MEMORANDUM

DATE: November 3, 2014

TO: Board of County Commissioners

FROM: Adam Leigland, Public Works Department Director *ALL*

VIA: Katherine Miller, County Manager *KM*

ITEM AND ISSUE: *BCC Meeting November 25, 2014*
Presentation on Roadway Management Program (Public Works/Johnny Baca/Diego Gomez)

SUMMARY:

The following information is a presentation on the Santa Fe County Public Works Traffic Count and Pavement Preservation Programs

BACKGROUND:

The County has adopted a series of data-driven strategies and policies with regard to the management of its roadway system and traffic volumes on this system. These include growth management strategies as described in the Sustainable Growth Management Plan, road acceptance, and traffic calming. Further, best-practice pavement preservation policies, which relay in part on traffic volumes, have also been implemented. This presentation is an update on the state of both the County's traffic count program and its pavement preservation program.

DISCUSSION:

Santa Fe County has been collecting traffic data information since 2000; however, this information was limited to paved or chip-sealed roads, and was done on a rather ad hoc basis. New attention to the need, new management processes, and recent technological advances using specialized laser radar equipment now allow for a much more robust traffic data collection effort. In fact, between July 2000 and December 2012, 260 traffic counts were performed by County staff. With the new program, between January 2013 and October 2014, 406 new counts were performed, with the focus on unimproved roads, an increase of 256%, in less than 2 years. The ultimate goal of this program is to record a new traffic count for each of the 825 individual County-maintained roads throughout Santa Fe County on an annual basis. The raw count data, a sample data collection form, and a map graphically showing the data are all attached to this memo.

One of the primary recipients of traffic count data is the road maintenance program. In 2011, the County began a pavement preservation program that focused on asset management principles and

preventative maintenance. The program, which utilizes a third-party, 10-step condition rating system called PASER, has been a success, and this past summer reached a high-water mark when the County was able to apply restoration treatments to almost 40 miles of road. The accomplishment of the program can be seen in the table below, which shows that over the last 3 years, the average PASER rating of the County road network has increased from 6 to almost 7.

Table 1: PASER Rating by Mile of County Road by Year

Yr	PASER Rating											Ave PASER
	10	9	8	7	6	5	4	3	2	1	Total	
2011	7.63	5.87	15.17	64.49	59.82	55.46	19.86	11.75	2.78	0.20	242.03	6.0
2014	20.93	14.90	66.54	60.57	42.32	37.23	18.86	1.56	0.00	0.00	260.01	6.9

A number of restoration treatments are available, but for reasons of cost-effectiveness, the County generally applies a chip seal. A chip-seal treatment costs approximately \$22,000/mile, compared to an asphalt treatment, which, while the most desirable to the motorist, costs approximately five times as much, at \$105,000/mile. Chip seal does produce a rougher driving surface and is slightly more obtrusive to the motorist to apply, but staff feels that the benefits outweigh these costs.

ACTION REQUESTED:

None; information only.

Traffic Counting

We Make It Happen

Pavement Preservation

“An effective pavement preservation program will address pavements while they are still in good condition and before the onset of serious damage. By applying a cost-effective treatment at the right time, the pavement is restored almost to its original condition.”

