FILE REF.: CDRC CASE # V 14-5330 Francisco and Arlene Tercero Variance

ISSUE:

Francisco and Arlene Tercero, Applicants and the Amarante Romero Trust (Arlene Tercero, Trustee), Applicant, request a variance of Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards) to allow a small lot family transfer of 1.53 acres (Frank and Arlene Tercero parcel) into two lots, each consisting of 0.75 acres more or less and approval of an additional small lot family transfer on the adjacent 2.549 acre lot (Amarante and Emma Romero parcel) to create 2 lots, each consisting of 1.25 acres more or less. The Applicants also request a variance of Article V, Section 8.2.1c (Local Roads) and Article III, Section 2.4.2b 3 (a)(1) (Roads and Access) of the Land Development Code to serve the 4 proposed lots and one existing lot, for a total of five lots. The road that services the properties (Calle De Quiquido) does not meet the specifications of local lane, place or cul-de-sac roads being that the road is too narrow and does not have adequate drainage control necessary to insure adequate access for emergency vehicles. The properties are located at 1443 and 1645 Calle De Quiquido, within Section 32, Township 17 N, Range 9 East (Commission District 2).

102 Grant Avenue · P.O. Box 276 · Santa Fe, New Mexico 87504-0276 · 505-986-6200 · FAX: 505-995-2740 www.santafecountynm.gov

SUMMARY:

The subject lot was created in 1985, via Division of Land, and is recognized as a legal lot of record. Currently there is a residence on the property which was permitted by Santa Fe County (Permit# 99-1369), that the Applicant's son and his family reside in.

The Applicants request a variance of Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards) to allow a Family Transfer of 1.53 acres into two (2) lots; both lots consisting of 0.75 acres +/-. The Applicants state a variance is needed in order to leave their children with a piece of property of their own. The minimum lot size in this area is 2.5 acres with 0.25 acre foot water restrictions as per Ordinance No. 2007-2 Village of Agua Fria Zoning District, Section 10.6 (Density and Dimensional Standards).

On November 20, 2014 this request went before the CDRC to allow a Family Transfer to divide 1.53 acres into two lots (Exhibit 12). At that time the Applicant stated that they were not in agreement with County Road Standards, and the CDRC tabled the request to allow the Applicant to work with staff to address their issues or request appropriate variances.

Since that time the Applicants have modified their request and in addition to the variance to allow the Family Transfer the Applicants are now also requesting approval of an additional Small Lot Family Transfer on the adjacent 2.549 acre lot (Amarante and Emma Romero Parcel) to create two (2) lots, each consisting of 1.25 acres more or less. The Applicant applied for the Small Lot Family Transfer (Amarante Romero Trust) on March 26, 2014. Since the Amarante and Emma Romero Parcel met density requirements and the Applicant agreed to the required thirty-eight (38') foot wide easement, the Application could have been approved administratively. However since the Applicant stated they were opposed to the required thirty-eight (38') foot easement, they are also requesting a variance of Article V, Section 8.2.1c (Local Roads) and Article III, Section 2.4.2b 3 (a)(1) (Roads and Access) to allow an easement less than thirty-eight (38') feet wide. The property is accessed from Calle de Quiquido; the portion of Calle de Quiquido that will service the proposed lots (5 lots in total) is approximately 1400 ft. in length and ranges from 10-18 ft. in width and is a dirt driving surface with a fifteen foot access and utility easement.

The Applicants request that a maximum twenty-four (24') foot easement and an eighteen (18') foot all weather driving surface be approved for the entire length of Calle de Quiquido, beginning at West Alameda to the end of Calle de Quiquido. The Applicants state that the required thirty-eight (38') foot access and utility easement is excessive and may cause problems in the future for the Applicants water wells which would be within the required thirty-eight foot access and utility easement.

Article III, Section 2.4.2b 3 (a)(1) states "All onsite and offsite roads shall meet the design standards for Local Road, except that the minimum width of any easement created for access purposes shall be no less than twenty (20) feet for access to two (2) lots and no less than thirty-eight (38) feet for access to three (3) or more lots. However, for off-site roads the Code Administrator may reduce the road easement width to no less than (20) feet if adequate drainage control is provided and may allow the road surface to be hard packed dirt with a compaction of 95%." Calle de Quiquido does not have adequate drainage control necessary to insure appropriate access for

102 Grant Avenue · P.O. Box 276 · Santa Fe, New Mexico 87504-0276 · 505-986-6200 · FAX:

emergency vehicles. Therefore, the roadway easement cannot be reduced. The Applicants intention is to create two additional lots by subdividing the adjacent 2.549 acre parcel. If approved, Calle de Quiquido will service a total of 5 lots, which will require a thirty-eight (38) foot easement. Calle de Quiquido does not meet the specifications of Article V, Section 8.2.1c, Local Lane, Place or Cul-desac roads, which requires two ten foot driving lanes and six inches of base course in a thirty-eight (38') foot right-of-way.

