THE DESIGN OF ROMERO PARK PHASE II

THERE WERE A COUPLE OF QUESTIONS SUBMITTED FOR CLARIFICATION AFTER ADDENDUM #1 WAS ISSUED:

QUESTION #1: At the pre-proposal meeting, it was implied that the dump site cleanup may be removed from the scope of this project and handled under a separate solicitation. Is it the County's intent to keep the dump site cleanup with the scope of this project?

ANSWER #1: The dump site cleanup is still in the scope of work for the design. What we discussed at the pre-proposal meeting was the possibility that if through the design process we discover that the cost of the cleanup far exceeds our current expectation that we may consider not including it in the construction documents.

QUESTION #2: Does the design team need to include an Archaeologist to handle any testing or mitigation that SHPO might require for the dump site cleanup.

ANSWER #2: No. If those services become necessary they will be procured separately.

Please add this Addendum #2 to the original bid documents and refer to bid documents, hereto as such. This and all subsequent addenda will become part of any resulting contract documents and have effects as if original issued. All other unaffected sections will have their original interpretation and remain in full force and effect.

Bidders are reminded that any questions or need for clarification must be addressed to Karen K. Emery, Senior Procurement Specialist at kkemery@santafecountynm.gov.