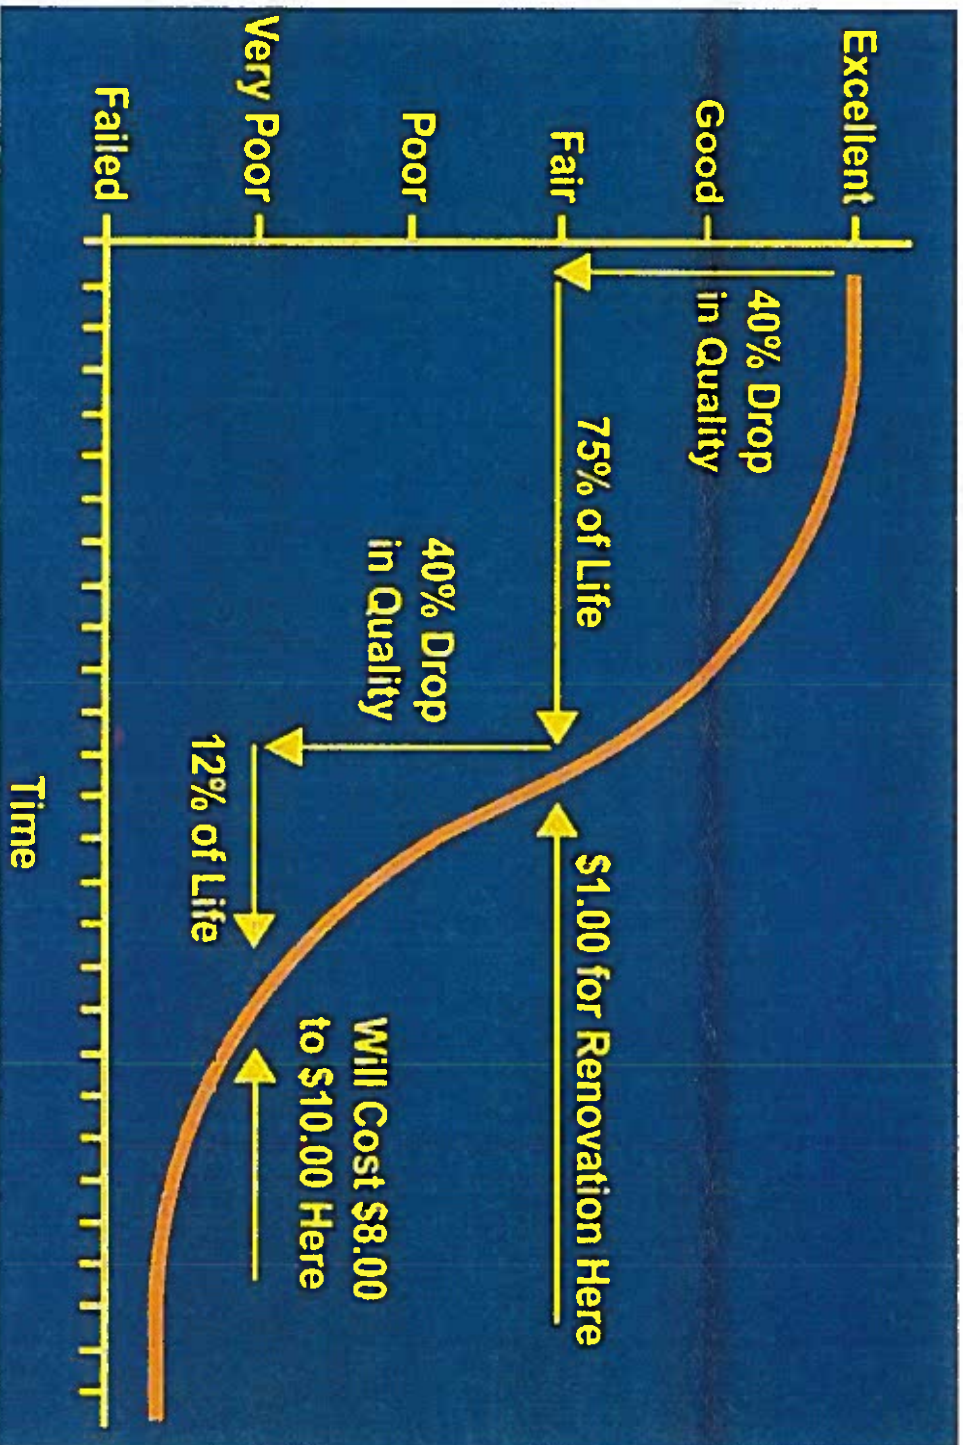

-Federal Highway Administration

Pavement Preservation:

- **Extends pavement life**
- **Enhances pavement performance**
- **Ensures cost effectiveness**
- **Reduces user delays**

Pavement Deterioration Curve

We Make It Happen

Resistance to Pavement Preservation

- **Expectation of “fix the worst first”**
- **“Why spend money on a perfectly good road?”**
- **Resistance to type of preservation treatment**

We Make It Happen

Types and Costs of Pavements Preservation Treatments

<u>Treatment</u>	<u>Lifecycle</u>	<u>Cost for 1 Mile at 20' Wide</u>
Fog Seal	2-3 years	\$5,000
Crack Seal (Contractor)	3 + years	\$10,000-\$60,000
Sand Seal	2-3 years	\$15,000
Chip Seal	3-5 years	\$22,000
Slurry Sealing (Contractor)	3-5 Years	\$40,000
Polymer Modified Chip Seal	5-7 years	\$28,000
Microsurfacing (Contractor)	5-7 years	\$50,000
Nova Chip (Contractor)	7-10 years	\$70,000
2" Asphalt Overlay	10 years	\$105,000

RE: Congratulations and Acknowledgement to the Capital High School Jaguars
Varsity Boys Soccer Team for capturing the 2014 AAAAA (5A) State Title

Board of County Commission meeting, November 25, 2014

BACKGROUND AND SUMMARY:

The Jaguars entered the 2014 State Tournament as a 3 seed beating Chaparral High School 3-2 in the quarterfinal, then moving on with a win over Centennial High School in the Semifinal 5-0. Advancing to the State Championship the Jaguars defeated Albuquerque Academy in a thrilling come-from-behind 2-1 win that came in double overtime with a sudden-death goal.

This marks just the second team state championship in any sport for Capital in its 26-year history, the only other state championship team is the 2004 4A Basketball team.

REQUEST ACTION:

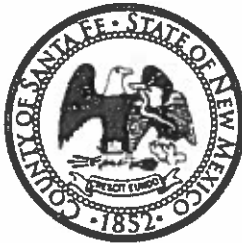

Commissioner Robert A. Anaya respectfully request that the Board of Santa Fe County Commissioners Congratulate and Acknowledge the Capital High School Jaguars, the 2014 5A New Mexico State Soccer Champions.

