Certified?	10
How many are FF-II Certified?	2
Do your newly recruited Fire Fighters undergo an entry-level physical and receive immunizations? Describe	No

**FATALITIES AND INJURIES**

Over the last three years what is the total number of fire-related incidents in your jurisdiction?

Fire-related Civilian fatalities	Fire-related Civilian Injuries	Line-of-duty member fatalities	Line-of-duty member injuries
0	0	0	0

**BUDGET INFORMATION**

What is your fire departments operating budget, including personnel costs, for your current fiscal year?(in dollar)	\$104,602.00
What percentage of your annual operating budget is derived from:	
Taxes?	0%
Grants?	0%
State Fire Marshal Funds?	100%
Donations?	0%
Fund Drives?	0%

Fee For Service?	0%
Others?	0%
Please Explain (For 'Others')	N/A

**COMMUNITY INFORMATION**

Name of Community Protected <b>Pojoaque Fir</b>	Number of commercial buildings protected in fire district? <b>50</b>
Number of homes protected in fire district <b>3300</b>	What is the permanent resident population of the community you serve? <b>7500</b>

Do you have formal automatic aid or mutual aid agreements?:  
Yes

List adjacent automatic aide fire districts (with written agreements)

S.No	Automatic Aide Fire Districts
1	Tesuque Fire District
2	La Puebla Fire District
3	Chimayo Fire District

**RESPONSE HISTORY IN THE LAST YEAR**

What is your call volume for the past year? (from last year July 1st to this year June 30th) **1033**

How many responses per category?

Structural Fires 33	Hazardous Materials 22	Vehicle Fires 5	Service Calls 31	Vegetation Fire 3
Good Intent Calls 60	EMS 725	False Alarms 38	Rescue 115	Other 0

**WATER AVAILABILITY**

Total capacity of available water storage(in gallons) <b>200000</b>	Community hydrant system <b>Yes</b>	Water storage tank with fire hydrant @ station <b>Yes</b>
--	--	--

Describe additional water source(s):

S.No	Source	Capacity(in gallons)
1	Nuestra Church	65000
2	Pueblo of Pojoaque	100000
3	Pojoaque School District	50000

**TRAINING**

Average # of training hours per Firefighter per year : **35**

How many training opportunities has this department offered in the last calendar year?

Training Details	Supporting Document
Training list attached	

**APPARATUS**

List class A pumper(s)

Are pump test conducted annually on apparatus?  
Yes

Total number of seated positions :  
8

**Copies of most recent pump tests records must be attached (upto 3 years)**

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result
1993	Ford	1000	1000	10/25/2010	Pass
1998	Freightliner	1000	1250	10/25/2010	Pass

31	3	Good

**EQUIPMENT NEEDS**

List in priority order, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:

\$28000

What (specifically) will you purchase if awarded this grant?:

10 Complete sets of structural bunker gear including jackets, pants, helmets with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?  
 Yes

Please explain:  
 Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

**GRANT FUNDING JUSTIFICATION**

**Financial Need:** Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Pojoaque Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

**Request:** Provide a brief description of what the request does, how the dollars will be, spent and explain the need.

The award of this grant request will provide 10 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

**Problem:** Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Pojoaque Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Analysis of Benefits:** Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$28,000.00 to protect 10 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

**Community and Your Organization's Relationship:** Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The Pojoaque Fire District is an integral part of the community it serves. The entire membership of the Pojoaque Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

**Consequences:** Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Pojoaque Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

**PROJECT BUDGET SHEET**

Qty	Item Description	Unit cost	Total cost
-----	------------------	-----------	------------

10	Structure jackets	\$1,300.00	\$13,000.00
10	Structure pants	\$862.00	\$8,620.00
10	helmts with shield	\$280.00	\$2,800.00
10	Structure boots (pair)	\$285.00	\$2,850.00
10	Structure gloves (pair)	\$73.00	\$730.00
Total amount			\$28,000.00
Less matching amount (minimum 20% of the Total amount)			(\$5,600.00)
Grant amount requested (maximum request \$100000)			\$22,400.00

**FISCAL AGENT COMMITMENT STATEMENT**

I, as fiscal agent for the \_\_\_\_\_ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.

Santa Fe County Manager

[Signature] 9/27/12

APPLICATION FOR FY13 FIRE PROTECTION GRANT  
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

**Note:** Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.
