productive conversation.

Dr. Shadabi asked that the Council members introduce themselves and state what they are looking forward to in working with the Council.

Ms. Sullivan said she is from Madrid and worked in New Hampshire before she moved here. She wants to ensure that connectivity and collaboration are successful.

Mr. Ancona said he has been back and forth from New York to New Mexico for most of his life. He is an artist with a background in murals, style writing, illustration and art programs for youth. He has a love of New Mexico, specifically Santa Fe. This is a way to get more involved with community and a way to add something for the community.

Ms. Sutor said she lives in Agua Fria Village and has been in New Mexico since the early 70s. She is a visual artist and taught photo at the College of Santa Fe for many years. She is a practicing artist and has done some public artist programs around the state. She is part of a study group to create a cultural center in the Agua Fria Village. She hopes to lend some of her experience and expertise and her love of this place to helping the community.

Mr. Moore said he has been here for 15 years. He is involved with international opera and helps at the UNM Vocal Department. He also teaches privately. He is interested in fostering and nurturing performance and wants to see if a new amphitheater could be developed in Santa Fe.

Mr. McPartlon said he has been in Santa Fe for 40 years. He is an artist and an art advocate. He is interested in this new entity and is looking for fairness in our decisions.

Mr. Box said he lives on Turquoise Trail and is a practicing sculptor. He has shown and exhibited all over the country. He went to the School for the Visual Arts in New York and moved here 19 years ago. He has been on the Board for the Turquoise Trail and the studio tour. He is involved with the San Marcos overlay project and has a background in marketing as well. We have something very special in Santa Fe in supporting living artists. He is here to contribute his experience and expertise to help make Santa Fe one of the top art destinations in the world.

Mr. Lancaster said he is a gallerist, novelist and screen writer. He is the lead of the Madrid Art and History Walk, which partners with Santa Fe County. He would like to use centergy and dovetail multi media and arts. We are in one of the main districts of art in the United States, if not the world. He wants to contribute to that.

Ms. Sanders said she has been in New Mexico for 35 years. She is in arts education and has worked in public arts and arts administration. She also worked at

the opera as kid wrangler. She is very invested in arts organizations across the state. She is looking forward to things we can come up with to benefit the County. She is an artist and a writer. She sold her newspaper to come to Santa Fe. She is excited to help with marketing local art through a gallery.

Mr. Olfason said he is the Director of the County Community Development Department. He has been here for 24 years. He thanks all of you for volunteering for this. It takes time and brain power. You were appointed because of your commitment to your community. This is hard work. You will be helping us to come up with a 5 year plan. That is the main emphasis. He is encouraged by the diversity and talent around the table.

Valerie Rengel said she works in the Santa Fe County Planning Department and is a practicing artist as well. She is a paper cutter.

Dr. Shadabi said she is excited to have all of you. It gives me energy. This Council is super important.

Mr. Torres said he is the County Economic Development Manager. Why is this under economic development. The Economic Development Division has a Strategic Plan that passed last November. Arts and culture is one of the several sections of the community we are focused on. Our plan was a result of meetings with each of the County Commissioners. We received feedback that specifically touches on things you talked about. Currently, an amphitheater study is underway. We will make that report available to you. That is a focus of the City and the County. We are currently working with Currents New Media. We are hoping to make a County building available for a month long exhibition some time in May. We are looking at the Solana Center. We have an arts in public places initiative. It starts with this building. Part of the work of this Council would be look at arts funding and giving us some feedback as to providing continuous funding. Public art in roundabouts is a project as well. We work with individual communities on infrastructure projects, capital appropriations and facilitation. Think about what kinds of things you want to see in your communities. We work with individual targeted communities, for profit and nonprofit organizations, on events. He

looks forward to your input on that. We support your work through our budget.

Dr. Shadabi said we need to elect a Chair and Vice Chair and set a schedule for our meetings for the year.

3. PURPOSE AND OBJECTIVES OF THE COUNCIL

Dr. Shadabi said we are shaping the future of arts and culture and the creative economy. The Council will support development and sustainability of arts culture and will provide a platform for voices to ensue all of the community has access. How does art influence economics. Art has an impact on crime reduction through community engagement with art. It engages individuals, especially young people, and helps the economy. Tourism is one part of that, but not all of it. Art is a valuable tool for education and increasing skills. It also helps individuals to develop emotional intelligence. It is a tool for social improvement.