Article II, Section 3 (Variances) of the County Code states: "Where in the case of proposed development, it can be shown that strict compliance with the requirements of the code would result in extraordinary hardship to the applicant because of unusual topography or other such non-self-inflicted condition or that these conditions would result in inhibiting the achievement of the purposes of the Code, the applicant may submit a written request for a variance." This Section goes on to state "In no event shall a variance, modification or waiver be recommended by a Development Review Committee, nor granted by the Board if by doing so the purpose of the Code would be nullified." The variance criteria does not consider financial or medical reasons as extraordinary hardships

This Application was submitted on December 30, 2014.

The Applicant has provided sufficient noticing by providing notice in the New Mexican, which was published on January 29, 2015. The Applicant has also provided certified mail receipts (dated January 28, 2015) and certification of posting acknowledgment that the public notice has been posted for 21 days on the property.

Growth Management staff have reviewed this Application for compliance with pertinent Code requirements and finds the project is not in compliance with County criteria for this type of request.

APPROVAL SOUGHT:

Approval of a variance of Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards), a variance of Article V, Section 8.2.1c (Local Roads) and Article III, Section 2.4.2b 3 (a)(1) (Roads and Access).

GROWTH MANAGEMENT AREA: SDA-2

HYDROLOGIC ZONE:

Agua Fria Low Density Urban Zone (AFLDUZ), minimum lot size in this area is 2.5 acres per dwelling unit with water restrictions. Through a Small Lot Family Transfer minimum lot size requirements can be reduced to 1.25 acres. Lot size can be reduced to 1 acre with community water or community sewer. Lot size can be further reduced to 0.5 with community water and community sewer. The request does not meet the minimum lot size requirement for this area. However, the lot would meet lot size requirements with community water and sewer.

FIRE PROTECTION:

Agua Fria Fire District.

WATER SUPPLY:

Domestic Well; the closest Santa Fe County waterline is approximately 2,000 feet from the subject property.

LIQUID WASTE:

Conventional Septic System; the closest sewer line (City line) is approximately 2,000 feet from the subject property.

VARIANCES:

Yes

AGENCY REVIEW:

Agency Fire Prevention Division Recommendation
Approved with Conditions

STAFF RECOMMENDATION:

Denial of a variance of Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards), Article V, Section 8.2.1c (Local Roads) and Article III, Section 2.4.2b 3 (a)(1) (Roads and Access).

If the decision of the CDRC is to recommend approval of the Applicant's request, staff recommends imposition of the following conditions:

- 1. Water use shall be restricted to 0.25 acre feet per year per lot. A water meter shall be installed for each lot. Annual water meter readings shall be submitted to the Land Use Administrator by January 1st of each year. Water restrictions shall be recorded in the County Clerk's Office (As per Article III. § 10.2.2).
- 2. A Plat of Survey meeting all County Code requirements shall be submitted to the Building and Development Services Department for review and approval (As per Article III, § 2.4.2).
- 3. Further division of either tract is prohibited; unless all lots are served by community water and sewer. This shall be noted on the plat (As per Article III, Section 10).
- 4. A Development Permit will be required for all grading and clearing of roadways (As per Article II, Section 2). The Applicant shall construct all necessary road improvements prior to plat recordation or submit a financial guarantee (As per Article II, Section 5.5)
- 5. The Applicant shall comply with all Fire Prevention Division requirements at time of Plat review (As per 1997 Fire Code and 1997 Life Safety Code).

EXHIBITS:

- 1. Letter of Request
- 2. Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards).
- 3. Article V, Section 8.2.1c (Local Roads)
- 4. Article III, Section 2.4.2b 3 (a) (1) (Roads and Access)
- 5. Site Photographs
- 6. Recorded Survey Plat
- 7. Recorded Warranty Deed
- 8. Permit # 99-1369
- 9. Site Plan/Proposed Plat
- 10. Aerial of Site and Surrounding Area
- 11. Letter of Support
- 12. November 20, 2014 CDRC Minutes

Re: Amarante Romero Trust #14-3023

Tereceo #14-5330

Dear Miguel:

In accordance with our conversation last Thursday, February 26, 2015, I am writing to confirm that the request for a variance to the required easement standards and roadway surfaces in the referenced matter are as follows:

- 1. An 18-foot "all weather" driving surface from end and on Calle Quiquido; and
- 2. A 24-foot easement for the same road end to end.

Because we are asking for less of a variance that originally requested, it is my understanding that we do not have to re-notice or re-post. Please confirm that this is the case.

I am delivering with this letter the return receipts for the certified mailings Ms. Tercero sent for the last scheduled hearing. I understand the cases will be heard at the March 19, 2015, CDRC meeting.

Finally, this will confirm that I met with Buster Patty and Tim Gilmore at the site last Thursday. They have confirmed that the roadway in place is acceptable to them provided it is extended to the end of the roadway and the turnaround is similarly constructed. I made it clear that the existing roadway is an 18-foot driving surface. All told there will be an 18-foot driving surface with 2-foot borrow ditches on each side.

SOMMER, KARNES & ASSOCIATES, LLP

Romero, Miguel March 2, 2015 Page 2 of 2

Please feel free to call me if you have any questions or comments. Thank you for your attention to this matter.

Sincerely,

Karl H. Sommer

Re: CDRC Case

I just got off the phone with Karl Sommer. He is acting as my attorney to represent both cases, Amarante Romero Trust and Francisco & Arlene Tercero Family transfer and variance applications scheduled to be heard before the CDRC next week. We are requesting that our applications be tabled until next month.

