*On May 17, 2017 Santa Fe County held the pre-proposal conference for the above referenced Request for Proposals (RFP). Addendum 1 was issued May 24, 2017 with attachments. Addendum #2 is being issued with clarification on question 12 in Addendum #1 and the Attached Bid Bond Form.*

---

Question #12 - For every Plan and Profile sheet for the Channel and the Trail, please provide existing and proposed contour elevations. We cannot do an earthwork take-off if you don't supply the contour elevations. Especially important for calculating the amount of material that needs to be hauled off or imported.

Answer: Refer to the cut and fill tables provided on Sheet 8 of 65 (Drawing 2-3) for average end area earthwork volume calculations. Also note that the profiles and cross section show the elevations. The Engineer will provide limited AutoCad/Civil 3D drawing files for bidding purposes. Contour elevations are identified in these files.\*

**\*CLARIFICATION:** AutoCAD/Civil 3D drawing files will only be provided to the awarded Contractor. The profiles and cross sections provided can be used to determine contour elevations.

Please add this Addendum #2 to the original bid documents and refer to bid documents, hereto as such. This and all subsequent addenda will become part of any resulting contract documents and have effects as if original issued. All other unaffected sections will have their original interpretation and remain in full force and effect.

Bidders are reminded that any questions or need for clarification must be addressed to Karen K. Emery, Senior Procurement Specialist at [kkemery@santafecountynm.gov](mailto:kkemery@santafecountynm.gov).
