

- B. Other formats. File formats for word processor documents, spreadsheet documents, or slide presentations shall be those used by the Microsoft family of office software such as Word, Excel, and PowerPoint. Contact the County for the version. Macros may be included with these documents provided they are virus free, their function is explained next to the Code, and they are not write protected.
- C. Graphics shall be submitted in TIF, GIF, JPG, CALS or PDF file format (compressed image formats only). This option is intended for photos, conceptual sketches, etc., and not to indicate that raster file drawings will be accepted in place of AutoCAD DWG files.
- D. Data file formats for projects that employ information contained in a database or spreadsheet shall be those used by one of the following: Oracle, Microsoft Access, Microsoft SQL, or Microsoft Excel. All linkages of non-graphical data with graphic elements, relationships between database tables, and report format shall be maintained. All database tables shall conform to the structure and field naming guidance provided by the County. The Architect shall conform database file format preference with the County prior to issuance of database files.
- E. File formats for project management documents shall be either that used by Microsoft Project or hard copy. Confirm file format with County. Save project files with baseline.
- F. Deliverables integrating multiple file formats may be submitted as a PDF (version 4 or later) in addition to the base file structure. Examples include reports, photographs, and manuals created by using a variety of software packages and file formats. Confirm deliverable format preference with the County.
- G. Building Information Modeling (BIM). Projects and project teams are encouraged to utilize 3D object model and other building information model technology and software applications (including during project stages of planning, design, construction, and handover to space management and facility operations and maintenance). Outputs from these applications are acceptable as deliverables to the County, provided that 2D output is also submitted that fully complies with all provisions herein.

13. KEY PERSONNEL AND CONSULTANTS

The Architect's key personnel and consultants designated for this Project shall remain assigned for the duration of the Project. Any substitutions of the Architect's key personnel and consultants require written notification to the County and prior written consent of the County.

The County may require substitution of any personnel or consultants provided that the County has first notified the Architect in writing and allowed a reasonable period for adjustments and/or corrections.

14. GEOTECHNICAL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of necessary geotechnical or soils engineering services that will be required. If the Architect does not believe the services of a Geotechnical Engineer are required for the project, a written notice of such shall be provided to the County stating same. Geotechnical engineering and any necessary surveys shall be County-provided, as Additional Services or a reimbursable expense.

15. CIVIL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of need and extent of civil engineering required for the project to protect new and existing structures on or around the site from adverse conditions. Extensive civil engineering, or civil engineering work outside of the immediate site proposed for the project, shall be Additional Services or a reimbursable expense.

16. STANDARD OF CARE

The Architect represents that its officers, agents, employees and consulting professionals shall possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, joint ventures, and agents shall not be construed as a diminution of the Architect's liability and responsibilities to the County.

17. APPLICATION OF PROFESSIONAL SEALS

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. For project manuals and technical reports the seal shall be provided by the design professional responsible for the overall coordination of the project. If more than one design professional has responsibility for portions of the work, additional seals may be provided on the cover, or on a separate signature sheet immediately following the table of contents.

18. REVIEW PROCESS

The Architect shall submit documents for review as required by the Agreement. The Architect shall provide five (5) sets of review documents to the County for each review. Following the reviews, the Architect shall respond to the County's Project Manager in writing to all review

comments and questions within fourteen (14) calendar days.

19. SITE

The physical location on which the Project is built, including all land acquired for the Project or associated with the Project, including surface drainage, wells, transmission lines, easements, rights-of-ways, roadway and existing facilities that may be directly or indirectly affected by the Project or that might affect the Project.

20. TIME

The Architect shall perform Basic and Additional Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Work. The Architect shall submit, for the County's approval and as part of this Agreement, a schedule of performance of the Architect's services and shall include allowances for periods of time required for the County's review and approval of submissions and for approvals of authorities having jurisdiction over the Project. This schedule, when approved by the County, shall not, except for reasonable cause not within the control of the Architect, be exceeded by the Architect (see Exhibit A, Compensation and Schedule. Failure of the Architect to perform within this schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Architect.

21. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Architect or its employees in the interest of the Project. The Architect shall incur no expenses for which the Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with the Project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.
- B. Expenses of fees paid for securing approvals of authorities having jurisdiction over the Project.
- C. The Architect shall charge Bidders or Offerors a deposit fee equal to the full cost of reproduction of drawings, specifications, and other documents required by the County to solicit bids or proposals and execute the Construction Contract. This fee shall be completely refunded if the documents are returned in usable condition within the time frame specified in the Invitation for Bid or Request for Proposals. All forfeited fees shall be returned to the County.

- D. Construction documents and specifications will be printed by the lowest quote received from print rooms specified by the County. All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Architect and the Architect's consultants shall be provided as part of the Architect's Basic Compensation.
- E. Reimbursable expenses, if allowed by this Agreement, shall be compensated at direct cost not to exceed the reimbursable amounts as indicated in Exhibit A of this Agreement, unless otherwise modified by written amendment.

22. OWNER'S RESPONSIBILITIES

- A. The County may designate, in writing, a representative authorized to act in its behalf; however, authority for final approval of the Project Phase Documents, the Contract Documents, or any Change Order is retained by the County. The County shall examine documents submitted by the Architect and shall render decisions promptly to avoid unreasonable delay in the progress of the Architect's services.
- B. The County may designate a Project Manager for the project who shall be the County's primary representative in the administration of this Agreement. The Architect will report to the County's Project Manager. All correspondence from the Architect shall be communicated to the Project Manager.
- C. The County shall ensure review in writing of each project phase and shall notify the Architect of the accord.
- D. The County shall furnish a legal description and certified land survey of the site, giving, as applicable grades and lines of streets, alleys, pavements, and adjoining property; rights-of-ways, restrictions, easements, encroachments, zoning, deed restrictions, boundaries, and contours of the site; locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines both public and private, above and below grade, including inverts and depths.
- E. When documents and drawings provided under the above subparagraph are furnished to the Architect, payment of the Construction Document Phase will not be made to the Architect until the County has received all said documents and drawings.
- F. The County reserves the right not to provide certain project-related documents or drawings to the Architect at the County's discretion.