Thank you for your assistance and patience in this matter.

Arlene Tercero

On Monday, February 9, 2015 1:52 PM, Miguel Romero < miromero@santafecountynm.gov > wrote:

Mr. and Mrs. Tercero,

Per our phone conversation this afternoon. If you decided to hire an attorney and he is going to act on your behalf I will need a letter from you stating that. Your attorney will also need to provide me a letter stating that he is acting on your behalf. CDRC packet material is due February 11th by 1200. I need your noticing material ASAP and any letters pertaining to agents etc. If you decide to request to table this case until the following month, I will need something in writing requesting that ASAP. If you wish to withdraw your variance I will need something in writing as well ASAP. Thank you.

Mike Romero, Senior Development Review Spec. Santa Fe County Land Use Building and Development Services Dept. 505-986-6382

Transfer application

Miguel,

I just spoke to Karl Sommer who is acting as my attorney for both these applications. We would appreciate it if you would table our applications for this upcoming public hearing before the CDRC. Thank you.

Arlene Tercero.

10.6 Density and Dimensional Standards

The following table illustrates the dimensional standards that apply in the Village of Agua Fria Zoning District. Measurements and exceptions to the standards of this schedule are listed in the table notes.

Commentary: The density and dimensional standards set forth in this section are not a guarantee that stated development density and intensities can be attained. Other factors—water and other public facility availability, infrastructure capacity, building layout, physical limitations, and parking configuration to name a few—may have the effect of limiting development intensity more than the stated standards.

Notes:

(1) Where adequate water is available, minimum lot area may be reduced by employing water conservation measures and reducing water use. Further reductions may be achieved by submitting proof of adequate long term water availability, connecting to community water, community sewer or both (W&S), all in accordance with Article III, Section 10, Lot Size Requirements of the Code or, such additional density bonus and lot size provisions of County Ordinance 2006-02, Affordable Housing.

(2) Setbacks shall be measured from the property line or from the edge of the road easement where the property line is inside the road easement.

which schedule is on file at the Office of the Public Works Director and the Land Use Office.

- 8.1.12 Construction of roads or other required improvements may be phased according to a schedule that is part of an approved master or development plan.
- 8.1.13 Local roads shall be laid out so that their use by through traffic will be discouraged.

8.2 Road Design

Construction and design standards shall be according to sound engineering practice as follows:

8.2.1 Classification of Highways, Streets and Roads

8.2.1a Arterial Roads and Highways

A major arterial road or highway has from two to six driving lanes, may be divided with a median, and has sufficient additional right-of-way to provide for turning lanes and additional width at major intersections. Major arterials have an average daily traffic of more than 5000 vehicles and a minimum right-of-way of one hundred feet (100'). A minor arterial road has an average daily traffic of 2000 to 5000 vehicles, serves 200 to 1000 dwelling units or lots, and has a minimum right-of-way of sixty six (66) feet. Asphalt paving is required for major arterials at a minimum depth of five (5)inches and for minor arterials to a minimum depth of four (4) inches. Separated driving lanes or park-ways are encouraged. See Appendices A, B.1, B.2 and B.3 for further detail.

8.2.1b Collector Roads

A collector road has two (2) twelve (12) foot driving lanes. It serves 61 to 199 dwelling units or lots and has an average daily traffic volume of 601 to 1999 vehicles and a minimum right-of-way of fifty (50) feet; paving shall achieve a minimum depth of three (3) inches. See Appendices A, B.1, B.2 and B.3.

8.2.1c Local Roads

A local subcollector road has two (2) twelve (12) foot driving lanes, serves 31 to 60dwelling units or lots, and carries an average daily traffic volume of 301 to 600 vehicles with a minimum right-of-way of fifty (50) feet. A local subcollector road has a six (6) inch minimum surface thickness of crushed gravel base course material, provided it can be shown that such minimum thickness is adequate based on subgrade soil conditions; a plasticity index of eight (8) to twelve percent (12%) shall be provided. A local lane, place or cul-de-sac road serves 0 to 30 dwelling units or lots and carries an average daily traffic volume of 0 to 300 vehicles with two (2), ten (10) foot driving lanes with a minimum right-of-way of fifty (50) feet. Local lanes, places and cul-de-sac roads shall be constructed with the same sub-grade and base course specifications as the subcollector road. See also Appendices A, B.1, B.2 and B-3 and Section 8.3 of this Article.

8.2.1d Cul-de-sacs

Cul-de-sacs (dead end roads) shall not be longer than five hundred (500) feet. At the closed end there shall be a turn around having a minimum driving surface radius of at least forty-two (42) feet for roads under 250 feet long and of at least fifty (50) feet for roads 250 feet and longer. A suitable alternative, such as a hammerhead turn around, may be acceptable if approved by the Code Administrator and the Fire Marshal. All turn around areas shall be designed to protect existing vegetation and steep terrain. There shall be a minimum right-of-

which cannot meet the terrain management performance standards shall not be further subdivided or replatted in a manner which creates an additional number of non-conforming lots or parcels. Additionally, lot line adjustments shall not result in a conforming lot becoming non-conforming based on terrain management performance standards.

