MEMORANDUM

DATE: December 13, 2011

TO: Board of County Commissioners

FROM: Jose E. Larrañaga, Commercial Development Case Manager

VIA: Jack Kolkmeier, Land Use Administrator *JK*
Shelley Cobau, Building and Development Services Manager *WDC*
Wayne Dalton, Building and Development Services Supervisor *WD*

FILE REF: BCC Case # MIS 11-5121 Arroyo Vino Liquor License

ISSUE:

Revex 101 Investments, LLC, d/b/a Arroyo Vino, Applicant, requests approval of a transfer of location of State Liquor License # 0271. The subject property is located at 218 Camino La Tierra, within Sections 7 & 8, Township 17 North, Range 9 East (Commission District 2).

SUMMARY:

On May 10, 2011, the Board of County Commissioners (BCC) met and acted on case # 11-5120 Revex 101 Investments, LLC, d/b/a Mikes Fine Wine and Spirits. The decision of the BCC was to approve a transfer of ownership and location of State Liquor License # 0271 (Exhibit "H").

The Applicant requests approval of a transfer of location of State Liquor License # 0271. In the prior approval, by Alcohol and Gaming, the area to be served by State Liquor License # 0271 was 1,816 square feet. The structure and patio area to be used for the business is 5,400 square feet. The Applicant has increased the square footage of the area to serve liquor, from 1,816 square feet to 5,400 square feet, utilizing the entire existing structure and patio for the business. State Liquor License # 0271 is a full dispenser license. The Applicant is proposing the sale of package liquor only.

On March 27, 2001, the Extraterritorial Zoning Authority (EZA) approved a Master Plan Amendment for Las Campanas Town Center. A component of the approval was to allow the sale of liquor on the site. A friendly amendment was made regarding restricting the sale of liquor to certain hours. The amendment was removed and staff was directed to work with the Applicant to develop appropriate hours of operation (Exhibit "E").

The Applicant's letter of intent proposes the hours of operation to be 9:00 AM to 8:00 PM Monday thru Saturday and 12:00 Noon to 6:00 PM on Sundays (Exhibit "A"). Staff considers these hours reasonable for package liquor sales and in compliance with the intent of the EZA. In the event that the liquor license is utilized for a restaurant in the future an analyses of the hours of operation shall be considered prior to the issuance of a business license.

The State Alcohol and Gaming Division granted preliminary approval of this request in accordance with Section 60-6B-4 NMSA of the Liquor Control Act. Legal notice of this request has been published in the newspaper. The Board of County Commissioners are required to conduct a public hearing on the request to grant a transfer of ownership and location.

RECOMMENDATION:

Staff has reviewed this application and has found the facts presented support this application: the Applicant is proposing the sale of package liquor only at this site; the EZA approved the sale of liquor on this site as a component of the Master Plan Amendment; the hours of operation for package liquor sales are in compliance with the intent of the EZA; the Applicant has met the State of New Mexico requirements for noticing, distance from Schools and Churches; therefore Staff recommends **approval** of the Applicants request.

ATTACHMENTS:

- Exhibit "A"- Letter of Intent
- Exhibit "B"- Vicinity Map
- Exhibit "C" – Alcohol and Gaming Division Letter of Preliminary Approval
- Exhibit "D"- Zoning Statement
- Exhibit "E" – EZA Minutes
- Exhibit "F" – Aerial Photo of Property
- Exhibit "G" – Town Center Amended Master Plan
- Exhibit "H" – BCC Minutes

To Whom It May Concern:

This letter of intent is to satisfy the requirements of the Santa Fe County to obtain a Liquor License for Mike's Fine Wine and Spirits at 218 Camino la Tierra, Santa Fe, New Mexico. Liquor License #271

The zoning is Neighborhood Commercial District.

The intended hours of operation are 9:00 AM to 8:00 PM, Monday through Saturday. The operation is open from 12:00 Noon to 6:00 PM on Sundays.

The total number of employees is 3 not including the owner.

The business is a retail wine and spirits store.

The previous business was the administration office for Las Companas Partners.

I certify this is correct.

Re: License / App. No.: License 0271/A-788923
Applicant Name: Revex 101 Investments, LLC
Doing Business As: Arroyo Vino
Proposed Location: 218 Camino La Tierra
Santa Fe, NM 87506

ATTENTION: Department or person responsible for conducting or preparing the public hearing for liquor license transfers or issuance of new liquor licenses.