- G. If the County observes or otherwise becomes aware of any fault or defect in the Project or nonconformance with the Contract Documents, prompt written notice thereof shall be given by the County to the Architect.
- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

23. RESPONSIBILITY FOR CONSTRUCTION COST

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11) or an evaluation prepared by the Architect indicates that the Project exceeds the MACC, the provisions outlined below shall apply:
 - 1) Evaluations of the County's Project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Architect represents the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.
 - 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Architect and permit reasonable and necessary revisions or reductions to the scope of the Project. The Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC;
 - 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Architect shall be permitted to determine what materials, equipment, component systems, and types of construction are to be included in the Bidding or Proposal

Documents to bring Construction Cost within the MACC. With the written consent of the County, the Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit;

- 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Architect submits Bidding or Proposal Documents to the County, the Project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought;
- 5) The MACC, therefore, is established as a condition of this Agreement. When it is exceeded by the lowest bona fide bid, the County may:
 - a. Give written approval of an increase on the MACC, or
 - b. Authorize re-bidding the Project within a reasonable time, and
 - c. Cooperate with the Architect in revising the Project Scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Architect in revising the quality and scope of the Project; and the Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

24. ARCHITECT'S RECORDS AND AUDIT

- A. Records of expenses by the Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative;
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments;
- C. Records of expenses shall be kept by the Architect and its consultants and shall be available to the County until all applicable Statutes of Limitations have run, and this

provision shall survive and continue beyond the termination of other terms of this Agreement;

- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three (3) years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

25. OWNERSHIP AND USE OF DOCUMENTS

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Architect shall become the sole property of the County whether the Project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement;
- B. All documents, including drawings and specifications prepared by the Architect pursuant to this Agreement are instruments of service in respect to the Project. The Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Architect's services are not retained;
- C. The original drawings may be marked by the County or the Architect to designate the restrictions of use of these documents as set forth in the subparagraph 13.B;
- D. Copyright: No reports, maps, or other documents produced in whole or in part under this Agreement shall be the subject of an application for copyright by or on behalf of the Architect.

26. MAINTENANCE

Ease of maintenance and the ability to repair major items of installed equipment by replacement are essential to the Project. To ensure that these services can be adequately performed after the Project is accepted by the County, the Architect shall:

- A. In all relevant Contract Documents, design and provide for all major installed equipment in the Project, including but not limited to, removal, access, maintenance, and storage space needs. In addition, all installed equipment systems shall be appropriately identified and labeled to describe the capacities, flows, and other pertinent information related to their maintenance and safe operation;
- B. Specify only equipment that can be readily maintained by the County or other qualified commercial repairman;

- C. Provide Construction Documents that accurately depict the installation of all major items of installed equipment and which provide reasonable detail on all other major systems to be installed;
- D. At the completion of the Schematic, Design Development, and Construction Documents Phases, brief the County on the rationale for the selection of the major mechanical and electrical systems to be specified in the Contract Documents, together with the probable life-cycle costs.

27. EXHIBITS

All exhibits, attachments, riders and addenda referred to in this Agreement, including but not limited to, the exhibits referred to in this Agreement, as well as those listed below, are hereby incorporated into this Agreement by reference and made a part hereof as though set forth in full in this Agreement to the extent they are consistent with its conditions and terms.

The Architect, following the County's written approval of the Bidding Documents, shall assist the County in obtaining bids and in awarding and preparing contracts for construction, as directed by the County. The finalized Invitation for Bid for Construction shall be prepared by the County and forwarded to the Architect for bidding purposes and the County shall issue a purchase order authorizing the advertisement for the Project.

- 1) The Architect shall provide sets of Bidding Documents as required to the County, and sets as appropriate to all Bidders requesting documents for bidding purposes. Prime bidders shall be defined as General Contractors, who will be allowed no more than three sets; major subcontractors as listed in the form, or other suppliers.
- 2) The Architect shall, as directed by the County, provide an additional number of documents to be placed in plan rooms as well as in the Architect's office for review by prospective Bidders.
- 3) The Architect shall also make sets available to other prospective parties as requested. The Architect may charge the cost of reproduction to the party requesting the documents.
- 4) The Architect shall clarify and answer any questions about the Bidding Documents, as directed by the County, during the bidding process and shall issue Addenda as required to all Bidders, and the County.

- 5) All Addenda, including all revised drawings and sections, must be approved by the County prior to distribution. The Architect shall allow sufficient time for County to review and accept each addendum.
- 6) The Architect shall provide assistance to the County to identify the apparent successful bidder(s) and shall provide written recommendation to accept or reject the bids.
- 7) The Architect shall not discuss with bidders, news media, etc., any presumption of award until the award is decided by the County.

F. Construction Phase-Administration of the Construction Contract. The Construction Phase will commence with the award of the contract for construction and continue until the eleven month inspection and report is submitted by the contractor and approved by the County.

- 1) The Architect shall provide administration of the construction contract as required and defined in the Conditions of the Contract for Construction. The extent of the Architect's duties and responsibilities and the limitations of its authority thereunder shall not be modified without the County's written consent.
- 2) The Architect shall be the representative of the County during the Construction Phase and shall advise and consult with the County. Instructions to the Contractor shall be forwarded only through the Architect. The Architect shall have authority to act on behalf of the County only to the extent provided in the Contract Documents and any amendments thereto.
- 3) The Architect shall at all times have access to the Work, whether it is in preparation or progress.
- 4) The Architect shall submit to the County, for approval, a list of critical inspection points based upon the construction schedule furnished by the Contractor. The Architect shall make periodic visits to the site at such times as appropriate during the progress of the Work for the purposes of notifying the County on the progress and condition of the Work and adequately represent the County. Additionally, the Architect shall familiarize itself with the progress and quality of the Work and determine if the Work is proceeding substantially in accordance with the Contract Documents. On the basis of on-site observations, the Architect shall endeavor to guard the County against defects and deficiencies in the construction. Should the Architect determine that any portion of the

Work varies from the requirements of the Contract Documents, the Architect shall immediately notify the Contractor and the County of the nature of the work required to correct such non-compliance.