2. Reviews

(a) Lot Size Requirement Review.

The Code Administrator shall review the application for compliance with the density regulations in Article III, Section 10 of the Code. If the application is for a Small Lot Inheritance Transfer or a Small Lot Family Transfer, the lot size standards in Article II, Section 4 shall apply.

(b) Special District Review

The Code Administrator shall review the location of the lots indicated on the plat and, if a lot is located in a Special Review District, pursuant to Article VI of the Code, will inform the applicant of any additional submittals or reviews required and make the applicable review.

(c) Environmental Review.

The Code Administrator shall inform the applicant of any additional submittals and make the reviews required under Article VII, Environmental Requirements.

(d) Other Reviews

For summary review subdivisions, the Code Administrator shall review the disclosure statement to determine whether the subdivider can fulfill the proposals contained therein, and whether the disclosure statement is consistent with this Code.

3. Required Improvements and Standards

(a) Roads and Access - On-site and Off-site

(1) Except as provided below in paragraphs (6) - (9) of this Subsection, all lots created under this Section shall be provided with adequate access for ingress and egress, utility service, fire protection, and emergency services whether by a road meeting county requirements constructed within an easement and utility easement or by direct access to a public right-of-way. All on and off-site roads shall meet the design standards for a local road as set forth in Appendix 5.B.3, except that the minimum width of any easement created for access purposes shall be no less than twenty (20) feet for access to two (2) lots and no less than thirty-eight (38) feet for access to three (3) or more lots. However, for off-site roads the Code Administrator may reduce the road easement width to no less than twenty (20) feet if adequate drainage control is provided and may allow the road surface to be hard packed dirt with a compaction of ninety-five percent (95%) of the maximum density. All roadways and access shall be subject to the provisions of Section 10.207 of the Uniform Fire Code and to the policy established by the County Fire Marshal regarding fire apparatus access roads under Section 10.207. Provision of easements may also be accomplished by contiguous access easements

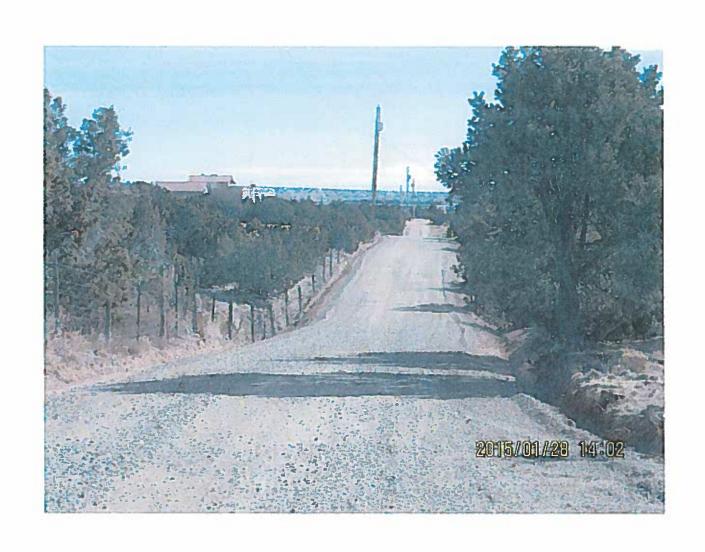

- along property line of adjacent parcels or lots which, when added together, provide the total required width.
- (2) Roads serving two (2) or fewer lots may be treated as driveways and do not have to be constructed until the time of building construction. The number of driveways accessing a public road shall be minimized. The use of shared driveways is encouraged
- (3) When a tract to be developed borders an existing road having a right-of-way insufficient to conform to the minimum standards required by these regulations, which right-of-way will be used by the proposed development, sufficient right-of-way shall be platted, and dedicated or reserved in such a way as would make the resulting right-of-way or road conform with Code requirements.
- (4) The maximum grade of built roads shall be eleven percent (11%). Installation of culverts, where applicable, shall be required at intersections of driveways with County roads.
- (5) Road Construction and/or Road Cut Permits must be obtained if road or driveway construction is to precede any other development on any lot.
- (6) Divisions of land for grazing or farming as identified in Article II, Section 2.3.1.a.ii(c) are exempt from on-site and off-site road requirements.
- (7) Divisions of land that create no parcel smaller than one hundred forty (140) acres as identified in Article II, Section 2.3.1.a.ii(e) are exempt from on-site and off-site road requirements, except when more than one (1) such parcel is created in an area of land, the Code Administrator may require on and off-site road improvements.
- (8) Other land divisions as listed in Article II, Section 2.3.1.a.ii. (a) through (h) may be exempt from road construction standards at the discretion of the Code Administrator.
- (9) In addition to the requirements of this Section, summary review subdivisions shall meet the road improvements of Article V, Section 5.5.6.