Greetings:

The Director of the Alcohol and Gaming Division has reviewed the referenced Application and is being forwarded to you in accordance with Section 60-6B-4 NMSA of the Liquor Control Act.

Within forty-five (45) days after receipt of a Notice from the Alcohol and Gaming Division, the governing body **shall** hold a Public Hearing in the question of whether the department should approve the proposed issuance or transfer. Notice of the Public Hearing required by the Liquor Control Act **shall** be given by the governing body by publishing a notice of the date, time, and place of the hearing at least once a week for two consecutive weeks in a newspaper of general circulation within the territorial limits of the governing body, which requires that two weeks of publication must be satisfied before a hearing can be conducted. The notice shall include: (A) Name and address of the Applicant/Licensee; (B) The action proposed to be taken by the Alcohol and Gaming Division; and (C) The location of the licensed premises. The governing body is required to send notice by certified mail to the Applicant of the date, time, and place of the Public Hearing. The governing body may designate a Hearing Officer to conduct the hearing. A record **shall** be made of the hearing.

THIS IS THE SAME LOCATION THE APPLICANT INCREASED THE SQUARE FOOTAGE FROM 1,816 SQ. FT TO 5,400 SQ. FT. THEREFORE A TRANSFER OF LOCATION APPLICATION IS REQUIRED.

Securities Division
(505) 476-4580

Administrative Services Division
(505) 476-4800

The governing body may disapprove the issuance or transfer of the license if:

- 1) The proposed location is within an area where the sale of alcoholic beverages is prohibited by the laws of New Mexico. (The governing body may disapprove if the proposed location is within 300 feet of a church or school unless the license has been located at this location prior to 1981 or unless the Applicant/Licensee has obtained a waiver from the Local Option District governing body for the proposed licensed premises).
- 2) The issuance or transfer would be in violation of a zoning or other ordinance of the governing body. The governing body may disapprove if the proposed location is not properly zoned. Because this office is in receipt of a Zoning Statement from the governing body, this is not a basis for disapproval. Attached is a copy of a Zoning Statement from the local governing body.
- 3) The issuance would be detrimental to the public health, safety, or morals of the residents of the Local Option District. Disapproval by the governing body on public health, safety, or morals must be based on and supported by substantial evidence pertaining to the specific prospective transferee or location and a copy of the record must be submitted to the Alcohol and Gaming Division.

Within thirty (30) days after the Public Hearing, the governing body **shall** notify the Alcohol and Gaming Division as to whether the local governing body has approved or disapproved the issuance or transfer of the license by signing the enclosed original Page 1 of the Application. The original Page 1 of the Application must be returned together with the notice of publication(s). If the governing body fails to either approve or disapprove the issuance or transfer of the license within thirty days after the Public Hearing, the Director may give Final Approval to the issuance or transfer of the license.

If the governing body disapproves the issuance or transfer of the license, it shall notify the Alcohol and Gaming Division within thirty (30) days setting forth the reasons for the disapproval. A copy of the Minutes of the Public Hearing shall be submitted to the Alcohol and Gaming Division with the notice of disapproval (Page 1 of the Application page noting disapproval).

Re: Zoning Statement for Las Campanas Town Center located at 218 Camino La Tierra

Mike Mabry:

This office has been asked to provide a zoning statement with respect to the above referenced property.

On March 27, 2001, the Extraterritorial Zoning Authority approved a Master Plan Amendment and Development Plan for a Neighborhood Center Commercial District for Phase One of Las Campanas Town Center. The approval allowed for onsite and package liquor sales on this site pending approval from the State Alcohol and Gaming Division.

If you have any questions contact me at 986-6225.

Sincerely,

Jack Kolkmeier
Land Use Administrator

Cc: Jose E. Larrañaga,
Commercial Development Case Manager

moratorium 2000-02. Commissioner Sullivan seconded, and the motion passed by unanimous roll call vote as follows: Commissioners Sullivan and Duran and Councilor Lopez and Chair Martinez all voting in the affirmative.

Request Authorization to Publish: Title and General Summary of an ordinance relating to utility and communications antennae, towers and other facilities; encouraging the development of wireless communications infrastructure; prescribing regulations for location, placement, appearance and design; requiring compliance with the 1996 Telecommunications Act

Mr. Kopelman said this request to publish title is the step following the declaration of an emergency moratorium. Staff will proceed to bring forward a comprehensive telecommunication ordinance for the EZ.