- 5) The Architect shall provide a minimum of weekly on-site observation during the construction phase in an attempt to guard the County against defects and deficiencies in the construction, in addition to critical inspections and other reviews and evaluations required by the progress of the Work. The results of all on-site observations shall be documented in field reports submitted to the County within seven (7) days of each such site visit.
- 6) The Architect shall not have control or charge of and shall not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the Work, for acts or omissions of the Contractor, subcontractors, or any other persons performing any of the Work, or for the failure of any of them to carry out the Work in accordance with the Contract Documents.
- 7) The Architect shall determine, certify, and make recommendations to the County for payment for the amounts owing to the Contractor subject to the County's approval, based on observations at the site and evaluations of the Contractor's Applications for Payment. The Architect shall issue Certificates for Payment in such approved amounts as provided in the Contract Documents.
- 8) The issuance of a Certificate and recommendation for payment shall constitute representation by the Architect to the County, based on the Architect's observations at the site as provided in subparagraph 4) above and on the data comprising the Contractor's Application for Payment, that the Work has progressed to the point indicated; that the quality of the Work is substantially in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications state in the Certificate for Payment); and that the Contractor is entitled to payment in the amount certified. However, the issuance of a Certificate for Payment shall not be a representation that the Architect has made any examination to ascertain how and for what purpose the Contractor has used the money paid on account of the Contract Sum.
- 9) The Architect shall render interpretations of the documents necessary for

the proper execution or progress of the Work with reasonable promptness on written request of either the County or the Contractor, and shall render written decisions within a reasonable time on all claims, disputes, and other matters in questions between the County and the Contractor relating to the execution or progress of the Work or the interpretation of the Contract Documents.

- 10) Interpretations and decisions of the Architect shall be consistent with the requirements and intent of the Contract Documents and shall be in written or graphic form.
- 11) The Architect's decisions in matters relating to artistic effect shall be final if consistent with the requirements of the Contract Documents.
- 12) The Architect shall have authority to reject work that does not conform to the Contract Documents. Where rejected Work is not promptly corrected, the Architect shall recommend to the County that the Work shall stop. Whenever, in the Architect's professional opinion, it is necessary or advisable for the implementation of the intent of the Contract Documents, the Architect will have authority to require special inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work be then fabricated, installed, or completed.
- 13) The Architect shall review the Contractor's submittals, such as shop drawings, product data, and samples, but only for conformance with the design concept of the Work and with the information given in the Contract Documents; and, for each submittal, the Architect shall designate in writing that the Architect:
 - a. Takes no exception to this submittal
 - b. Rejects the submittal
 - c. Requires corrections as noted by the Architect
 - d. Requires revisions and resubmitted to the Architect
 - e. Requires the Contractor to submit the specified item
 - f. Approves as corrected

Such action shall be taken with reasonable promptness so as to cause no delay. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

- 14) Necessary professional services or construction required to repair or overcome problems caused by the Architect's errors, omissions, inadequacies, or changes not authorized by the County in the preparation of the documents or design shall be the responsibility of the Architect or

its consultants, without additional cost to the County.

- 15) All Change Orders, defined in the Conditions of the Contract for Construction, shall be prepared by the Architect. Such Change Orders shall not become effective or binding on the County or Contractor until signed by the County and others whose signatures are required therein. Attached in Exhibit G and incorporated into this Agreement by reference is a copy of the Change Order form. Using this form, the Change Order shall be initiated by the party requesting a change. Approval in writing by the County of a completed Change Order modifies this Contract for construction to the extent indicated. No Work that could reasonably be expected to alter the contract price or materially alter the Project shall be undertaken until the County has approved a completed Change Order that outlines the desired change. Any deviation from the above described Change Order process shall be considered a material breach of this Contract. The County reserves the right to seek remedy from the Architect for Change Orders made necessary due to the Architect's errors and omissions.
- 16) Upon prior notice to the County, the Architect shall make observations to determine the Dates of Substantial Completion and Final Completion. The Architect shall obtain and forward to the County for the County's review of written warranties and related documents required by the Contract Documents and assembled by the Contractor. The Architect shall then issue a final Certificate for Payment.
- 17) The extent of the duties, responsibilities, and limitations of authority of the Architect as the County's representative during construction shall not be modified or extended without written consent of the County and the Architect.
- 18) Should the Architect, its staff, or its consultants direct the Contractor, or its Subcontractors to undertake work for which additional compensation could reasonably be expected, and if such work is not:
 - a. An emergency endangering life and property
 - b. Required by the Contract Documents
 - c. Required by approved Change Orders (signed by the Architect, the County and the Contractor)

Payment for such work, if accomplished without written authorization, shall not be borne by the County and shall constitute adequate grounds for dismissal or other action against the Architect.

- 19) As part of the Architect's Basic Services, the Architect shall modify the original reproducible drawings and the Project Manual, delineating recorded built conditions of the Project or record documents compiled from the records of the Contractor and the Architect, showing all changes in the Work. This set of Documents shall also include record documents showing actual location of all Work.
 - 20) **Record Drawings:** Record Drawings and documents are to be delivered to the County within thirty (30) days following Substantial Completion of the project by the Architect. Record Drawings shall be produced by the Architect and shall consist of a set of reproducible drawing sheets, based on a Mylar format, specifications on 8 ½ x 11 inch paper and shall provide all the As-Built conditions documented by the Contractor for the project. The Architect shall also provide to the County a set of PDF drawing files and CAD drawing files formatted on CD-ROM with file format to follow the standard utilized by the County at the time of this Agreement. The CD-ROM files shall duplicate the conditions documented on the Mylar Record Drawings. Further, the Architect shall deliver three (3) sets of the operations and maintenance manuals, hard copy and electronic, training videos, written warranties and related documents.
- G. Project Closeout. Upon receipt of written notice that construction is ready for final inspection and work is found acceptable for final payment. The Architect shall provide "as built" drawings in hard copy and electronic form following completion of the project.
- H. 11 Month Inspection Phase. The Architect shall submit to the County its recommendations regarding the completion of all construction contracts. The Architect shall obtain from the Contractor all releases, waivers of lien, guarantees, warranties, maintenance data, bonds, and acknowledge receipt of the Contractor's record drawings. The Architect shall obtain and deliver to the County a signed receipt for all materials turned over.
- 1) The Architect shall attend one design process analysis meeting to assess implementation of sustainable design and construction requirements into the project and review any lessons learned from the overall effort.
 - 2) The Architect shall, eleven months after substantial completion of the project, schedule a meeting with the Architect, Architect's consultants and the County to evaluate the building and its operations, inspect architectural systems, and endeavor to discover defects in materials, equipment, and workmanship. The Architect shall provide a written report of this activity to the County within seven (7) calendar days. The

County, through the Architect, shall notify affected Contractor of any corrective action noted in the report.