(b) Other Off-Site Improvements

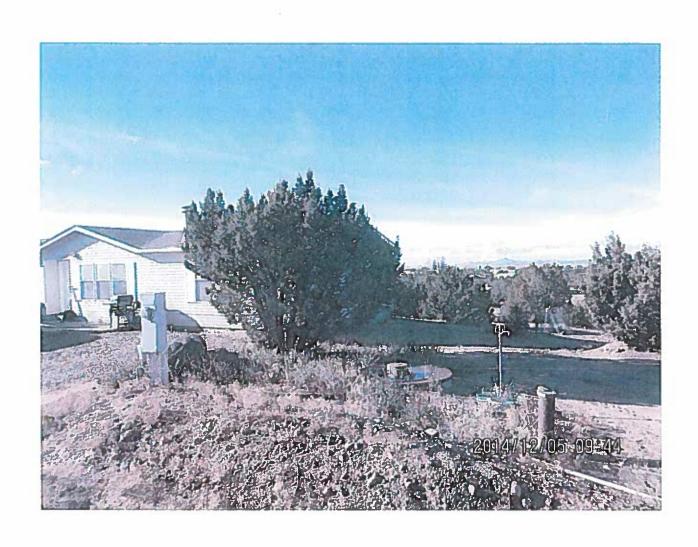

If the Code Administrator determines that it is necessary for health, safety, or welfare reasons, the applicant may be required to construct improvements to existing off-site facilities or to construct planned facilities or portions of planned facilities which can provide relief to existing facilities. The purpose of requiring such improvements is to assure that such facilities which may be negatively impacted, either individually or cumulatively, by the addition of new development, will function efficiently. For the purposes of this Section, off-site facilities include but are not limited to, water systems and sewer systems.

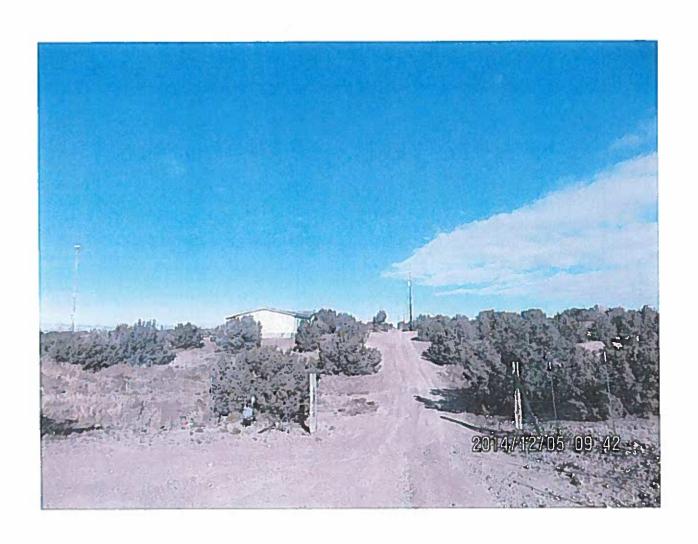

(c) Special Provisions for Family Transfer Improvements.

Off-site improvement requirements do not apply to lots created by Family Transfer for the first lot per immediate family member, Small Lot Family Transfer, or Small Lot Inheritance Transfer provided that the recipient does not sell or transfer such lot for three years from the time the plat is recorded. For second and subsequent lots and for lots sold or transferred by the recipient prior to such three year period off-site improvement requirements of this Code shall be met at the time of sale. For Family Transfers to be exempt

Dear Frank,

This is to formalize the arrangement you and I have made concerning my property off West Alameda.

You have my permission to park a double-wide mobile home on the property and to live there with your family, and to make improvements to the property as needed.