Commissioner Duran moved approval of the request and was seconded by Commissioner Sullivan. Upon unanimous roll call vote, with Commissioners Sullivan and Duran and Councilor Lopez and Chair Martinez voting in the affirmative, authorization was granted to publish title and general summary.

→ **EZ CASE DP 97-4521: Las Campanas Town Center, Phase One. Las Campanas Limited Partnership (Michael Baird, Vice President), applicant, is requesting an amendment of the previously approved master plan for a neighborhood center commercial district to modify building and open space lay-out for Phase One and development plan approval for Phase One to permit office, retail, restaurant and gasoline service on 8.6 acres. The property is located along Camino la Tierra at the intersection of Arroyo Calabazas Road, within Section 7 & 8, Township 17 North, Range 9 East, in the Two-mile EZ District**

Chair Martinez recited the caption and Mr. Catanach read his report.

"In December 1997 and January 1998 the EZC/EZA granted master plan approval to permit a neighborhood center commercial district. That was identified as Plazuela de la Tierra and approved for office, restaurant, retail and gasoline services on 24 total acres situated on the north and south side of Camino la Tierra and which includes 7.5 acres of open space. The Las Campanas administration and sales offices have existed on the north portion of the property since 1993 based on prior EZC/EZA approvals granted in 1983.

"The requested master plan amendment is for the purpose of relocating the proposed buildings in Phase One from the south side of Camino la Tierra to the north side where the existing administration and sales offices are located, and the resulting change to previously approved open space areas.

"The Phase One development plan on 8.6 acres is as follows:

- Existing office buildings, 8,580 square feet
- Two general retail/restaurant buildings, 6,000 square feet
- Gasoline pumps

- Two office buildings, 7,031 square feet
- 102 parking spaces with potential for 126
- 3.7 acres of open space

"The buildings will have a pueblo or territorial style with a maximum height of 24 feet and be set back 25 feet from the Camino la Tierra right-of-way."

Mr. Catanach said the project was reviewed for water/wastewater, roads/access, terrain/landscaping/archeology, and lighting and signage, and he provided the staff with information on those items. He stated staff recommends approval of the requested master plan amendment regarding the modification to the building and open space lay-out of Phase One and preliminary development plan approval for Phase One subject to conditions:

[The conditions were entered as if read.]

1. Compliance with applicable review comments from the following:
 - a. Sangre de Cristo Water Utility
 - b. State Environment Department
 - c. State Highway Department
 - d. County Public Works Department
 - e. County Fire Department
 - f. Development Review Division Director
2. Submit amended master plan showing modification of development areas and open space areas consistent with initial approvals for building areas and open-space acreage, and to be recorded with the County Clerk.
3. Provide low site wall or earth berm for parking/fueling area along Camino la Tierra road fromage.
4. Provide common park/patio area with tables, benches, and landscaping for employees and customers.
5. Provide recreational pedestrian path along Camino la Tierra and extending though property.
6. Submit lighting plan in conformance with zoning ordinance and emphasizing low-profile shielded luminaries.
7. A single free-standing project sign shall be allowed.
8. Submit cost estimate with financial surety for completion of all required improvements as approved by staff.
9. Submit association documents (covenants, by-laws, articles of incorporation) subject to approval by staff.
10. Landscape plan shall include the following as approved by staff:
 - a. Additional shrub plantings within Camino la Tierra landscape buffer, edge or parking areas/access driveway and buildings.
 - b. Ornamental-type trees within road frontage landscape buffer in front of proposed buildings.
 - c. Shade-type trees within landscape island in parking lot.
11. Business registration and sign permit for individual tenants must be approved prior to occupancy of buildings.
12. Provide base flood elevation for limits of 100-year flood plain west side of property.

City planner Randy Thompson gave his report as follows:

"This proposal will reduce the amount of development in Phase One of the project but significantly intensify the amount of development north of Camino la Tierra with 12,000 feet of retail space shifted north including the convenience/fueling station which is relatively high traffic generator. A second entrance has been added which aligns with already approved access point into the southern portion of the town center, which helps to mitigate the increased traffic in the north parcel.

"From a planning perspective, the plan does a good job of breaking up the parking lots and interspersing them with the buildings. Focal points are incorporated into the plan creating enclosure and a sense-of-place within the project.