6. PROJECT REPRESENTATION BEYOND BASIC SERVICES

If the County and the Architect agree that more extensive representation for observation of the Site than that described in subparagraph E.F.5 shall be provided, the Architect shall, upon written authorization of the County, provide one or more Project Representatives to assist the Architect in carrying out such responsibilities at the site.

- A. Subject to County's approval, the Architect's Project Representative shall be selected, employed, and directed by the Architect. The Architect shall be compensated therefore as mutually agreed between the County and the Architect as set forth in an approved amendment to this Agreement, which shall, in addition, describe the duties, responsibilities, and limitations of authority of such Project Representative(s).
- B. Through the observations of such Project Representative(s), the Architect shall provide further protection for the County against defects and deficiencies in the Work to determine that the Work is carried out in conformance with the plans and specifications; but the furnishing of such project representation shall not diminish the rights, responsibilities, or obligations of the Architect as described in this Agreement.
- C. The County reserves the right to designate a County Representative in lieu of the Architect's Project Representative to provide additional site representation for the County beyond that provided by the Architect. If the County elects to provide a County Representative in lieu of a Project Representative, this subsection shall not diminish the rights, responsibilities, or obligations of the Architect established in this Agreement. The County Representative's duties and limits of authority shall be established so as not to conflict with those of the Architect. The Architect shall cooperate with the County Representative in the performance of its duties.
- D. The County reserves the right to employ an independent cost consultant to provide value and cost architectural or engineering services on the Project. If a cost consultant is retained, an amendment to this Agreement will be required identifying the duties and limits of authority of the cost consultant. The Architect shall cooperate with the cost consultant in the performance of the cost consultant's duties.

7. ADDITIONAL SERVICES

Additional Services of the Architect are services that are in addition to but not included in Basic

The Architect shall receive written authorization from the County before commencing work on any change or alteration to the Contract Documents.
- E. Preparing drawings, specifications, and supporting data and providing other services in connection with Change Orders, provided that the adjustment in the Basic Compensation resulting from the adjusted Construction Cost is not for work which should have been provided pursuant to Basic Services and provided that such Change Orders are required because of causes not related to the actions or responsibilities of the Architect.
- F. Conducting investigations, surveys, valuations, inventories, or detailed appraisals of existing facilities when such work is not covered by this Agreement.

Following installation of furniture, fixtures, and equipment, Architect shall inspect the installation and prepare a list for items requiring correction. Upon notification from the installer that all corrections have been made, Architect shall again inspect the site to confirm that corrections were properly done and authorize final payment of the furniture, fixtures and equipment.
- J. Payments for additional services of the Architect shall be a negotiated lump sum, excluding additional services of consultants.
- K. Payments for additional services of consultants, including but not limited to the additional structural, civil, landscape, interior design, mechanical, and electrical services, shall be computed by applying a multiple not to exceed of 1.10 times the amounts billed to the Architect for such services. The Architect shall provide to the County for approval, hourly rates for consultants and its employees detailed by professional levels prior to incurring any liability for Additional Services. GRT will be added as a separate item in the pay request.

10. FURNISHINGS AND EQUIPMENT

The Architect shall provide dimensional, color finish, power, etc., information necessary to specify any moveable furnishings and equipment not included in the project. Dimensional furniture plans shall incorporate and coordinate the requirements for electrical, communications, and data based on use and equipment, as well as the location of HVAC control devices and access panels. The Architect shall be compensated with Additional Services for any design and specification related to movable furnishings, fixtures and equipment requested by the County beyond that described above, provided that the Architect is not obligated to perform, furnish or incur such services as part of Basic Services.

11. TELECOMMUNICATIONS EQUIPMENT

All linkages of non-graphical data with graphic elements, relationships between database tables, and report format shall be maintained. All database tables shall conform to the structure and field naming guidance provided by the County. The Architect shall conform database file format preference with the County prior to issuance of database files.
- E. File formats for project management documents shall be either that used by Microsoft Project or hard copy. Confirm file format with County. Save project files with baseline.
- F. Deliverables integrating multiple file formats may be submitted as a PDF (version 4 or later) in addition to the base file structure. Examples include reports, photographs, and manuals created by using a variety of software packages and file formats. Confirm deliverable format preference with the County.
- G. Building Information Modeling (BIM). Projects and project teams are encouraged to utilize 3D object model and other building information model technology and software applications (including during project stages of planning, design, construction, and handover to space management and facility operations and maintenance). Outputs from these applications are acceptable as deliverables to the County, provided that 2D output is also submitted that fully complies with all provisions herein.

13. KEY PERSONNEL AND CONSULTANTS

The Architect's key personnel and consultants designated for this Project shall remain assigned for the duration of the Project. Any substitutions of the Architect's key personnel and consultants require written notification to the County and prior written consent of the County.

14. GEOTECHNICAL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of necessary geotechnical or soils engineering services that will be required. If the Architect does not believe the services of a Geotechnical Engineer are required for the project, a written notice of such shall be provided to the County stating same. Geotechnical engineering and any necessary surveys shall be County-provided, as Additional Services or a reimbursable expense.

15. CIVIL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of need and extent of civil engineering required for the project to protect new and existing structures on or around the site from adverse conditions. Extensive civil engineering, or civil engineering work outside of the immediate site proposed for the project, shall be Additional Services or a reimbursable expense.

16. STANDARD OF CARE

The Architect represents that its officers, agents, employees and consulting professionals shall possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, joint ventures, and agents shall not be construed as a diminution of the Architect's liability and responsibilities to the County.

17. APPLICATION OF PROFESSIONAL SEALS

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. For project manuals and technical reports the seal shall be provided by the design professional responsible for the overall coordination of the project. If more than one design professional has responsibility for portions of the work, additional seals may be provided on the cover, or on a separate signature sheet immediately following the table of contents.

