II. PROCUREMENT SPECIFICATIONS

A. SCOPE OF SERVICES

Santa Fe County (“the County”) is soliciting proposals to provide Banking Services for the County. The County intends to minimize banking costs, improve operational efficiency, and maximize its investment and return capabilities. This Request for Proposal (RFP) explains the County’s cash management goals, and specifies all required qualifications for proposing institutions or firms, the banking services required, the estimated activity volumes on all accounts, the method and terms of compensation, submission instructions, contract award provisions, and other relevant information.

All qualified institutions are invited to submit a proposal. Institutions responding to this RFP must be able to demonstrate a capacity to meet the County’s requirements. The County makes daily deposits, therefore, responding institutions must be geographically located so as to provide convenient physical access to the County or provide for that access as part of the proposal.

B. FEES AND CHARGES

The County reserves the right to utilize either a direct fee (per item) or compensating balance basis for payment of services under the contract. The County reserves the right to change the payment methodology during the contract period upon no less than thirty (30) days written notice (via email or fax) to the bank with the change commencing the first of the next following month. This will enable the County to take advantage of changing interest rate environments.

1. When a compensating balance payment basis is used, all operations-related accounts will be swept to their targeted compensating balance prior to computation of net monthly banking fees due.
2. When a direct fee (per item) basis is used, the bank will provide the County with an “account analysis statement” within five business days after calendar month-end. Within five business days of the County’s receipt of the monthly account analysis statement, County staff will review the proposed fees, and will either agree or disagree with the amount to be charged. When the County has approved (agreed to) the final monthly account analysis fee, the bank may initiate a direct debit in the Main Operations account for the agreed upon amount.

Note: A complete account analysis will be required monthly regardless of the payment basis.

All item and account charges will remain at the proposal price quoted for the duration of the contract period regardless of changes in service volumes during the period. Should new services be required during the contract period not contemplated by this RFP, those services will be provided at fees not more than the bank’s then current published rate and must be approved by the County Treasurer. Any changes in fees for the remaining extension periods will be negotiated and must be approved by the County Treasurer in writing. The rate increase in any extension period shall not exceed Consumer Price Index (CPI) increases (for the Western Region) during the same period, as reported by the Bureau of Labor Statistics.

C. OVERVIEW

The County Treasurer manages all banking, treasury, and investment activities while the County Finance Department manages accounts payable, accounts receivables, payroll, and financial reporting functions. A copy of the County Treasurer’s Investment Plan (“Investment Plan”) is attached hereto as Appendix C. An Offeror shall include as part of its proposal, affirmation that it has reviewed the Investment Plan, is familiar with it and that the Offeror’s proposal shall enable and support the County Treasurer and the County Finance Department in carrying out the Investment Plan.
The County currently maintains forty-one (41) bank accounts with our custody bank. The approximate average daily balances for these accounts are outlined below:

Funds are “swept” from the Main Operations account to the Warrant account and to the County Treasurer account to cover disbursements. The Main Operations account has been used as a “clearing” account for receipt of funds from matured investments, before initiating a next-day transfer-out of those funds. The Main Operations account also receives “sweeps” of funds initially deposited in the Lockbox account, when active, and the Credit Card account, daily.

Most bank activity will occur in the Main Operations Account. This account may be swept to a SEC registered money market fund, or an overnight repurchase agreement account whenever the County Treasurer determines a need
for such an account; however, the County has the right to sweep any, or all, accounts as deemed necessary to accommodate the County’s business processes. ACH (both incoming and outgoing), wires and securities transactions occur, for the most part, in the Main Operations Account, but can occur in both the County Treasurer account and the SFC Housing Authority account. Positive Pay has been established for Payroll and Accounts Payable checks clearing the Warrant Account, and for checks issued from the County Treasurer account. Additionally, Positive Pay has been established for the Inmate Trust Fund account, and may eventually be required on all accounts. Reconciliation capabilities are currently required for all accounts.

a) Gross receipt taxes are collected through the State and received and deposited monthly by ACH or Wire transfer. An average of $6.5 million is received monthly, usually on the 15th.
b) Approximately $ 5.0 million is processed in payables monthly.
c) The County has a bi-weekly payroll for approximately 957 employees totaling an average $1.5 million. The County requires ACH payroll transactions for approximately 772 employees averaging $1 million on a bi-weekly basis.

The County anticipates that it will maintain the current account structure with the successful Offeror. All account balance decisions will be made by the County Treasurer. Any proposals for sweeping funds, or alternative account structures, must be outlined and explained thoroughly in the Offeror’s proposal.

Any or all County funds may be maintained and invested by the County outside the anticipated contract. The County Treasurer will be under no obligation to maintain funds in the bank except under a compensating balance situation.

Primary responsibility for administration of the banking services agreement within the County organization resides with the County Treasurer who will monitor the bank’s performance against provisions of the agreement, including the bank’s proposal submitted in response to this RFP. The County Treasurer will be responsible for administering the agreement with respect to day-to-day activities, including deposits and withdrawals, ACH and wire transactions, maintenance of account balances, daily reporting, etc. A list of County personnel authorized to deal directly with the bank will be provided following the award of the contract. The Offeror shall provide a similar list of key personnel authorized to make decisions for the bank as part of its proposal.