"The traffic-impact analysis included in the report does not reflect traffic counts since NM 599 was opened. Before further phases of the town center are approved, the approved 1996 traffic-impact analysis should be revised to include those traffic counts and use patterns reflecting changes brought about by the completion of the 599 bypass.

"Parking on the east side of the site is being lowered in combination with construction of small berms to help screen the parking. The western end of the site is being filled by approximately three feet, raising the level to roughly level with the Camino la Tierra. The fill will disturb a significant amount of the on-site tree cover along the south boundary of the site. The proposed screening material along this side should be increased to reduce the visual impact. The parking pattern meets Code requirements with regard to vehicular circulation. However, when one compares the finished floor elevations and the site grading with the distribution of handicap parking, buildings A through D do not allow for provision of accessible routes according to federal ADA standards. This probably will not require more than minor horizontal changes to the plan, but may necessitate more significant changes to the grading plan prior to recordation.

"The report is silent as to whether or not a canopy is proposed for over the fueling station. None is included in the elevation drawings of the site or by any indication on the site plan. If one is to be utilized, staff has concerns with the visual impact of such canopies and the type of lighting and lighting levels frequently associated with them.

"The location of the fueling station immediately adjacent to the arroyo gives concern to protection of the groundwater in the event of a large fuel spill. As designed, the site grading does not seem to provide any mitigation measures. This should be further examined to establish a contingency prior to filing the development plan. The Extraterritorial Zoning Authority may wish to examine such a contingency plan before approving the relocation to the north side of the road. In response to subsequent discussions with staff and the applicant, the County Hydrologist's comments have not been heard."

Mr. Thompson requested that the following conditions be levied on the applicant if this case were approved:

1. That no further phases are approved without a fully revised and updated traffic-impact analysis that reflects changes brought about by the opening of NM 599.
2. That the applicant provides a contingency plan acceptable to the State Environmental Protection Division and the County Hydrologist for handling fuel spills prior to filing the development plan.
3. That since no fueling station canopy has been indicated in either plan drawings or written report, that none is allowed with this development.
4. That the density of the screening west of the easternmost entry be increased, especially along the parking and vehicle circulation areas.
5. That the applicants revise their parking pattern to demonstrate accessible routes meeting ADA standards into buildings A and D prior to filing the development plan.

Councilor Lopez said she understands that a determination has not been accomplished yet as to whether the master plan has expired and whether the proposal is within the Highway Corridor. She suggested that amending the plan without a determination would verify the existence of the master plan. Mr. Catanach pointed out that the master plan under question is 360 acres at the intersection of Camino la Tierra and 599. The master plan amendment before the Authority is not the same property.

Councilor Lopez asked why the applicant was not required to have an up-to-date traffic analysis that included the traffic on 599. Mr. Catanach responded that an evaluation regarding 599 is the State Highway Department's call and they have requested an analysis of traffic off 599. He said a recent traffic report did evaluate the driveway exits off La Tierra.

Responding to Chair Martinez' question, Mr. Catanach said the City will request a traffic analysis at the next phase of development.

A letter from Sangre de Cristo dated 11/28/00 states the development plan requires City approval. Chair Martinez asked if that had been accomplished. He said he understands that the project did not enter into development in a timely fashion and now requires master plan approval from the City. Commissioner Duran pointed out that this project received master plan approval in 1998 and has not expired. The Las Campanas project the Chair refers to, stated Commissioner Duran, is different.

Mr. Catanach said the City has approved the water service availability, and the applicant is before the Authority for an amendment to the approved plan.

Councilor Lopez pointed out that condition 3 in the Sangre de Cristo memo mentioned by the Chair requires annexation to the City of Santa Fe concurrent with the development and utility extension approval process. Mr. Thompson said the condition is part of the utility's boilerplate water availability statements.

Referring to the master plan approval from the City, Chair Martinez said the condition is "black and white" and he wants the applicant to appear before Council. "It's a requirement the applicant has to meet."

Mr. Kopelman said Sangre de Cristo's contractual language does not preclude action from the EZA.

Chair Martinez said he wants to add condition 14 stating the applicant must obtain City Council approval. Councilor Lopez concurred and added there are six other councilors eager to act on this development plan. She noted that the City has been involved in a debate regarding water service extensions. Sangre de Cristo implies annexation, and she indicated that she is not prepared to endorse annexation of Las Campanas into the City.