The Architect shall submit, for the County's approval and as part of this Agreement, a schedule of performance of the Architect's services and shall include allowances for periods of time required for the County's review and approval of submissions and for approvals of authorities having jurisdiction over the Project. This schedule, when approved by the County, shall not, except for reasonable cause not within the control of the Architect, be exceeded by the Architect (see Exhibit A, Compensation and Schedule. Failure of the Architect to perform within this schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Architect.

21. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Architect or its employees in the interest of the Project. The Architect shall incur no expenses for which the Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with the Project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.

All forfeited fees shall be returned to the County.

- D. Construction documents and specifications will be printed by the lowest quote received from print rooms specified by the County. All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Architect and the Architect's consultants shall be provided as part of the Architect's Basic Compensation.

- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

23. RESPONSIBILITY FOR CONSTRUCTION COST

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11) or an evaluation prepared by the Architect indicates that the Project exceeds the MACC, the provisions outlined below shall apply:

- 1) Evaluations of the County's Project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Architect represents the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.
- 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Architect and permit reasonable and necessary revisions or reductions to the scope of the Project. The Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC;
- 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Architect shall be permitted to determine what materials, equipment, component systems, and types of construction are to be included in the Bidding or Proposal

Documents to bring Construction Cost within the MACC. With the written consent of the County, the Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit;

- 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Architect submits Bidding or Proposal Documents to the County, the Project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought;

- 5) ~~The MACC, therefore, is established as a condition of this Agreement.~~ When it is exceeded by the lowest bona fide bid, the County may:

- a. Give written approval of an increase on the MACC, or
- b. Authorize re-bidding the Project within a reasonable time, and
- c. Cooperate with the Architect in revising the Project Scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Architect in revising the quality and scope of the Project; and the Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

24. ARCHITECT'S RECORDS AND AUDIT

- A. Records of expenses by the Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative;
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments;
- C. Records of expenses shall be kept by the Architect and its consultants and shall be available to the County until all applicable Statutes of Limitations have run, and this

provision shall survive and continue beyond the termination of other terms of this Agreement;

- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three (3) years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

25. OWNERSHIP AND USE OF DOCUMENTS

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Architect shall become the sole property of the County whether the Project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement;
- B. All documents, including drawings and specifications prepared by the Architect pursuant to this Agreement are instruments of service in respect to the Project. The Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Architect's services are not retained;
- C. The original drawings may be marked by the County or the Architect to designate the restrictions of use of these documents as set forth in the subparagraph 13.B;
- D. Copyright: No reports, maps, or other documents produced in whole or in part under this Agreement shall be the subject of an application for copyright by or on behalf of the Architect.

2) The Architect shall, eleven months after substantial completion of the project, schedule a meeting with the Architect, Architect's consultants and the County to evaluate the building and its operations, inspect architectural systems, and endeavor to discover defects in materials, equipment, and workmanship. The Architect shall provide a written report of this activity to the County within seven (7) calendar days. The

County, through the Architect, shall notify affected Contractor of any corrective action noted in the report.

The Architect shall be compensated therefore as mutually agreed between the County and the Architect as set forth in an approved amendment to this Agreement, which shall, in addition, describe the duties, responsibilities, and limitations of authority of such Project Representative(s).
- B. Through the observations of such Project Representative(s), the Architect shall provide further protection for the County against defects and deficiencies in the Work to determine that the Work is carried out in conformance with the plans and specifications; but the furnishing of such project representation shall not diminish the rights, responsibilities, or obligations of the Architect as described in this Agreement.
- C. The County reserves the right to designate a County Representative in lieu of the Architect's Project Representative to provide additional site representation for the County beyond that provided by the Architect. If the County elects to provide a County Representative in lieu of a Project Representative, this subsection shall not diminish the rights, responsibilities, or obligations of the Architect established in this Agreement. The County Representative's duties and limits of authority shall be established so as not to conflict with those of the Architect. The Architect shall cooperate with the County Representative in the performance of its duties.
- D. The County reserves the right to employ an independent cost consultant to provide value and cost architectural or engineering services on the Project. If a cost consultant is retained, an amendment to this Agreement will be required identifying the duties and limits of authority of the cost consultant. The Architect shall cooperate with the cost consultant in the performance of the cost consultant's duties.

The Architect shall receive written authorization from the County before commencing work on any change or alteration to the Contract Documents.
- E. Preparing drawings, specifications, and supporting data and providing other services in connection with Change Orders, provided that the adjustment in the Basic Compensation resulting from the adjusted Construction Cost is not for work which should have been provided pursuant to Basic Services and provided that such Change Orders are required because of causes not related to the actions or responsibilities of the Architect.

- H. Providing tests, inspections, and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

- I. Providing all required work for design, selection, and preparation of contract documents, and bidding for the procurement of furniture, fixtures, and related equipment. Following installation of furniture, fixtures, and equipment, Architect shall inspect the installation and prepare a list for items requiring correction. Upon notification from the installer that all corrections have been made, Architect shall again inspect the site to confirm that corrections were properly done and authorize final payment of the furniture, fixtures and equipment.
- J. Payments for additional services of the Architect shall be a negotiated lump sum, excluding additional services of consultants.
- K. Payments for additional services of consultants, including but not limited to the additional structural, civil, landscape, interior design, mechanical, and electrical services, shall be computed by applying a multiple not to exceed of 1.10 times the amounts billed to the Architect for such services. The Architect shall provide to the County for approval, hourly rates for consultants and its employees detailed by professional levels prior to incurring any liability for Additional Services. GRT will be added as a separate item in the pay request.

8. MEETINGS

The Architect shall be attendance at, and record minutes of, all meetings required by this Agreement throughout the course of the project as set forth herein. The Architect shall initiate additional meetings germane to the Agreement when authorized, in writing, to the County. The Architect shall distribute copies of meeting minutes to participants and other interested parties as directed by the County within seven (7) calendar days. The Architect consultants shall attend each meeting as appropriate or as requested by the County.