Your Dad,

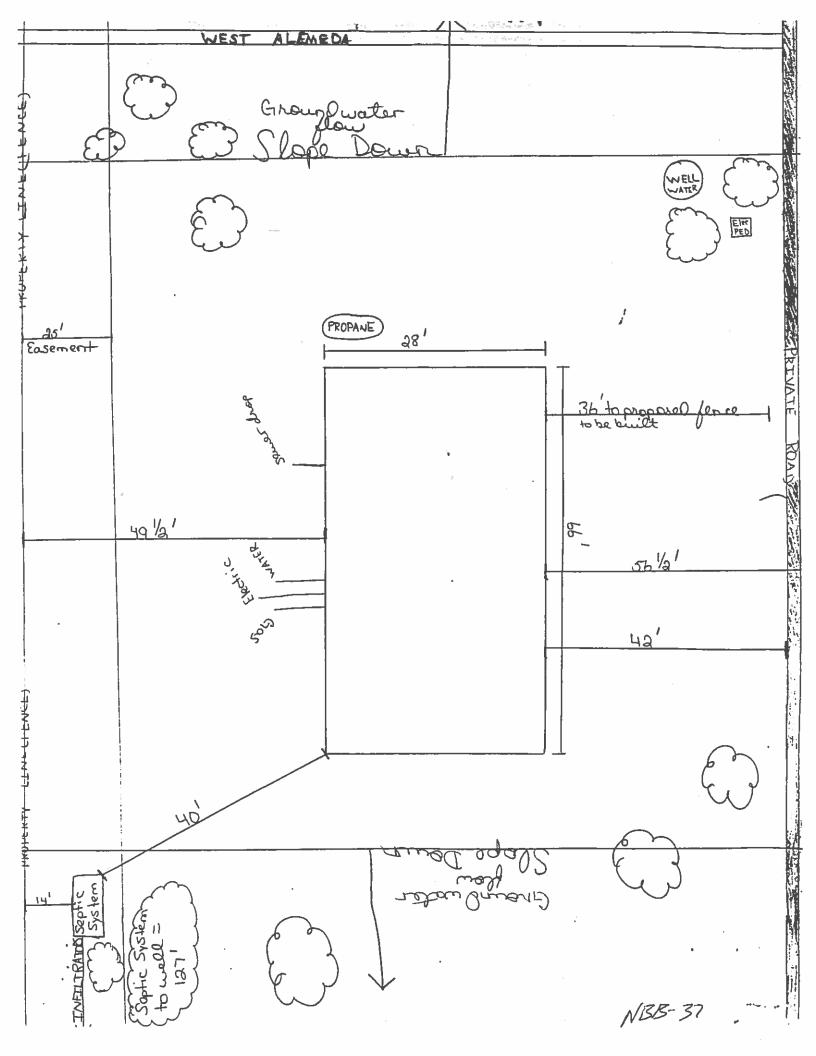

Francisco E. Tercero, Sr.

"The Applicant requests approval for a 2,600 square foot accessory structure to be utilized as a garage/storage building. The purpose of the structure is to store and protect the Applicants recreational vehicles, sports equipment, and personal vehicles. The proposed structure is steel framed, and will be constructed on a concrete slab. There is currently a residence on the property.

"On October 16, 2014, the CDRC met and acted on this case. During the meeting it was discovered that there was a discrepancy in the square footage on the plan's 2,600 square feet versus the written requests submitted by the applicant – 2,184 square feet. The decision of the CDRC was to table this case for clarification of the discrepancy. The applicant has submitted a letter requesting a 2,600 square foot accessory structure as depicted on the proposed plans."

Mr. Martinez stated staff was recommending approval of an accessory structure greater than 2,000 square feet to be utilized as a garage/storage building subject to the following conditions:

- 1. Compliance with minimum standards for Terrain Management as per the Land Development Code and compliance with Ordinance No. 2003-6 Water Harvesting.
- 2. The structure shall not be utilized for commercial use.
- 3. The height of the accessory structure shall not exceed 24 feet.

Member Gonzales clarified that the discrepancy arose from the roof area of the portal.

Counsel for the applicant, Karl Sommer, stated the new square footage amount had been republished and renoticed. There was no response to the posting.

There was no one from the public wishing to speak.

Member Katz moved to approve CDRC Case #MIS 14-5360 with staff conditions. Member Anaya seconded the motion which carried unanimously 5-0.

VII. NEW BUSINESS

B. CDRC CASE # V 14-5330 Francisco and Arlene Tercero. Francisco and Arlene Tercero, Applicants, request a variance of Ordinance No. 2007-2 Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards) to allow a Family Transfer of 1.53 acres into two lots; Both lots consisting of +/-0.75 acres. The property is located at 1645 Calle de Quiquido, within Section 32, Township 17, North, Range 9 East (Commission District 2)

Mike Romero gave the staff report as follows:

"The subject lot was created in 1985, via Division of Land, and is recognized as a legal lot of record. Currently there is a residence on the property which was

permitted by Santa Fe County as Permit# 99-1369, that the Applicants' son and his family reside in. The Applicants wish to give their son the portion of the property that he resides on and the other lot will be given to the Applicants' other child. The Applicants request a variance of Ordinance No. 2007-2 (Village of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards) to allow a Family Transfer of 1.53 acres into two lots; both lots consisting of 0.75 acres +/-. The Applicants state a variance is needed in order to leave their children with a piece of property of their own.

"The minimum lot size in this area is 2.5 acres with 0.25 acre-foot water restrictions, Ordinance No. 2007-2 Village of Agua Fria Zoning District, Section 10.6 Density and Dimensional Standards. According to the Office of the State Engineer, the owner of the well on the property is Francisco and Arlene Tercero (Permit RG-64227), which was approved on December 4, 1998. The well permit provides the maximum amount of water that may be appropriated under this permit is three acre-feet in any year. At this time the subject property has no water restrictions.

Mr. Romero indicated staff was recommending denial of a variance of Ordinance No. 2007-2, Village of Agua Fria Zoning District, Section 10.6, Density and Dimensional Standards. If the decision of the CDRC is to recommend approval of the Applicants' request, staff recommends imposition of the following conditions:

- 1. Water use shall be restricted to 0.25 acre feet per year per lot. A water meter shall be installed for each lot. Annual water meter readings shall be submitted to the Land Use Administrator by January 1st of each year. Water restrictions shall be recorded in the County Clerk's Office (As per Article III, § 10.2.2).
- 2. A Plat of Survey meeting all County Code requirements shall be submitted to the Building and Development Services Department for review and approval (As per Article III, § 2.4.2).
 - 3. Further division of either tract is prohibited; unless all lots are served by community water and sewer. This shall be noted on the plat (As Per Article III, Section 10).
- 4. The Applicant shall comply with all Fire Prevention Division requirements at time of Plat review (As per 1997 Fire Code.)

Member Katz asked what the NMED lot size requirement was for a septic system. Ms. Lucero said .75 acres was the minimum.

