

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

ACKNOWLEDGEMENT/SIGNATURES

Name of Department/District: Hondo		County: Santa Fe	
Name of Fire Chief (please print) Tom Chilton DAVID M. SPERLING		Signature of Fire Chief <i>[Signature]</i>	Date 9-28-12
Name/Title of County/Municipal Fiscal Agent (please print) Santa Fe County Manager		Signature of Fiscal Agent <i>[Signature]</i>	Date 9-27-12

All applications must be mailed or hand delivered to:

NM Fire Marshal's Office
Attention: Fire Protection Grant Application
 PO Box 1269
 Santa Fe, New Mexico 87504

All original applications must be received by 5 pm on **October 01, 2012**. No exceptions.
 Email and fax applications **will not** be accepted.

This application may be downloaded from the following website: <http://www.nmprc.state.nm.us/sfm.htm>

Please answer all questions in this application.
Incomplete or illegible applications will not be considered.

GENERAL INFORMATION

Fire Department ID Number (using NFIRS identifier)	49031
Fire Department Name	Hondo
Insurance Services Office (ISO) Rating	5
County	Santa Fe Rural
What kind of organization is your fire department?	Volunteer
How many stations are in your organization?	
Main	2
Substations	0
Admin	0
Type of community your organization serves Based on population density	Rural
Mailing Address	
Address	35 Camino Justicia
City	Santa Fe
State	NM
Zipcode	87508
Phone number	(505) 982-9999
Email address	tom@discoveryexhibits.com
Name of Person Completing this application	Mike Jaffa
Are you a fire department member?	Yes
How many career fire fighters do you have?	0
How many volunteer firefighters do you have?	35
If combined, how many uniformed full-time career fire fighters are at the station at all times?	0
How many are FF-I Certified?	19
How many are FF-II Certified?	2
Do your newly recruited Fire Fighters undergo an entry-level physical and receive immunizations? Describe	No

FATALITIES AND INJURIES

Over the last three years what is the total number of fire-related incidents in your jurisdiction?

Fire-related Civilian fatalities	Fire-related Civilian Injuries	Line-of-duty member fatalities	Line-of-duty member injuries
0	3	0	4

BUDGET INFORMATION

What is your fire departments operating budget, including personnel costs, for your current fiscal year?(in dollar)	\$153,074.00
What percentage of your annual operating budget is derived from:	
Taxes?	0%
Grants?	0%
State Fire Marshal Funds?	100%
Donations?	0%
Fund Drives?	0%

Fee For Service?	0%
Others?	0%
Please Explain (For 'Others')	N/A

COMMUNITY INFORMATION

Name of Community Protected Hondo	Number of commercial buildings protected in fire district? 18
Number of homes protected in fire district 2200	What is the permanent resident population of the community you serve? 7350

Do you have formal automatic aid or mutual aid agreements?
Yes

List adjacent automatic aide fire districts (with written agreements)

S.No	Automatic Aide Fire Districts
1	Galisteo Fire District
2	Eldorado Fire District
3	Glorieta Fire District
4	City of Santa Fe Fire Departmetn

RESPONSE HISTORY IN THE LAST YEAR

What is your call volume for the past year? (from last year July 1st to this year June 30th) **507**

How many responses per category?

Structural Fires 35	Hazardous Materials 7	Vehicle Fires 4	Service Calls 11	Vegetation Fire 9
Good Intent Calls 70	EMS 210	False Alarms 67	Rescue 92	Other 2

WATER AVAILABILITY

Total capacity of available water storage(in gallons) 1003000	Community hydrant system Yes	Water storage tank with fire hydrant @ station Yes
---	--	--

Describe additional water source(s):

S.No	Source	Capacity(in gallons)
1	Private cictern tanks	3000
2	City of Santa Fe hydrant system	1000000

TRAINING

Average # of training hours per Firefighter per year : **43**

How many training opportunities has this department offered in the last calendar year?

Training Details	Supporting Document
Training list attached	

APPARATUS

List class A pumper(s)

Are pump test conducted annually on apparatus?

