**Subject:** Please don't allow strip mining on La Bajada Mesa

Jun 12, 2014

Jose Larranaga  
NM 87501

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
  - Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
  - I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
  - There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.
- The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. Glenn Wohl  
1106 Calle De Suenos

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

-- In this time of extreme drought it's ludicrous that Rockology LLC has requested extreme amounts of county water for its mining operations.

-- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.

-- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen.

Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.

-- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.

The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. Jon Asher

Dear Larranaga,

I do not support strip mining on La Bajada Mesa. This would be a poor use of scant water resources and destroy a beautiful landscape.

The current owners purchased the land knowing it was currently zoned agricultural/residential and the County is under no obligation to change it since it would be against the interests of the general public.

Sincerely,

Ms. Edwina Lieb

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials. The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mrs. Seie Brigham  
2526 Camino San Patricio  
Santa Fe, NM 87505-5815

I do not support mining on La Bajada Mesa because:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
  - Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
  - I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
  - There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.
- The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Dr. Jay Gould  
98 Bosquecillo  
Santa Fe, NM 87508-1474

Dear Larranaga,

Tearing up an historically significant area and wasting potable water to make gravel -- a commodity in plentiful supply from other places -- would be a travesty.

Think about it -- do you want to be the Commission that sold our collective birthright for a mess of pottage? What a legacy that would be!

I understand that the owners want to profit from their investment, but they need to find a non-destructive option.

Sincerely,

Ms. Linda Buchser

**Subject:** Please don't allow strip mining on La Bajada Mesa

Jun 12, 2014

Jose Larranaga  
NM 87501

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
  - Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
  - I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
  - There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.
- The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. Gustavo Seluja  
2700 Pradera Ct

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

In addition to the facts stated below, the defacing of La Bajada Mesa will do immeasurable damage to the image of Santa Fe as place where the people respect nature and sustainable policies. The City is proposing additional taxes to promote the image of our City.

By denying this request, you can have a greater impact on the favorable image of Santa Fe than any paid public relations effort. Your decision will be on all public media as soon as a vote is taken. Thank you in advance for doing the right thing for our County.

-- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.

-- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.

-- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen.

Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.o

-- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.

The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. Mervin Moore

Jun 12, 2014

Jose Larranaga  
NM 87501

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials. The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. James Godman  
43 Avenida Vieja  
Galisteo, NM 87540-9782

**Subject:** Please don't allow strip mining on La Bajada Mesa

Jun 12, 2014

Jose Larranaga  
NM 87501

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.
- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials. The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mr. Christopher Streit  
547 Alto St  
Santa Fe, NM 87501-2516

Jun 12, 2014

Jose Larranaga  
NM 87501

Dear Larranaga,

I do not support mining on La Bajada Mesa because:

it is an unsustainable, overly water intensive, inappropriate form of land use in that area of Santa Fe County.

Specifically:

- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.
- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.
- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen.

Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.

- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.

The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.

Sincerely,

Mrs. Teresa Seamster

Dear Larranaga,

There's no excuse for destroying La Bajada mesa for mining, one of the most damaging and destructive industries in the world. Santa Fe can do far better by investing in less or non-destructive activities. When the mining is over, all we will have remaining is regret.

And besides, we simply don't have the water!

I urge you to reject this destructive scheme.

-- Rockology LLC has requested extreme amounts of county water for its mining operations, and thousands of gallons of potable water daily would be wasted on watering the area to meet dust-reduction requirements.

-- Mining in this site would result in the degradation of a cultural landscape that has been historically, culturally and environmentally significant to New Mexico for hundreds of years.

-- I agree with four state legislators who previously wrote you in opposition to this ill-advised mining proposal: Sen. Peter Wirth, Sen. Phil Griego, Rep. Brian Egolf and Rep. Stephanie Garcia-Richard.

-- There is no need for another basalt gravel mine in the county or another gravel-mining operation off of I-25 as there are several existing gravel mines within reasonable proximity that can provide these materials.

The current owners have no protected rights to demand a rezoning. They purchased the property with the current agricultural/residential zoning in place. The county has no obligation to enhance the economic value of the property to the detriment of the county and state as a whole.