Mr. Catanach mentioned that the property is already serviced by city water. Mr. Thompson mentioned that the property does not meet annexation criteria for the City as stated in Chapter 14. [Condition 13 was not noted for the record.]

Councilor Lopez requested input on this matter from Assistant City Attorney Morales. Ms. Morales indicated that, typically, the contract with Sangre de Cristo requires an amendment to a master plan that would come back to the City Council following EZA approval.

Chair Martinez said he wanted to add the condition that the amended master plan obtain City Council approval. Mr. Kopelman questioned whether there is any statutory authority for the City Council to take action on this request. He indicated that the state statute grants that right to the EZ Authority.

In response to Commissioner Duran, Mr. Catanach said a water budget was submitted to the City. The amendment does increase water consumption; however, Sangre de Cristo approved the use.

Mr. Catanach confirmed that the property is not within the Highway Corridor district. He asked what Morey Walker's updated traffic report indicated regarding the driveways. Mr. Catanach said that with the improved accel/decel lanes, the two driveways would function at a level A.

Mr. Catanach confirmed that the use list has not been modified from the 1998 approval. The amendment merely moves Phase One from the north to the south.

Al Lilly, Santa Fe Planning Group, was placed under oath. He stated that the applicant agrees with all conditions. He said the Councilors on the Authority appeared to have the Santa Fe Center, which is located in the Highway Corridor, confused with this town center project. The project lies within the center of La Tierra and is not a new project. In 1983, the EZA approved 65,000 square feet, the same density as this project. Responding to concerns about the massing of that plan, he said the concept was modified to allow for breaking up the parking lots into smaller pieces and changing the buildings to one story. In proceeding with the plan, Las Campanas wants to scale back the development by 6,000 square feet and move the general store to the other side of the road. There will now be two access points on the north side. He said they plan to move cautiously as need is demonstrated. He indicated the general store would be similar to that in Tesuque and territorial in style.

Mr. Lilly said the development will be improved by moving it to the other side of the road.

Commissioner Gonzales asked if the community supports the amendment. Mr. Lilly replied that there have been numerous meetings with the residents and most all comments have been supportive. He pointed out that the development will serve the entire neighborhood and not just Las Campanas.

Mr. Lilly said the total square footage approved for Phase One of the master plan is approximately 27,000 square feet. Commissioner Sullivan asked how much footage remained in Phase One. Mr. Lilly replied that approximately 5,000 remains, which will presumably be transferred into Phase Two and become part of the total 65,000 square feet. Commissioner Sullivan expressed concern that high-density development will occur within Phase Two along the roadside. Mr. Lilly noted that the original 65,000-square-foot plan was totally different "apples and oranges" and contained two-story buildings. There was limited area to build on, and he agreed it would make good planning sense to intensify in the area, but the residents would be in opposition. He identified a different site that would be off the road and well-buffered.

Mr. Lilly said the site plan depicts a cluster of buildings around a pedestrian courtyard that contains a water feature and landscaping. The existing buildings, 8,500 square feet, will be incorporated into the plan. The plan includes a small grocery/deli store and two gas pumps.

Councilor Lopez asked the distance from the proposed site to the nearest gas station. Mr. Lilly said he thinks it is Burger King at Alameda/St. Francis. An audience member said the closest station is at 599. Councilor Lopez said the convenience of a local market makes sense to her.

→ Commissioner Sullivan asked if liquor would be sold at either the restaurant or convenience store, and what hours of operation are proposed. Mr. Lilly said the store would have a liquor license, which appears to have community support. He pointed out that Las Campanas has security guards and would agree to hours of operation from 8 a.m. to 9 p.m.

Speaking from the public and duly sworn was Mark Stellin, 523 E. Alameda, Santa Fe, who stated he is closing on a piece of property in the La Tierra neighborhood. At one of the neighborhood meetings he attended, Las Campanas stated their plans for Phases Two through Five were "soft." Following the meeting, he reviewed the site plans for the following phases and said it looked like a mall with massive parking.

Mr. Stellin stated he is purchasing his land out there because gas stations and convenient stores aren't there. He did not hear anyone at the community meeting say they wanted these resources in their neighborhood. He said it is "so sad that so much must be sacrificed for so many so a few can get a little richer...At some point, no has to be heard."

