Saving with mail

When you get long-term drugs* at a retail pharmacy, you could be paying more than you need to. Use the **Medco Pharmacy®** mail-order service for drugs to treat a long-term condition (3 months or longer).

We will deliver up to a 90-day supply right to you with FREE standard shipping.

Saving with generics

If you're taking a brand-name drug, talk to your doctor and ask whether a less expensive generic drug could treat your condition. If your doctor agrees, ask your doctor to write a new prescription for the generic that you can fill under your plan.

FDA-approved generics are as safe and effective as their brand-name counterparts.