Yes

Total number of seated positions :
6

Copies of most recent pump tests records must be attached (upto 3 years)

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result
2010	Pierce	1000	1500	04/04/2011	Pass
2003	International	1000	1250	05/11/2012	Pass

Explain if not tested properly:
N/A

List Tankers / Tenders

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result

8	4	Good
2007 STANDARD COMPLIANT SCBA		
Qty	Age (years)	Condition

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$14000

What (specifically) will you purchase if awarded this grant?:
5 complete sets of structural bunker gear including jackets, pants, helmets with shields, boots and gloves

Will fulfilling this need impact your organization's ISO rating?:
Yes

Please explain:
Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Hondo Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa

Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 5 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Hondo Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$14,000.00 to protect 5 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship with the community and what impact this request will have.

The Hondo Fire District is an integral part of the community it serves. The entire membership of the Hondo Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Hondo Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
5	Structure jackets	\$1,300.00	\$6,500.00
5	Structure pants	\$862.00	\$4,310.00
5	Structure helmets with shield	\$280.00	\$1,400.00
5	Structure boots (pair)	\$285.00	\$1,425.00
5	Structure gloves (pair)	\$73.00	\$365.00
Total amount			\$14,000.00
Less matching amount (minimum 20% of the Total amount)			(\$2,800.00)
Grant amount requested (maximum request \$100000)			\$11,200.00

APPLICATION FOR FY13 FIRE PROTECTION GRANT
Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$61600

What (specifically) will you purchase if awarded this grant?:

22 complete sets of structural bunker gear including jacket, pants, helmet with shield, boots and gloves
Will fulfilling this need impact your organization's ISO rating?: Yes
Please explain: Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the La Cienega Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 22 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the La Cienega Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$61,600.00 to protect 22 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The La Cienega Fire District is an integral part of the community it serves. The entire membership of the La Cienega Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Agua Fria Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$386830

What (specifically) will you purchase if awarded this grant?:
Fire Engine

Will fulfilling this need impact your organization's ISO rating?:
Yes

Please explain:
Based on the departments 5 year plan, in order improve our current 6/8B ISO rating we must add a new engine with the required tools and equipment to our existing fleet.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the La Puebla Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of new apparatus and other necessary equipment. The safety of our firefighters is paramount and safe and reliable apparatus is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be, spent and explain the need.

The request will complete the funding for the purchase of a new Custom Cab, class A Engine with 1000 Gallon Storage Tank and 1500 GPM Pump. This will be an replacement engine, removing from service a engine which is more than 25 years old, is unreliable and unsafe. The purchase of this engine and all associated equipment will improve our response capabilities to the community and assist in improving our ISO rating.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

The La Puebla is currently utilizing an engine which is 27 years old and in need of replacement. The engine being replaced is unreliable and unsafe due to its age and years of use. The La Puebla Fire District, located in north central New Mexico responds to a number of structure fires every year on old, unreliable equipment which must soon be replaced.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

The request will complete the funding for the purchase of a new Custom Cab, class A Engine with 1000 Gallon Storage Tank and 1500 GPM Pump. This will replace a 27 year old, unsafe, unreliable engine and improve our response capabilities to the community and assist in improving our ISO rating.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship within the community and what impact this request will have.

The La Puebla Fire District is an integral part of the community it serves. The entire membership of the La Puebla Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and safe and reliable apparatus is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with apparatus required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the La Puebla Fire District and the communities they serve are at risk. Without safe and reliable apparatus to respond to call on our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
1	Fully equipped Custom Cab engine	\$386,830.00	\$386,830.00
Total amount			\$386,830.00
Less matching amount (minimum 20% of the Total amount)			(\$286,830.00)
Grant amount requested (maximum request \$100000)			\$100,000.00

FISCAL AGENT COMMITMENT STATEMENT

I, as fiscal agent for the _____ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$11200

What (specifically) will you purchase if awarded this grant?:
4 complete sets of structural bunker gear including jacket, pants, helmet with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?:
Yes

Please explain:
Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Madrid Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 4 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire

ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Madrid Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this comparesto the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long rage effects could be devastating to both the department and community as well. The cost of \$5,600.00 to protect 2 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship withinthe community and what impact this request will have.

The Madrid Fire District is an integral part of the community it serves. The entire membership of the Madrid Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive therequested grant, what will the department do?.