Duly sworn, Lisa Oberteuffer, 123 Arroyo Calabasas, said she did not approve of the

plan. She moved out to the area because they love the rural atmosphere and the views. She expressed concern that this development would ruin the beautiful open atmosphere and is inappropriate sited in the middle of a rural neighborhood.

That concluded the public testimony.

Commissioner Duran commented to the gentleman who spoke against the proposal that the master plan was developed in 1983 and offices are already there. That area has a large population that needs services and this begins to address them.

Commissioner Duran moved approval of DP 97-4521 with City and County recommendations. Commissioner Gonzales seconded.

→ Commissioner Sullivan requested a friendly amendment limiting liquor sales from 8 a.m. to 8 p.m. during the winter and 7 a.m. to 9 p.m. during the summer. Commissioner Duran accepted, as did Commissioner Gonzales.

Councilor Lopez questioned the logic of restricting the sale of liquor to certain hours. She said if the idea behind approving the development is to provide a convenience, then the store should be able to sell liquor during its hours of operation rather than have government dictate the hours. Commissioner Duran withdrew his acceptance of the amendment and so did Commissioner Gonzales.

Commissioner Sullivan commented that the sale of liquor has proved problematic in some areas. He questioned how long Las Campanas would provide security in the area and maintain the grounds. Councilor Lopez said it would be very difficult to enforce the hours.

Commissioner Duran amended his motion to restrict the hours of packaged liquor sales from 8 a.m. to 10 p.m., and Commissioner Gonzales agreed.

Mr. Catanach pointed out that the liquor license requires BCC approval, so it may be more appropriate to address hours of operation at that time.

Noting this request is an amendment to a master plan, Ms. Morales suggested it might be more appropriate to set hours of operation at a different phase of development.

→ The amendment regarding hours of operation was removed and in its place staff was directed to begin working with the applicant to develop appropriate hours of operation.

The motion passed by majority [4-1] roll call vote as follows: Commissioners Duran, Gonzales, and Sullivan and Councilor Lopez voted for and Chair Martinez voted against.

- SLOPES**
- 0-20% SLOPE
 - 20%-30% SLOPE
 - 30% AND GREATER

SOILS
 (CF) Cerrillos fine sandy loam and (PK) Pojoaque gravelly sandy clay loam (moderate constraint to development due to shrink-swell characteristics); Slope 2% to 10%; Limitations to development are slight.

VEGETATION
 Vegetation consists of scattered Pinon and Juniper, with a canopy cover averaging 15% to 25%. Existing vegetation is estimated at 8% to 15% cover consisting of blue grama and galleta, with some areas of Western Wheatgrass, Needle and Thread, Indian Rice Grass and Sand Drop Seed. Shrubs include Rabbit Brush, Yucca, Cholla, Prickly Pear and some Broom Snakeweed.

FLOOD NOTE
 Except as shown, this property lies within Zone X, areas determined to be outside the 500 year flood plain, as noted on F.I.R.M. panel 3500690 0175 B Dated Nov 4th 1988.
 Shade areas lie within special flood areas inundated by 100 year flood as -noted on F.I.R.M. Panel 350069 0175 B. Dated 11.04.1988. Taken from a plat survey by Gary Dawson.

NOT TO SCALE

REVEGETATION:

SOIL PREPARATION:

Final soil preparation for 'Lawn' and 'Native Grass' areas shall be per recommendation of tests by the contractor and reviewed with the owner. The preparation outlined below is to be verified prior to installation.

1. The seeded area shall be prepared to a minimum depth of 6 inches by tilling or disking. All competitive vegetation shall be uprooted and removed, and the soil shall be uniformly worked to a smooth surface free of clods and large stones of over 1 inch in any dimension, or other foreign material that would interfere with seeding operations.

2. Into the top 6 inches of soil, the contractor is to thoroughly mix in 45 cu. yds. of organic matter ('Back To Earth' or approved equal) per 1000 sq. ft. of area to be seeded. Fertilizer shall be applied as required by the soil test and manufacturer's recommendations.

3. Areas of planting beds and soil mix for trees, shrub, and perennial planting shall involve the following preparation: thoroughly mix a planting soil involving 1/3 organic matter ('Back To Earth' or approved equal) and 2/3 native soil. All planting beds are to receive a minimum of 6 inches of the planting soil.