Arlene and Francisco Tercero were placed under oath. Ms. Tercero said they have eight children and this is one piece of property they hope to divide in order to give it to their children. She said this has been a drawn out process and they have been working with staff to eliminate some of the conditions. Staff requires a 38-foot utility easement which would conflict with the location of the two wells which are close to the existing roadway. She asked about the repercussions: Would they be able to redrill the wells if necessary? Would they be forced to abandon the wells when community water is near?

Member Anaya asked if there were any utilities within the easement. Mr. Tercero stated the gas line is in the 38-foot proposed easement along with the well. The gas line is within 20 feet. He said there is only one family past the lot which already has all utilities within the original 15-foot easement. No one would be landlocked by what they propose.

Member Gonzales noted that the plat makes mention of an emergency vehicle turnaround. He suggested making provisions for a turnaround at the end rather than having the entire road widened. Member Gonzales noted the report says water and sewer are both 2,000 feet away. He asked if they would be willing to hook up when they are nearer. Ms. Tercero stated they invested heavily in having the wells drilled and she did not want to cause problems for their children in the future. The lot is not amenable to having greater density than two lots due to the presence of arroyos.

Mr. Tercero described the acreage of the nearby properties.

Member Katz asked for staff clarification on the easement requirements. Ms. Lucero said the code requires a 38-foot easement for any roads that are accessing three or more lots, however, that could be reduced to 20 feet with adequate drainage control. Member Katz suggested these issues should be clarified before the CDRC makes a decision.

Mr. Romero said hooking up to community water and sewer were triggered when they were within 200 feet. Ms. Lucero recommended tabling the case to clear up the various issues.

Member Katz moved to table and Member Anaya seconded. The motion passed unanimously [5-0]

CDRC CASE # Z 06-5033 Village at Galisteo Basin Preserve ("Trenza")

Master Plan Amendment. Commonweal Conservancy (Ted Harrison),
Applicant, requests a Master Plan Amendment to a previously approved
Master Plan to reconfigure the Planning Envelope from 10,360 acres to 3,560
acres, to reduce the size of the development from 965 dwelling units and
150,000 square feet of commercial and civic land uses to 450 dwelling units
and 88,500 square feet of mixed use, commercial and civic land uses, a green
cemetery and a 60-seat outdoor amphitheater. The Applicant also requests a
modification of the original five-phase development to six phases that would
take place over a period of 12 years. The property is located south of
Eldorado, west off US 285, south of the railroad tracks, within Sections 1, 3,
11-14 23 and 24, Township 14 North, Range 9 East; Sections 5-7 and 18,
Township 14 North, Range 10 East; Sections 34-36, Township 15 North,
Range 9 East; and Sections 30 and 31, Township 15 North, Range10 East
(Commission District 5)

Vicente Archuleta read the case caption and gave the following staff report:

The newspapers of **New Mexico** make public notices from their printed pages available electronically in a single database for the benefit of the public. This enhances the legislative intent of public notice - keeping a free and independent public informed about activities of their government and business activities that may affect them. Importantly, Public Notices now are in one place on the web (<u>www.PublicNoticeAds.com</u>), not scattered among thousands of government web pages.

CDRC CASE # V 14-5330

NOTICE OF PUBLIC HEARING

Notice is hereby given that a public hearing will be held to consider a request by Francisco and Arlene Tercero, Applicants and the Amarante Romero Trust (Arlene Tercero, Trustee), Applicant, for a variance of Ordinance No. 2007-2 (Village Of Agua Fria Zoning District), Section 10.6 (Density and Dimensional Standards) to allow a small lot family transfer of 1.53 acres (Frank and Arlene Tercero parcel) into two lots, each consisting of 0.75 acres more or less and approval of an additional small lot family transfer on the adjacent 2.549 acre lot (Amarante and Emma Romero parcel) to create 2 lots, each consisting of 1.25 acres more or less. The Applicants also request a variance of Article V, Section 8.2.1c (Local Roads) and Article III, Section 2.4.2b 3 (a) (1) (Roads and Access) of the Land Development Code to serve the 4 proposed lots and one existing lot, for a total of five lots. The road that services the properties (Calle De Quiquido) does not meet the specifications of local lane, place or cul-de-sac roads because it is too narrow and does not have adequate drainage control necessary to insure adequate access for emergency vehicles. The properties are located at 1443 and 1645 Calle De Quiquido, Within Section 32, Township 17N, Range 9 East (Commission District 2).

A public hearing will be held in the County Commission Chambers of the Santa Fe County Courthouse, corner of Grant and Palace Avenues, Santa Fe, New Mexico on the 19th day of February 2015, at 4:00 p.m. on a petition to the County Development Review Committee, and on April 14, 2015, at 5:00 p.m. before the Board of County Commissioners.

Please forward all comments and questions to the County Land Use Administration Office at 986-6225.

All interested parties will be heard at the Public Hearing prior to the Commission taking action. All comments, questions and objections to the proposal may be submitted to the County Land Use Administrator in writing to P.O. Box 276, Santa Fe, New Mexico 87504-0276; or presented in person at the hearing.