Without the award of this grant the safety of the volunteer members of the Madrid Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
4	Structural jackets	\$1,300.00	\$5,200.00
4	Strucrural pants	\$862.00	\$3,448.00
4	Structure helmets with shield	\$280.00	\$1,120.00
4	Structure boots (pair)	\$285.00	\$1,140.00
4	Structure gloves (pair)	\$73.00	\$292.00
Total amount			\$11,200.00
Less matching amount (minimum 20% of the Total amount)			(\$2,240.00)
Grant amount requested (maximum request \$100000)			\$8,960.00

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$28000

What (specifically) will you purchase if awarded this grant?:
10 Complete sets of structural bunker gear including jacket, pants, helmet with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?:
Yes

Please explain:
Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Turquoise Trail District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the

citizens of Santa Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The award of this grant request will provide 10 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Turquoise Trail Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this compares to the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long range effects could be devastating to both the department and community as well. The cost of \$28,000.00 to protect 10 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship with the community and what impact this request will have.

The Turquoise Trail Fire District is an integral part of the community it serves. The entire membership of the Turquoise Trail Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive the requested grant, what will the department do?

Without the award of this grant the safety of the volunteer members of the Turquoise Trail Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
10	Structure jackets	\$1,300.00	\$13,000.00
10	Structure pants	\$862.00	\$8,620.00
10	Structure helmets with shield	\$280.00	\$2,800.00
10	Structure boots (pair)	\$285.00	\$2,850.00
10	Structure gloves (pair)	\$73.00	\$730.00
Total amount			\$28,000.00
Less matching amount (minimum 20% of the Total amount)			(\$5,600.00)

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

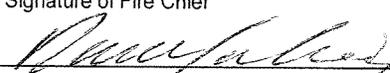

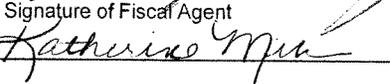

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

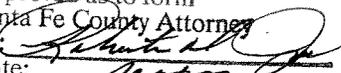

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

80 Sets of Bobby Armor with replacement covers which will identify personnel as FIRE and/or EMS

Will fulfilling this need impact your organization's ISO rating?:
No

Please explain:
The purchase of these items does not impact our ISO rating, however are a critical need for responder safety.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

The Santa Fe County Fire Department is a combination fire department that integrates both paid staff and the service of dedicated volunteers. Until 2008 a one quarter cent excise tax on gross receipts provided \$1,758,012 annually for capital outlay projects for the Santa Fe County Fire Department. This tax was first established by the Board of County Commissioners in 1982 to fund the Department's apparatus replacement schedule. It was an extremely important funding source for the department. When this tax sunset in 2008, the department lost its primary capital funding source. The department sought a favorable referendum from the voters during the fall of 2009; however, due to economic situations the voters rejected the assessment. Without the County Fire Protection Excise Tax the Santa Fe County Fire Department cannot meet its future capital needs.

Request: Provide a brief description of what the request does, how the dollars will be spent and explain the need.

The purpose of this application is to secure the funding to purchase body armor and reflective identification covers for that armor for our paid field staff who respond to more than 7000 calls for service on an annual basis. Our Firefighter/EMS personnel respond to calls on an ongoing basis where the threat of physical violence against them is a possibility. The award of this grant will allow us to purchase body armor for our members thereby providing them with an appropriate level of safety while on violent scenes. We will also purchase covers for the body armor which clearly identifies our members as "Fire" and/or "EMS" personnel in order to avoid confusion with law enforcement officers of the same scene. The total cost of this project is \$56,000.00. The Department faces enormous challenges in securing the funding necessary to provide our members with the safety equipment they need to perform at the level expected by the citizens of Santa Fe County. Without the award of this grant we will be unable to provide this critical level of safety to our members.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

On both a local and national level the incidents we respond to are becoming increasingly violent. Incidents like the theatre shootings in Colorado earlier this year, multiple active shooter scenes at high school and college campus' across the country, and one-on-one violent acts against emergency responders are ever increasing in their scope and frequency. The members of the Santa Fe County Fire Department respond regularly to potentially life threatening situations including, shootings, stabbings, fights, drug overdoses, and a number of others calls which pose a danger to the responders. The award of this grant will provide one of the tools which is critically needed to protect our members for serious injury and/or death in the line of their duties.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this comparesto the proposed expenditure.

The safety of our firefighters is our number one priority. Providing our crews with the equipment they need to protect themselves for serious injury and/or death is a critical need. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter or member of the community lose their life because some of our members are not properly protected with the appropriate safety equipment, the short and long range effects could be devastating to both the department and community as well. The cost of \$56,000.00 to protect all of our paid members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship withinthe community and what impact this request will have.