SEEDING:

Revegetation Seed Mixture: Contractor is to install 'native grasses' on all disturbed areas and as indicated on the landscape plans. This is to be a 50/50 mix of Blue Grass and Buffalo Grass, 'Summer Green Lawn Blend' by Plants of the Southwest or approved equal. Apply at a rate of 3 lbs. per 1000 sq. feet. Seeding of the lawn areas and the native grasses shall be accomplished only between May 15 and July 1st, unless specific permission in writing is issued by the landscape architect to allow seeding before or after these dates. All seeding and revegetation on slopes less than 3:1 is to be accomplished by drill seeding or by hand raking into the soil, covered with mulch. Install erosion control fabric ('Cell-O-Seed', by North American Green or approved equal slope protection on all slopes greater than 3:1).

EDGING:

Install brick edging between all lawn areas and shrub beds. ALTERNATES: 'Bend-a-Board' by EPIC Plastics (510-235-3339) or provide steel edging of 3/16"x4"x6" long, with 1/2" long stakes at 30" on center, as shown on the plans to delineate the Native Grass Lawn areas. Edging and stakes to have black paint finish. (Rayson Steel Landscape Edging or approved equal).

MAINTENANCE AND GUARANTEE:

1. Maintenance shall be the responsibility of the Contractor until the entire installation is accepted by the Owner. The Contractor is to demonstrate complete coverage by the automatic irrigation system, prior to acceptance of the landscape installation. Following acceptance, the Owner will be responsible for maintenance.

2. The Guarantee period shall be as follows:

- a. Newly installed trees, shrubs, vines, and ground cover, and transplanted trees, shall be guaranteed by the Landscape Contractor for a period of 1 year following acceptance.
- b. Lawn areas shall be guaranteed for 30 days after acceptance. This will follow one overseeding and one mowing by the Contractor.
- c. Temporary irrigation is to be provided for all revegetation seed areas and shall include watering 2x per day for two months and 1x per day thereafter.

TREE PROTECTION:

All existing trees indicated 'to be saved' on the Landscape Plans are to be protected by wrapping with snow fence, or other means as approved by the Landscape Architect. The area of the 'drip line' of each saved tree is to be staked and 'roped off' in order to prevent root damage by construction equipment. Any traffic within this area is to be kept to an absolute minimum.

MULCH:

All planting areas are to be mulched 2" deep with 'Back to Earth' compost mix (or approved equal) and are to be topped with 3" fine bark mulch (dark color) except in stone aisle areas which are to be graded as directed by the engineering plans, and mulched with 1" stone to a depth of 3". Contractor is to submit mulch samples prior to installation.

IRRIGATION:

All trees, shrubs, and perennials are to be watered by an automatic drip irrigation system. The Landscape Contractor is to design and install a system to be approved by the Owner and the General Contractor. This system is to include sufficient laser drip hose length/coverage and spray heads to ensure even and sufficient watering without waste. The contractor is to install any sleeves under walks and drives during site construction, and is to assemble the system to allow for future modifications. Necessary adjustments are to be made to avoid spraying structures, walks, and driving surfaces. The contractor is to provide valves and fittings to allow seasonal drainage (with compressed air) of all lines. All supply lines are to be 1" PVC to solenoid with 3/4" distribution lines to plant beds and grass areas.

Perennials

Accent Boulder

Existing Trees To Remain

Plastic Table and/or Benches Typ.

NOTES:

All shrubs & trees listed above are not shown on the plan, but may be added at a later date.

Flowering Trees (Selection depending on availability, 2 1/2' Cal, MIN. 10' HL):

1. Installation of all paving (roads, walks, trails, etc.)
2. Installation of irrigation trunk lines and underground electric wiring
3. Placement of accent boulders and any retaining walls
4. Installation of trees
5. Installation of shrubs
6. Installation of ground covers
7. Installation of drip irrigation feeder lines and lawn spray heads
8. Installation of edging
9. Installation of grass areas

No shrubs are to be installed in an area until all shrubs for the designated area have been delivered to the job site. This provides for the proper spacing of all plant material. The shrubs are to be laid out on top of the ground, prior to the installation of any plants. No substitutions in plant material are to be made without approval by the landscape architect.

SHEET NO.
88
08/21/01

in accordance with Section 60-6B-4 NMSA of the Liquor Control Act. Legal notice of this request has been published in the newspaper. The Board of County Commissioners are required to conduct a public hearing on the request to grant a Restaurant Liquor License at this location.