Re: SFC Corrections Department – Corrections Advisory Committee Bi-annual Report

SUMMARY

The Santa Fe County Board of County Commissioners approved Resolution No. 2012-149 on October 30, 2012 establishing the Santa Fe County Corrections Advisory Committee; on March 26, 2013 the Commission amended the resolution to Resolution No. 2013-22.

BACKGROUND

Pursuant to the provisions of Santa Fe County Board of County Commissioners, Resolution No. 2013-33, as amended, paragraph 9.g., the Santa Fe County Corrections Advisory Committee (hereafter the "CAC" or the "Committee") shall "Develop, publish and present a Santa Fe County Corrections Advisory Committee biannual report...".

DISCUSSION

Attached is the 2nd bi-annual report from the Corrections Advisory Committee.

**Santa Fe County Corrections Advisory Committee
2nd Semi-Annual Report (January-June, 2014)
To The Santa Fe County Board of County Commissioners**

Activities

During the period of January through June, 2014, the Corrections Advisory Committee ("Committee") met monthly and continued its efforts to hear from many of the parties involved with services to detainees during incarceration, their re-entry into the community and their follow-up after release from the correctional facilities of Santa Fe County. During this period, the Committee heard from and sought information from Public Safety Director Pablo Sedillo, Warden Mark Gallegos, Deputy Warden Mark Caldwell, Compliance Officer Anthony Martinez, Financial Manager Steve Shepherd, Nurse Manager Lisa Leiding, Re-entry Specialist Stacy Byard, Staff Psychologist Dr. Merritt Ayad, CQI Coordinator Ardis Thomas, Adult Facility Program Manager Renee Fernandez, Dr. Laura Brown of the Santa Fe Recovery Center, Archdiocesan Deacon Anthony Trujillo, Juvenile Justice Planner for the City of Santa Fe Richard De Mella, the Coalition for Prisoners' Rights Director Mara Taub and author Demetria Martinez.

We have continued to hear about the processes followed in the facilities, staff responsibilities, needs of detainees and the difficulties of connecting detainees to community services upon release. A number of Committee members have been active on related tasks, including the Health Action Plan for Santa Fe County, the District Court's work on improving systems of care for those leaving the facilities and other parallel activities.

Conclusions and Recommendations

1. The Committee is concerned that while improvements have been made in the State of New Mexico's Medicaid eligibility process, barriers still remain. This is in spite of the fact that the DOC now has a staff member dedicated to assisting detainees with the application process. The Committee urges the Santa Fe County Board of County Commissioners and the District Court to encourage the New Mexico Human Services Department to permit detainees to complete their Medicaid applications and to be assigned a case manager, while still in the facility. This applies particularly to those who have not been sentenced and therefore have not been assigned the currently required "release date."

2. A major goal of the Committee in the coming months is to assist the Department of Corrections in formulating a "Re-entry and Reintegration Model" for prisoners. We plan to reach out to community providers in an effort to assist the DOC in facilitating connections to various services in the community, including locating suitable employment.

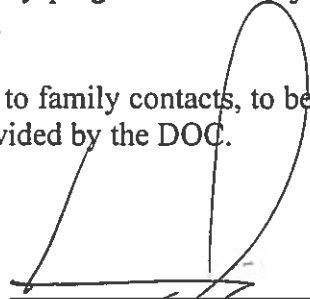

3. The Committee firmly believes that out-patient treatment for released detainees in need of behavioral health services is more effective and more cost-efficient than in-patient facilities and that this is the principal area where the improvement of current services should lie. The Committee has learned of the barriers to connecting to community-based services of all kinds and would like to see case management services available upon release, in order to create a seamless transition from the facility into the community.

4. The Committee commends the Santa Fe County Board of County Commissioners and the Health and Human Services Division of Santa Fe County for creating and funding the position of Re-entry Specialist. The Committee further commends the Santa Fe County Board of County Commissioners for working to facilitate Medicaid enrollment and the Narcan training and distribution program within the facility. We strongly recommend that continued funding be available for the critical position of Re-entry Specialist, currently and ably filled by Stacy Byard. The Re-entry Specialist oversees the enrollment of detainees in Medicaid, the provision of Narcan training and treatment and works to connect detainees with needed community services upon their release.

5. The Committee is currently attempting to prioritize the needed services for detainees upon their release including homelessness (perhaps the number one issue), medical care, drug rehabilitation, alcohol issues, employment and behavioral health issues. The need for and provision of these "wrap-around" services to be available at a "one-stop" shop is being explored.

6. The Committee continues to review detainee re-entry programs in other jurisdictions for potential concepts and ideas applicable to Santa Fe County.

7. The Committee will continue to assess any barriers to family contacts, to be involved with the facility and its staff and to review carefully all data provided by the DOC.

Frank Susman, Committee Chair