9. MONTHLY PROGRESS REPORTS

- A. The Architect shall submit monthly progress reports of design/construction activities to the County. Failure to submit monthly reports may result in delay to the Architect's progress payments. The report shall include:
 - 1) Activities completed and items pending since last report,
 - 2) Projected progress,
 - 3) Comparison of schedule to actual progress, and
 - 4) Decisions or information required.

B. The Architect shall request from the County the following:

- 1) Information sufficient for the Architect to develop program criteria including the County's goals, objectives, and needs, and the organizational chart of individuals, furnishings, and equipment that shall occupy the Project.
- 2) To the extent practicable and reasonable, the Architect shall incorporate the County's requests into the documents for construction; however, the Architect is responsible solely to the County for the types of material incorporated into the construction, the size of the facilities constructed, and to design within the MACC.
- 3) A list (by manufacturer and model number) of special equipment (other than 110 volt, 60HZ, requiring less than 10 amps) that requires utility services, including, but not limited to, telecommunication equipment such as data transmission and computer lines that shall be designated by the County's Information Technology Division.

10. FURNISHINGS AND EQUIPMENT

The Architect shall provide dimensional, color finish, power, etc., information necessary to specify any moveable furnishings and equipment not included in the project. Dimensional furniture plans shall incorporate and coordinate the requirements for electrical, communications, and data based on use and equipment, as well as the location of HVAC control devices and access panels. The Architect shall be compensated with Additional Services for any design and specification related to movable furnishings, fixtures and equipment requested by the County beyond that described above, provided that the Architect is not obligated to perform, furnish or incur such services as part of Basic Services.

11. TELECOMMUNICATIONS EQUIPMENT

Telecommunications and/or radio equipment for County facilities generally falls under the jurisdiction of the County's Information Technology Division. The County will instruct the Architect when and/or where outlets, conduits, wiring, etc., are to be included in the Project. The Architect shall coordinate with utility companies and other agencies.

12. SOFTWARE REQUIREMENTS

- A. Drawing Formats. All CAD drawings shall be supplied in PDF format as well as in DWG format and be readable by the County-supported CAD desktop software (Autodesk AutoCAD). "Readable" means the ability to open a file without any errors (such as proxy, font substitution, etc.) and with objects, layers, and other file properties remaining intact.

- B. Other formats. File formats for word processor documents, spreadsheet documents, or slide presentations shall be those used by the Microsoft family of office software such as Word, Excel, and PowerPoint. Contact the County for the version. Macros may be included with these documents provided they are virus free, their function is explained next to the Code, and they are not write protected.
- C. Graphics shall be submitted in TIF, GIF, JPG, CALS or PDF file format (compressed image formats only). This option is intended for photos, conceptual sketches, etc., and not to indicate that raster file drawings will be accepted in place of AutoCAD DWG files.
- D. Data file formats for projects that employ information contained in a database or spreadsheet shall be those used by one of the following: Oracle, Microsoft Access, Microsoft SQL, or Microsoft Excel. All linkages of non-graphical data with graphic elements, relationships between database tables, and report format shall be maintained. All database tables shall conform to the structure and field naming guidance provided by the County. The Architect shall conform database file format preference with the County prior to issuance of database files.
- E. File formats for project management documents shall be either that used by Microsoft Project or hard copy. Confirm file format with County. Save project files with baseline.
- F. Deliverables integrating multiple file formats may be submitted as a PDF (version 4 or later) in addition to the base file structure. Examples include reports, photographs, and manuals created by using a variety of software packages and file formats. Confirm deliverable format preference with the County.
- G. Building Information Modeling (BIM). Projects and project teams are encouraged to utilize 3D object model and other building information model technology and software applications (including during project stages of planning, design, construction, and handover to space management and facility operations and maintenance). Outputs from these applications are acceptable as deliverables to the County, provided that 2D output is also submitted that fully complies with all provisions herein.

13. KEY PERSONNEL AND CONSULTANTS

The Architect's key personnel and consultants designated for this Project shall remain assigned for the duration of the Project. Any substitutions of the Architect's key personnel and consultants require written notification to the County and prior written consent of the County.

The County may require substitution of any personnel or consultants provided that the County has first notified the Architect in writing and allowed a reasonable period for adjustments and/or corrections.

14. GEOTECHNICAL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of necessary geotechnical or soils engineering services that will be required. If the Architect does not believe the services of a Geotechnical Engineer are required for the project, a written notice of such shall be provided to the County stating same. Geotechnical engineering and any necessary surveys shall be County-provided, as Additional Services or a reimbursable expense.

15. CIVIL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of need and extent of civil engineering required for the project to protect new and existing structures on or around the site from adverse conditions. Extensive civil engineering, or civil engineering work outside of the immediate site proposed for the project, shall be Additional Services or a reimbursable expense.

16. STANDARD OF CARE

The Architect represents that its officers, agents, employees and consulting professionals shall possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, joint ventures, and agents shall not be construed as a diminution of the Architect's liability and responsibilities to the County.

17. APPLICATION OF PROFESSIONAL SEALS

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. For project manuals and technical reports the seal shall be provided by the design professional responsible for the overall coordination of the project. If more than one design professional has responsibility for portions of the work, additional seals may be provided on the cover, or on a separate signature sheet immediately following the table of contents.

18. REVIEW PROCESS

The Architect shall submit documents for review as required by the Agreement. The Architect shall provide five (5) sets of review documents to the County for each review. Following the reviews, the Architect shall respond to the County's Project Manager in writing to all review

comments and questions within fourteen (14) calendar days.

19. SITE

The physical location on which the Project is built, including all land acquired for the Project or associated with the Project, including surface drainage, wells, transmission lines, easements, rights-of-ways, roadway and existing facilities that may be directly or indirectly affected by the Project or that might affect the Project.

20. TIME

The Architect shall perform Basic and Additional Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Work. The Architect shall submit, for the County's approval and as part of this Agreement, a schedule of performance of the Architect's services and shall include allowances for periods of time required for the County's review and approval of submissions and for approvals of authorities having jurisdiction over the Project. This schedule, when approved by the County, shall not, except for reasonable cause not within the control of the Architect, be exceeded by the Architect (see Exhibit A, Compensation and Schedule. Failure of the Architect to perform within this schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Architect.

21. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Architect or its employees in the interest of the Project. The Architect shall incur no expenses for which the Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with the Project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.
- B. Expenses of fees paid for securing approvals of authorities having jurisdiction over the Project.
- C. The Architect shall charge Bidders or Offerors a deposit fee equal to the full cost of reproduction of drawings, specifications, and other documents required by the County to solicit bids or proposals and execute the Construction Contract. This fee shall be completely refunded if the documents are returned in usable condition within the time frame specified in the Invitation for Bid or Request for Proposals. All forfeited fees shall be returned to the County.

- D. Construction documents and specifications will be printed by the lowest quote received from print rooms specified by the County. All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Architect and the Architect's consultants shall be provided as part of the Architect's Basic Compensation.
- E. Reimbursable expenses, if allowed by this Agreement, shall be compensated at direct cost not to exceed the reimbursable amounts as indicated in Exhibit A of this Agreement, unless otherwise modified by written amendment.

22. OWNER'S RESPONSIBILITIES

- A. The County may designate, in writing, a representative authorized to act in its behalf, however, authority for final approval of the Project Phase Documents, the Contract Documents, or any Change Order is retained by the County. The County shall examine documents submitted by the Architect and shall render decisions promptly to avoid unreasonable delay in the progress of the Architect's services.
- B. The County may designate a Project Manager for the project who shall be the County's primary representative in the administration of this Agreement. The Architect will report to the County's Project Manager. All correspondence from the Architect shall be communicated to the Project Manager.
- C. The County shall ensure review in writing of each project phase and shall notify the Architect of the accord.
- D. The County shall furnish a legal description and certified land survey of the site, giving, as applicable grades and lines of streets, alleys, pavements, and adjoining property; rights-of-ways, restrictions, easements, encroachments, zoning, deed restrictions, boundaries, and contours of the site; locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines both public and private, above and below grade, including inverts and depths.
- E. When documents and drawings provided under the above subparagraph are furnished to the Architect, payment of the Construction Document Phase will not be made to the Architect until the County has received all said documents and drawings.
- F. The County reserves the right not to provide certain project-related documents or drawings to the Architect at the County's discretion.

- G. If the County observes or otherwise becomes aware of any fault or defect in the Project or nonconformance with the Contract Documents, prompt written notice thereof shall be given by the County to the Architect.
- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

23. RESPONSIBILITY FOR CONSTRUCTION COST

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11) or an evaluation prepared by the Architect indicates that the Project exceeds the MACC, the provisions outlined below shall apply:
 - 1) Evaluations of the County's Project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Architect represents the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.
 - 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Architect and permit reasonable and necessary revisions or reductions to the scope of the Project. The Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC;
 - 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Architect shall be permitted to determine what materials, equipment, component systems, and types of construction are to be included in the Bidding or Proposal

Documents to bring Construction Cost within the MACC. With the written consent of the County, the Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit;

- 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Architect submits Bidding or Proposal Documents to the County, the Project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought;

- 5) The MACC, therefore, is established as a condition of this Agreement. When it is exceeded by the lowest bona fide bid, the County may:

- a. Give written approval of an increase on the MACC, or
- b. Authorize re-bidding the Project within a reasonable time, and
- c. Cooperate with the Architect in revising the Project Scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Architect in revising the quality and scope of the Project; and the Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

24. ARCHITECT'S RECORDS AND AUDIT

- A. Records of expenses by the Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative;
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments;
- C. Records of expenses shall be kept by the Architect and its consultants and shall be available to the County until all applicable Statutes of Limitations have run, and this

provision shall survive and continue beyond the termination of other terms of this Agreement;

- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three (3) years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

25. OWNERSHIP AND USE OF DOCUMENTS

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Architect shall become the sole property of the County whether the Project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement;
- B. All documents, including drawings and specifications prepared by the Architect pursuant to this Agreement are instruments of service in respect to the Project. The Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Architect's services are not retained;
- C. The original drawings may be marked by the County or the Architect to designate the restrictions of use of these documents as set forth in the subparagraph 13.B;
- D. Copyright: No reports, maps, or other documents produced in whole or in part under this Agreement shall be the subject of an application for copyright by or on behalf of the Architect.

26. MAINTENANCE

Ease of maintenance and the ability to repair major items of installed equipment by replacement are essential to the Project. To ensure that these services can be adequately performed after the Project is accepted by the County, the Architect shall:

- A. In all relevant Contract Documents, design and provide for all major installed equipment in the Project, including but not limited to, removal, access, maintenance, and storage space needs. In addition, all installed equipment systems shall be appropriately identified and labeled to describe the capacities, flows, and other pertinent information related to their maintenance and safe operation;
- B. Specify only equipment that can be readily maintained by the County or other qualified commercial repairman;

- C. Provide Construction Documents that accurately depict the installation of all major items of installed equipment and which provide reasonable detail on all other major systems to be installed;
- D. At the completion of the Schematic, Design Development, and Construction Documents Phases, brief the County on the rationale for the selection of the major mechanical and electrical systems to be specified in the Contract Documents, together with the probable life-cycle costs.

27. EXHIBITS

All exhibits, attachments, riders and addenda referred to in this Agreement, including but not limited to, the exhibits referred to in this Agreement, as well as those listed below, are hereby incorporated into this Agreement by reference and made a part hereof as thought set forth in full in this Agreement to the extent they are consistent with its conditions and terms.

Notwithstanding the foregoing, if Lessor is unable, or will be unable, to complete repairs or construction as required herein, Lessee may terminate this Lease with written notice to Lessor and all further obligations shall cease as of the date of Lessor's receipt of such notice.

15. Assignment or Sublease. This Lease shall not be an asset of Lessee and Lessee shall have no right to assign this Lease or sublet the Premises without Lessor's prior written consent. Consent to assignment or subletting shall be granted only if (i) Lessee is not in default of the Lease, (ii) the entire Premises are to be used for the same purpose or purposes as stated herein; and (iii) upon payment to Lessor of a negotiated amount of any increased rent, premium, key fee or purchase price paid specifically for this Lease and received by Lessee from any assignee.