Recommendation: Staff has reviewed this application and has found the facts presented support this application: the U.S. 285 South Highway Corridor Zoning District designates this site as a Neighborhood Mixed Use which allows for beer and wine to be served in a restaurant as a permitted use; the Applicant's request complies with Ordinance No. 2005-08 and the Santa Fe County Land Development Code; the Applicant has met the State of New Mexico requirements for noticing, distance from schools and churches; therefore Staff recommends approval of the Applicant's request. Madam Chair, I stand for any questions.

CHAIR VIGIL: Any questions? What's the pleasure of the Board.

COMMISSIONER STEFANICS: Is this a public hearing?

CHAIR VIGIL: This is a public hearing. Did anyone want to address us on this subject? Seeing none, what's the pleasure of the Board unless you all have questions.

COMMISSIONER HOLIAN: Madam Chair, I move for approval of BCC Case #MIS 11-5130, Supper Club at Real Food Nation restaurant license.

COMMISSIONER STEFANICS: Second.

CHAIR VIGIL: I have a motion and second.

The motion passed by unanimous [5-0] voice vote.

- XV. A. 2. **BCC Case # MIS 11-5120 Mike's Fine Wine & Spirits Liquor License. Mike's Fine Wine & Spirits, Applicant, requests approval of a transfer of ownership and location of State Liquor License # 0271. The subject property is located at 218 Camino La Tierra, within Sections 7 & 8, Township 17 North, Range 9 East (Commission District 2)**

MR. LARRAÑAGA: Thank you, Madam Chair. The Applicant requests approval of a transfer of ownership and location of State Liquor License # 0271. State Liquor License # 0271 is a full dispenser license. The Applicant is proposing the sale of package liquor only.

On March 27, 2001, the Extraterritorial Zoning Authority approved a Master Plan Amendment for Las Campanas Town Center. A component of the approval was to allow the sale of liquor on the site. A friendly amendment was made regarding restricting the sale of liquor to certain hours. The amendment was removed and staff was directed to work with the Applicant to develop appropriate hours of operation

The Applicant's letter of intent proposes the hours of operation to be 9:00 am to 8:00 pm Monday thru Saturday and 12:00 Noon to 6:00 pm on Sundays. Staff considers these hours reasonable for package liquor sales and in compliance with the intent of the EZA. In the event that the liquor license is utilized for a restaurant in the future an analyses of the

hours of operation shall be considered prior to the issuance of a business license.

Staff is currently processing an interior remodel and business license for this site. The area in which this business will occupy, within the existing structure, is approximately 1,769 square feet. The parking and access is adequate for the proposed use.

The State Alcohol and Gaming Division granted preliminary approval of this request in accordance with Section 60-6B-4 NMSA of the Liquor Control Act. Legal notice of this request has been published in the newspaper. The Board of County Commissioners are required to conduct a public hearing on the request to grant a transfer of ownership and location.

Recommendation: Staff has reviewed this application and has found the facts presented support this application: the Applicant is proposing the sale of package liquor only at this site; the EZA approved the sale of liquor on this site as a component of the Master Plan Amendment; the hours of operation for package liquor sales are in compliance with the intent of the EZA; the Applicant has met the State of New Mexico requirements for noticing, distance from schools and churches; therefore staff recommends approval of the Applicant's request. Madam Chair, I stand for any questions.

CHAIR VIGIL: Are there any questions for Mr. Larrañaga? Is the applicant here? Just wondering if you were here. I don't think there are any conditions of approval. It's pretty standard. But this is a public hearing. Does anyone in the audience care to address the Board on this? Mr. Larrañaga, I have a question. Are there any other commercial sites close to this? Commercial businesses rather than sites.

MR. LARRAÑAGA: Madam Chair, what's on the site is a real estate office but it was a master plan amendment called out for gas station, restaurant, grocery store, on the final development plan.

CHAIR VIGIL: Okay. What's the pleasure of the Board?

COMMISSIONER HOLIAN: Madam Chair.

CHAIR VIGIL: Yes.

COMMISSIONER HOLIAN: I move for approval of BCC Case #MIS 11-5120, Mike's Fine Wine and Spirits Liquor License.

CHAIR VIGIL: I have a motion.

COMMISSIONER ANAYA: Second.

CHAIR VIGIL: I have a second.

The motion passed by unanimous [5-0] voice vote.