The Santa Fe County Fire Department is an integral part of the community it serves. The safety of our firefighters is paramount and proper safety equipment is an important part of providing our members the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our members with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive therequested grant, what will the department do?.

Without the award of this grant the safety of the members of the Santa Fe County Fire Department and the communities they serve are at risk. Without the appropriate safety equipment our members will not have the tools they need to protect the lives and property of the citizens they serve without placing themselves in undue danger.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
80	Body Armor	\$550.00	\$44,000.00

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants **shall be** in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

APPLICATION FOR FY13 FIRE PROTECTION GRANT
 Applications will be accepted from August 01, 2012 to October 01, 2012

Eligibility

All fire departments currently certified and funded by the New Mexico State Fire Marshal's Office are eligible to participate in the fire protection grant process.

Note: Any fire department that is awarded a grant and consequently loses its qualification to participate in the Fire Protection Funding process shall return the apparatus and/or equipment to the State Fire Marshal for redistribution as per 59A-53 NMSA 1978 and Title 10 Chapter 25 part 10 of the NMAC.

Maximum Award and Matching Funds

The maximum amount awarded to a single applicant will not exceed \$100000, with a minimum matching funds commitment from the department of 20%. Costs exceeding the grant amount shall be the responsibility of the local government. State fire funds may be used for this purpose with proper approval from the New Mexico State Fire Marshal's Office.

The fire chief and the fiscal agent for the local government must sign the application; in addition the fiscal agent must sign the Fiscal Agent Commitment Statement indicating a commitment of these funds for the awarded project and a commitment of the 20% matching funds.

The Grant Council has established the following minimum requirements:

NFIRS Reporting

All applicants shall be in compliance with the reporting requirements of the New Mexico State Fire Marshal's Office utilizing the National Fire Incident Reporting System (NFIRS) as per 59A-52 NMSA 1978 and Title 10 Chapter 25 Part 10 of the NMAC. Each certified fire department shall complete the reporting requirement by the 10th day of each month following the month for which the report is prepared. (e.g., the report of January is due by February 10th).

Pump Testing

All rated fire pumps shall undergo annual pump tests to ensure proper function and firefighter safety; therefore, the Fire Protection Grant Council is requiring apparatus pump tests be conducted on each apparatus with rated fire pumps and documentation submitted with the application. All annual pump tests shall be in accordance with NFPA 1901 and the Insurance Service Office (ISO) requirements. Copies of most recent pump test records must accompany this application (up to 3 years).

For additional information, please visit the New Mexico State Fire Marshal's Office web page <http://www.nmprc.state.nm.us/sfm.htm> or contact Vernon Muller, Deputy Fire Marshal Fire Service Support Bureau at 505-476-0165.

GENERAL INFORMATION

Fire Department ID Number (using NFIRS identifier)	49022
Fire Department Name	Galisteo
Insurance Services Office (ISO) Rating	6
County	Santa Fe Rural
What kind of organization is your fire department?	Volunteer
How many stations are in your organization?	
Main	1
Substations	0
Admin	0
Type of community your organization serves Based on population density	Rural
Mailing Address	
Address	35 Camino Justicia
City	Santa Fe
State	NM
Zipcode	87508
Phone number	(505) 466-0396
Email address	janayamoya@yahoo.com
Name of Person Completing this application	Mike Jaffa
Are you a fire department member?	Yes
How many career fire fighters do you have?	0
How many volunteer firefighters do you have?	22
If combined, how many uniformed full-time career fire fighters are at the station at all times?	0
How many are FF-I Certified?	9
How many are FF-II Certified?	1
Do your newly recruited Fire Fighters undergo an entry-level physical and receive immunizations? Describe	No

FATALITIES AND INJURIES

Over the last three years what is the total number of fire-related incidents in your jurisdiction?