16. Quiet Enjoyment. Lessor has full right to execute and to perform this Lease and to grant the estate demised, and the Lessee, upon payment of the required rents and performing the terms, conditions, covenants and agreements contained in this Lease, shall peaceably and quietly have, hold and enjoy the Premises during the full Term provided that Lessor shall not be responsible for the acts or omissions of any other Lessee or third party which may interfere with Lessee's use and enjoyment of the Premises. Lessee shall observe the rights of Lessor's other Lessees to the quiet enjoyment of their leaseholds and shall not permit acts or omissions of any person or persons under Lessee's control which may interfere with such other Lessee's quiet enjoyment of their leaseholds.

17. Default by Lessee. Lessee's failure to make any payment due herein for a period of 10 days after written notice thereof by Lessor to Lessee, or Lessee's failure to comply with any term or condition of this Lease for a period of 30 days after written notice thereof by Lessor to Lessee, shall be a default under this Lease, which default shall be subject to the remedies provided herein and such other remedies as may be available by law.

18. Remedies for Lessee's Default.

(a) If Lessee shall default under the terms of this Lease, Lessor may, at Lessor's option, at any time subsequent to such default and prior to curing of such default, declare the Lease terminated by delivering written notice of termination to Lessee and may immediately re-enter and occupy the Premises.

(b) Upon receipt of notice of termination, Lessee agrees to deliver the Premises to Lessor peaceably. Lessor may take such steps and use such force as necessary and appropriate to re-enter and occupy the Premises to include but not limited to changing all entry locks and refusing Lessee entry upon the Premises. Lessor may re-let the Premises, or any portion thereof, and may determine and collect rent.

~~(c) Nothing herein shall limit or prejudice the right of Lessor to prove and obtain as~~ damages by reason of termination for default or breach of this Lease, an amount equal to the maximum amount allowed by statute or rule of law in effect at the time when, and governing the proceedings in which, such damages are to be proved, whether or not such amount be greater than, equal to, or less than, the amount of the difference referred to above, and whether such amount be immediately and otherwise due and payable.

(d) Lessor's remedies as stated in this Lease are cumulative and are not intended to be exclusive of any other remedies or means of redress to which Lessor may be lawfully entitled in the event of any default or breach, or threatened default or breach, of the agreements, terms and conditions herein.

19. Waiver of Default or Remedy

(a) Failure of Lessor to declare an event of default immediately upon its occurrence, or Lessor's delay in taking any action in connection with an event of default, shall not constitute a waiver of the default, but Lessor shall have the right to declare the default at any time and take such action as is lawful or authorized under this Lease. Pursuit of any one or more the remedies set forth herein above shall not preclude pursuit of any one or more the other remedies provide elsewhere in this Lease or provided by law, nor shall pursuit of any remedy provided constitute forfeiture or waiver of any rent or damages accruing to Lessor by reason of the violation of any of the terms, provisions or covenants of this Lease.

(b) Failure by Lessor to enforce one or more of the remedies provided upon an event of default shall not be deemed or construed to constitute a waiver of the default or of any other violation or breach of any of the terms, provisions and covenants contained in this Lease.

(c) Acceptance of keys to the Premises or entry upon or into the Premises by Lessor or its agents or employees shall not be deemed an acceptance of surrender of the Premises unless Lessor shall so state and consent in writing.

(d) The receipt of rent by Lessor, with knowledge of any breach of this Lease by Lessee

or of any default on the part of Lessee in observance or performance of any of the terms, covenants or conditions of this Lease, shall not be deemed to be a waiver of any provision of this Lease. No receipt of monies by Lessor from Lessee after the termination or cancellation hereof shall reinstate, continue or extend the term hereof, or affect any notice heretofore given to Lessee, or operate as a waiver of the right of Lessor to enforce the payment of fixed or additional rent or other charges then due or thereafter falling due, or operate as a waiver of the right of Lessor to recover possession of the Premises by any means.

20. Holding Over. In the event of holding over by Lessee after the expiration or termination of this Lease, the hold over shall be as a tenancy at will and all of the terms and provisions of this Lease shall be applicable during that period, except that Lessee shall pay Lessor as rental for the period of such hold over an amount equal to one and one-quarter (1.25) times the amount of the monthly rent payable for the Term. Lessee agrees to immediately vacate and deliver the Premises to Lessor after expiration of the Term upon Lessee's receipt of notice from Lessor to vacate. No holding over by Lessee, whether with or without consent of Lessor, shall operate to extend this Lease except as otherwise expressly provided herein.

21. Rights of First Mortgagee. Lessee and all of Lessee's subleases or assigns accept this Lease subject and subordinate to the terms and provisions of any recorded real estate contract, mortgage or deed of trust lien presently existing or hereafter created upon the Premises.

22. Estoppel Certificates. Lessee agrees to furnish promptly, from time to time, upon request of Lessor or Lessor's mortgagee, statements certifying, if applicable and correct, that Lessee and Lessee's subleases are in possession of the Premises; the Premises are acceptable; the lease and any subleases are in full force and effect; the Lease and any subleases are unmodified; Lessee and any subleases claim no present charge, lien, or claim of offset against rent; the rent is paid for the current month, but is not prepaid for more than one month and will not be prepaid for more than one month in advance; there is no existing default by reason of some act or omission by Lessee, any sublease or Lessor; and, such other matters as may be reasonably required by Lessor or Lessor's mortgagees.

25. Bankruptcy or Insolvency. Lessee agrees that should Lessee make an assignment for the benefit of creditors or should Lessee be adjudged bankrupt, either by voluntary or involuntary proceedings, or if otherwise a receiver or trustee should be appointed by any court of competent jurisdiction for Lessee because of any insolvency, or if any execution, attachment, replevin, or other court order should be issued against Lessee or any of Lessee's property, whereby the Premises shall be taken or occupied or attempted to be taken or occupied by someone other than Lessee, the occurrence of such event shall be deemed a breach of this Lease and, in such event, Lessor shall have the option to terminate this Lease and to re-enter the Premises and take possession thereof. In no event shall this Lease be deemed an asset of Lessee after the assignment for the benefit of creditors, the adjudication in bankruptcy, the appointment of a receiver or trustee, or the issuance of writs of execution, attachment or replevin or other court order against Lessee or Lessee's property whereby the Premises shall be taken or occupied or attempted to be taken or occupied by someone other than Lessee.