Project Status: Approved Approved with Conditions Denial					
The Fire Prevention Division/Code Enforcement Bureau of the Santa Fe County Fire Department has reviewed the above submittal and requires compliance with applicable Santa Fe County fire and life safety codes, ordinances and resolutions as indicated: (See underlined) Fire Department Access					

Shall comply with Article 9 - Fire Department Access and Water Supply of the 1997 Uniform Fire Code inclusive to all sub-sections and current standards, practice and rulings of the Santa Fe County Fire Marshal

Fire Access Lanes

Section 901.4.2 Fire Apparatus Access Roads. (1997 UFC) When required by the Chief, approved signs or other approved notices shall be provided and maintained for fire apparatus access roads to identify such roads and prohibit the obstruction thereof or both.

Roadways/Driveways

Shall comply with Article 9, Section 902 - Fire Department Access of the 1997 Uniform Fire Code inclusive to all sub-sections and current standards, practice and rulings of the Santa Fe County Fire Marshal.

Per case # V14-5330 a new plat dated 2015 shall have \$20' wide roadway driving surface for the calle de Quiquido road from West Alameda through the Tercero properties that meet the county standards for a roadway accessing multiple residences. Plan dated 2015 shall show an approved hammerhead turnaround on Lot B and shall be installed as noted on plat. For the new lots, driveways shall meet the minimum County standards for fire apparatus access within this type of proposed development at the time of building permits. Driveways shall be County approved all-weather driving surface of minimum 6" compacted basecourse or equivalent. Minimum gate and driveway width shall be 14' and an unobstructed vertical clearance of 13'6".

Street Signs/Rural Address

Section 901.4.4 Premises Identification (1997 UFC) Approved numbers or addresses shall be provided for all new and existing buildings in such a position as to be plainly visible and legible from the street or road fronting the property.

Section 901.4.5 Street or Road Signs. (1997 UFC) When required by the Chief, streets and roads shall be identified with approved signs.

All access roadway identification signs leading to the approved development area(s) shall be in place. Said signs shall remain in place in visible and viable working order for the duration of the project to facilitate emergency response for the construction phase and beyond.

Properly assigned legible rural addresses shall be posted and maintained at the entrance(s) to each individual lot or building site within 72 hours of the commencement of the development process for each building.

Slope/Road Grade

Section 902.2.2.6 Grade (1997 UFC) The gradient for a fire apparatus access road shall not exceed the maximum approved.

There are no slopes the exceed 11%.

Restricted Access/Gates/Security Systems

Section 902.4 Key Boxes. (1997 UFC) When access to or within a structure or an area is unduly difficult because of secured openings or where immediate access is necessary for life-saving or firefighting purposes, the chief is authorized to require a key box to be installed in an accessible location. The key box shall be of an approved type and shall contain keys to gain necessary access as required by the chief.

Fire Protection Systems

Automatic Fire Protection/Suppression

This office highly recommends the installation of an automatic fire suppression system as per 1997 Uniform Fire Code, Article 10 Section 1003.2.1 and the Building Code as adopted by the State of New Mexico and/or County of Santa Fe. Required automatic fire suppression systems shall be in accordance with NFPA 13 and 13D Standard for automatic fire suppression systems. It is recommended that the homeowner contact their insurance carrier to find their minimum requirements.

• Fire Alarm/Notification Systems

Automatic Fire Protection Alarm systems are highly recommended per 1997 Uniform Fire and Building Codes as adopted by the State of New Mexico and/or the County of Santa Fe. Required Fire

Alarm systems shall be in accordance with NFPA 72, National Fire Alarm Code for given type of structure and/or occupancy use. Said requirements will be applied as necessary as more project information becomes available to this office during the following approval process.

Fire Extinguishers

Article 10, Section 1002.1 General (1997 UFC) Portable fire extinguishers shall be installed in occupancies and locations as set forth in this code and as required by the chief. Portable fire extinguishers shall be in accordance with UFC Standard 10-1.

Portable fire extinguishers are highly recommended to be installed in occupancies and locations as set forth in the 1997 Uniform Fire Code. Portable fire extinguishers shall be in accordance with UFC Standard 10-1.

Life Safety

Fire Protection requirements listed for this development have taken into consideration the hazard factors of potential occupancies as presented in the developer's proposed use list. Each and every individual structure of a private occupancy designation will be reviewed and must meet compliance with the Santa Fe County Fire Code (1997 Uniform Fire Code and applicable NFPA standards) and the 1997 NFPA 101, Life Safety Code, which have been adopted by the State of New Mexico and/or the County of Santa Fe.

General Requirements/Comments

Inspections/Acceptance Tests

Shall comply with Article 1, Section 103.3.2 - New Construction and Alterations of the 1997 Uniform Fire Code, inclusive to all sub-sections and current standards, practice and rulings of the Santa Fe County Fire Marshal.

The developer shall call for and submit to a final inspection by this office prior to the approval of the Certificate of Occupancy to ensure compliance to the requirements of the Santa Fe County Fire Code (1997 UFC and applicable NFPA standards) and the 1997 NFPA 101, Life Safety Code.

1-22-15

Permits

As required

Final Status

Recommendation for Final Development Plan approval with the above conditions applied.