Fire-related Civilian fatalities	Fire-related Civilian Injuries	Line-of-duty member fatalities	Line-of-duty member injuries
0	0	0	0

BUDGET INFORMATION

What is your fire departments operating budget, including personnel costs, for your current fiscal year?(in dollar)	\$72,711.00
What percentage of your annual operating budget is derived from:	
Taxes?	0%
Grants?	0%
State Fire Marshal Funds?	100%
Donations?	0%
Fund Drives?	0%

Department Name: Galisteo County: Santa Fe ISO Rating: 6

Fee For Service?	0%
Others?	0%
Please Explain (For 'Others')	N/A

COMMUNITY INFORMATION

Name of Community Protected Galisteo	Number of commercial buildings protected in fire district? 10
Number of homes protected in fire district 200	What is the permanent resident population of the community you serve? 265

Do you have formal automatic aid or mutual aid agreements?
Yes

List adjacent automatic aide fire districts (with written agreements)

S.No	Automatic Aide Fire Districts
1	Eldorado Fire District
2	Hondo Fire District
3	Glorieta Pass Fire District
4	Torrance County Fire Department

RESPONSE HISTORY IN THE LAST YEAR

What is your call volume for the past year? (from last year July 1st to this year June 30th) **43**

How many responses per category?

Structural Fires 5	Hazardous Materials 0	Vehicle Fires 1	Service Calls 0	Vegetation Fire 3
Good Intent Calls 11	EMS 12	False Alarms 3	Rescue 8	Other 0

WATER AVAILABILITY

Total capacity of available water storage(in gallons) 170000	Community hydrant system Yes	Water storage tank with fire hydrant @ station Yes
--	--	--

Describe additional water source(s):

S.No	Source	Capacity(in gallons)
1	Galisteo Station 1	30000
2	Galisteo Community Water system	70000
3	Ranchitos Community Water system	50000
4	Pfeiffer (resident)	10000
5	Vista Clara Ranch	10000

TRAINING

Average # of training hours per Firefighter per year : **47**

How many training opportunities has this department offered in the last calendar year?

Training Details	Supporting Document
Training list attached	

APPARATUS

List class A pumper(s)

Are pump test conducted annually on apparatus?

Yes

Total number of seated positions :
4

Copies of most recent pump tests records must be attached (upto 3 years)

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result
1995	IHC	1000	1250	08/10/2010	Pass

Explain if not tested properly:
N/A

List Tankers / Tenders

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result
1998	Freightliner	1500			

Wildland Apparatus

Year	Make	Tank Capacity	Pump Capacity	Date Pump tested	Pump Test Result
2003	Ford	350			

COMMUNICATION EQUIPMENT

Do you have any of the following?

Handheld radios	20
Base Stations	1
Mobile radios	19
Do you have any apparatus without a mobile radio?	No

List communication equipment by type

Describe your communication equipment and capability (type, qty, range) (if more than zero)	How Many?
-	-

Do you have interoperability with any of the following agencies?

Law Enforcement	Yes
Emergency Medical	Yes
Other Fire Departments	Yes
Other (that could not be classified as above)	No
Describe (if 'yes' on others)	
Do you have any areas in your jurisdiction which are NOT covered by a repeater?	No
Describe (if yes for above)	

HAZARDS/THREATS

Describe the threat to the community: (i.e., fuel storage bulk plants, railroads, high hazard occupancies, etc.)

Hazard Type	Hazard Detail
Railroad	Amtrack commuter train
Highway	Heavy traffic on Highway 41 including tanker trucks
Wildland	Overgrown bosque areas within the Village of Galisteo
WIPP Route	On Highways 41 & 285
Flooding	Flash floods on Camino de los Abuelos

CURRENT PERSONAL PROTECTIVE EQUIPMENT (PPE)

Are all PPE inspected annually per NFPA 1851?

1981 STANDARD COMPLIANT PPE		
Qty	Age (years)	Condition
2	21	Poor
1997 STANDARD COMPLIANT PPE		
Qty	Age (years)	Condition
2	15	Poor
2002 STANDARD COMPLIANT PPE		
Qty	Age (years)	Condition
6	12	Poor
2007 STANDARD COMPLIANT PPE		
Qty	Age (years)	Condition
2	4	Good
Do you have your bottle filling capability? :		
Yes		
Do you have SCBA cylinder filling capability? :		
Yes		
Describe SCBA cylinder filling capability :		
Fixed cascade which is re-filled by a mobile compressor from another Santa Fe County Fire District.		
Pressure :		
High		
1981 STANDARD COMPLIANT SCBA		
Qty	Age (years)	Condition
1997 STANDARD COMPLIANT SCBA		
Qty	Age (years)	Condition
5	10	Poor
2002 STANDARD COMPLIANT SCBA		
Qty	Age (years)	Condition
2007 STANDARD COMPLIANT SCBA		
Qty	Age (years)	Condition
10	1	Good

EQUIPMENT NEEDS

List in **priority order**, and explain the equipment needs of your department and the total costs of fulfilling the needs.

