

Project Focus Area III

Assets:

Project Focus Area III includes several Santa Fe County Open Spaces. Talaya Hill Open Space is currently a well-developed property with approximately 7 miles of trail. This open space is connected through the Dale Ball Trail System to La Piedra Open Space, which is an important connection to Little Tesuque Creek Open Space, and Santa Fe National Forest. Together these open spaces provide a critical connection from the City of Santa Fe to the National Forest trails.

Los Caminitos Wilderness and Rio en Medio Open Space are adjacent to Santa Fe National Forest.

Potential Projects:

- Enhanced parking/trailhead for connection to Santa Fe National Forest

Opportunity for Partnerships

- Santa Fe National Forest
- Nearby communities
- Neighbors

What do you think?

Do you agree with these opportunities?