D. GENERAL STATEMENT OF BANKING SERVICES REQUIRED

1. The banking services described in this RFP are directed toward five major goals:
   a) The safety and liquidity of County funds;
   b) Maximum potential for interest earnings on operational funds;
   c) The efficient utilization of available banking services;
   d) The responsiveness and ability to provide high-quality banking services, and
   e) Minimization of banking costs for the County.

2. Collateral:

   The County requires a depository that is fiscally strong and able to provide the required services on an uninterrupted basis. County funds are public funds and require collateralization in accordance with NMSA, Section 6-10-21 and NMAC 2-60-4, in general, and as specifically delineated by the County’s Investment Policy. If funds are not swept to an agreed upon, SEC registered money market fund or overnight repurchase agreement account, all un-invested time and demand funds, which exceed current FDIC insurance coverage, Santa Fe County requires collateralized at 102% with securities specifically authorized pursuant to NMSA 6-10-7 and by the County’s Investment Policy. Authorized collateral shall include only:

   a) Obligations of the U.S. Treasury.
   b) Obligations of U.S. Agencies and Instrumentalities.
   c) Irrevocable Letters of Credit Issued by The Federal Home Loan Bank of Dallas.
An independent third party institution, outside the bank’s holding company, shall hold all securities pledged to the County, as collateral. Pledged securities shall be held on the books of the third party institution in the name of the County. The pledging bank will be contractually liable for securing and reporting the monthly market value of pledged securities, and for the continuous monitoring and maintenance of required margin levels. The pledging bank will provide a monthly listing of pledged securities to the County Treasurer which includes market values and complete security descriptions. The Offeror shall identify, in their proposal, the third party institution that it intends to utilize for collateralization services, and shall fully disclose all associated costs for providing such services.

The depository will be required to agree to all collateral requirements of this RFP, Agreement, and the County’s Investment Policy as foresaid.

E. FINANCIAL INSTITUTION QUALIFICATIONS

1. In order to fulfill the County’s fiduciary responsibility to protect public funds, each bank submitting a proposal shall provide, in response to this item:
   a. An audited annual financial statement for the most recent fiscal period;
   b. The bank’s CRA rating (noting the specific rating agency); and
   c. A statement regarding any recent or unforeseen merger or acquisition.

2. Describe the bank’s philosophy and approach to satisfying the County’s banking and customer service requirements.
   a. What, if anything, is distinctive about the bank’s approach to customer service?

3. List references from at least three of the bank’s current, comparable governmental (city, county, ISD) clients. Include the length of time under contract, a contact person, title, and telephone number.

4. Provide the bank’s most recent BauerFinancial, Inc, Veribanc or comparable bank rating from an independent rating service. The bank will be responsible for notifying the County within thirty (30) days of any change in this rating during the contract period.

5. Provide a proposed timeline for implementation of the contract, including the timeline activities and direct responsibilities of the County and the Bank.

6. Provide a copy of all agreements (even if not directly referenced in this RFP) which will be required to be executed under the contract. Any changes required on the agreements will be made and agreed upon before award of the contract is made.

F. REQUIRED BANKING SERVICES

1. Consolidated Account Structure with Sweep Mechanism

The County’s banking transactions occur, for the most part, in the Main Operations account. This account serves as the “master” account for automated sweeps between operations-related accounts. Offeror must be able to automatically sweep funds both “from” and “to” specified ZBA or target-balance accounts, on both a daily basis and, to cover checks (warrants) clearing b is interested in assuring that all its funds are earning the best, then-current interest rate available at all times. The County may require the ability to sweep to a money market fund or overnight repurchase agreement in order to procure this full investment goal. A SEC registered government, or enhanced government, money market fund or overnight repurchase agreements must be used for the sweep. If the bank has a valid alternative to a SEC money market fund it should be proposed. A repurchase agreement with the bank is acceptable as a sweep investment vehicle as long as the
rate is competitive with fed funds and the securities purchased are equal to AAA rated government securities or U.S. Treasuries.

If the Bank cannot provide a sweep mechanism for ZBA or target-balanced accounts, the proposal will be deemed not responsive.

2. **Automated Cash Management Information Access**

The County requires on-line cash management services and daily balance reporting for timely access to balance information and transactions. If minimum automated services cannot be provided, the proposal shall be deemed non-responsive.

Minimum automated services described in the proposal shall comply with the foregoing and shall include:

- a) Prior day summary balance reporting on all accounts;
- b) Initiation and monitoring of stop pays;
- c) ACH fraud filter exception transactions;
- d) Positive pay exception transactions;
- e) Initiation and monitoring of account transfers, and
- f) Initiation and monitoring of wire transfers i.e. Federal Government transfers from DOJ, HUD, etc.