Priority Order #	Equipment Needed	Cost of Equipment
-	-	-
		Total:

Cost of fulfilling this need:
\$22400

What (specifically) will you purchase if awarded this grant?:
8 complete sets of Structural bunker gear including jacket, pants, helmet with shield, boots and gloves.

Will fulfilling this need impact your organization's ISO rating?:
Yes

Please explain:
Providing our volunteer responders with the PPE necessary to respond safely will increase the number of responders and the frequency of their responses. Safety is our number one priority and this equipment is vital to maintain a safe environment for our volunteer staff.

GRANT FUNDING JUSTIFICATION

Financial Need: Give us a financial snapshot of your area. Tell us why you need assistance and describe your department/organization's current funding issues.

Currently the Galisteo Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating

expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas.

Request: Provide a brief description of what the request does, how the dollars will be, spent and explain the need.

The award of this grant request will provide 8 complete sets of structural PPE for our volunteer staff to utilize when responding to calls from the community. Currently our volunteers are using some PPE which is expired or very near its expiration date or does not fit the individuals properly. The award of this grant request will allow us to purchase new structural PPE in order to better equip our members with the basic level of safety while on the fire ground. Without this grant we will be unable to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide a reduced level of service to the community they serve.

Problem: Provide a brief description of the problem your department/district is addressing with this grant application.

Currently the Galisteo Fire District receives only the monies allocated through the NM State Fire Marshal's office. This covers our operating expenses on an annual basis but leaves us with little excess for the purchase of Structural PPE and other necessary equipment. Much of our current PPE is at or nearing the end of its serviceable life span and must be replaced. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Analysis of Benefits: Provide a brief description of how the department/district this performance will be improved and how this comparesto the proposed expenditure.

Structural PPE is one of the basic items required for our firefighters to respond to emergencies with our communities in a safe manner. The cost of a single firefighter injury or death cannot be thought of simply in financial terms. Should a firefighter of member of the community lose their life because some of our members are not properly protected with the appropriate structural PPE, the short and long rage effects could be devastating to both the department and community as well. The cost of \$22,400.00 to protect 8 of our members is a small price to pay for their safety and will allow them to serve the community to the level of their certification.

Community and Your Organization's Relationship: Provide a description of your department/organization's role and relationship withinthe community and what impact this request will have.

The Galisteo Fire District is an integral part of the community it serves. The entire membership of the Galisteo Fire District is comprised of community members who are giving back to their community by providing fire & EMS response as volunteers. The safety of our firefighters is paramount and proper PPE is an important part of providing our volunteers the basic tools necessary to perform services for the citizens of Santa Fe County and the surrounding areas. The award of this grant will allow us to provide our volunteers with the level of safety required for them to perform at their level of certification, and thereby provide the necessary service to the community.

Consequences: Provide a brief description of consequences of not funding this grant request. If your department does not receive therequested grant, what will the department do?.

Without the award of this grant the safety of the volunteer members of the Galisteo Fire District and the communities they serve are at risk. Without the appropriate structural PPE our volunteers will not have the tools they need to make an effective fire attack and protect the lives and property of the citizens they serve.

PROJECT BUDGET SHEET

Qty	Item Description	Unit cost	Total cost
8	Structure jackets	\$1,300.00	\$10,400.00
8	Structure pants	\$862.00	\$6,896.00
8	Helmets with shield	\$280.00	\$2,240.00
8	Structure boots (pair)	\$285.00	\$2,280.00
8	Structure gloves (pair)	\$73.00	\$584.00
Total amount			\$22,400.00
Less matching amount (minimum 20% of the Total amount)			(\$4,480.00)

Department Name: _____ County: Santa Fe ISO Rating: 6

Grant amount requested (maximum request \$100000) _____ \$17,920.00

FISCAL AGENT COMMITMENT STATEMENT

I, as fiscal agent for the _____ department, certify that a minimum of 20% in matching funds are committed to the project for which this application is submitted.