3. **On Line Reporting Services**

Santa Fe County requires online access to all banking activity. All statements must be available on-line. Daily reporting must include descriptive and image detail on all transactions, and summary account reporting must include both ledger and collected balances, and include one-day float. If Online Reporting Services cannot be provided, the proposal shall be deemed non-responsive.

The proposal shall address the foregoing and the following:

- a) Fully describe the bank’s on-line service capabilities and whether service is to be a direct link or web-based. List the system capabilities (i.e. balances, wires, positive pay, stop pay, etc.).
- b) Describe back-up provisions and procedures to the automated system. What is the bank’s back-up process to provide balance reporting and transactions in case of system unavailability?
- c) Are on-line service charges bundled or are separate modules charged independently? Describe.
- d) State the access times and update times for daily information.
- e) Does the system provide full trailer information on wireless and ACH for identification purposes?
- f) Submit samples of major screens and reports available. Provide a website (and sign-on information if required) for an on-line review of the system, if available.
- g) Specify any County hardware and software requirements for access.
- h) How many hours has the system been down in the last six months?
- i) Is the system a proprietary system or provided by a third-party?
- j) What training is available and planned for County personnel?
- k) Describe provisions for off-site backup and continuation of services.
- l) Describe archival duration on check images.

4. **Online Administration Services**

Santa Fe County requires online administration services to manage the County’s personnel user access and grant new user rights. The County requires the online Administration services to increase / decrease, assign or cancel debit card users. The County will also utilize the online service to grant some ACH users to create and send files. Users must have the ability to create store templates for frequent ACH and wire transactions.
5. **Standard Deposit Services**

Standard commercial deposit services are required for all accounts. Deposits will consist of coin, currency, endorsed checks and RDC. The County requires same bank day credit on all cash (coin and currency) deposits. Coin may be deposited loose, or partially filled bags. Coins will not be rolled. The County averages one daily deposit by armored car. Locking deposit bags are required. The County will not encode checks. The County Treasurer may have a recurring need for strapped cash and coins.

All deposits received by the bank’s established deadline must be processed for same day credit. The bank shall also guarantee immediate credit on all incoming wire transfers, US Treasury checks, ACH transactions, on-us items, and U.S. government security maturities and coupon amounts.

The County expects all checks to clear based on the bank’s current published availability schedule, but, any other availability policies should be noted in the proposal. Failure to credit County accounts in a timely fashion will require interest payment reimbursement to the County at the then current daily Fed Funds rate. The proposal shall address the foregoing requirements and the following:

a) What is the bank’s cut-off time to assure same day ledger credit? Where?
b) When are credit/debit advices sent to the County? On-line or in paper form, or both?
c) Are dual verification security measures used on receipt of deposits?
d) State the policy on cash deposits (fed ready bags versus loose coins, etc.) and availability through the bank.
e) State the bank’s Availability Policy especially if it differs from the published availability schedule. Does the bank offer expedited availability? Are any deposits or credits delayed?
f) If provisional credit is given on deposit before verification, when does verification occur?
g) Include a list of all the bank’s deposit locations and alternatives.

5. **Standard Disbursing Services**

Standard disbursing services for all accounts are required to include the payment of all County checks without charge upon presentation. Checks are written for operations, payroll and accounts payable through the Warrant Account and County Treasury Accounts. Checks are also issued from the Inmate Trust Fund, Juvenile Trust Fund, Sheriff’s Bond Account, Sheriff’s Writ Account and SFC Public Housing Escrow. The proposal shall address the foregoing and the following:

a) What constitutes a standard signature?
b) The bank must offer extended storage for check Images. What time periods and conditions are images available on line? The County requires 12 months or greater.

6. **Positive Pay**

To safeguard against fraudulent checks, positive pay services must be provided. Positive pay is currently used for payroll and accounts payable in the Warrant Account. Positive pay is also used in the County Treasurer’s Account, and the Inmate Trust Account, but may be used for additional accounts in the future. The County prefers that positive pay services provide complete indemnification for fraudulent checks. If the Bank cannot provide positive pay services, the proposal will be deemed not responsive.

The proposal shall address the foregoing and the following.

a) Is positive pay input (for manual checks) and exception handling available on-line?
b) Describe the data transfer requirements or alternatives for check registers and individual checks (transmission requirements). How is information on individual manual checks created by the County and transmitted to the bank?
7. **Wires and Funds Transfer Services**

The County currently has approximately four outgoing repetitive wires, per month, from the main operations account. Some outgoing, non-repetitive wires for purchases, and some non-repetitive incoming wires for revenue, may also be required. Incoming wire transfers must receive immediate same day collected credit. Wire initiation and monitoring should be available on-line. The County requires compensation for delays caused by bank errors at the day’s Fed Funds rate. The proposal shall address the foregoing and the following:

a) List the methods of wire initiation and monitoring available.
b) Is a paper follow-up transaction required in addition to the on-line transaction?

a) What items are captured (checks, statements, deposit slips, deposited items, incoming/outgoing wire backup, CDs as archived images, etc.)?
b) Describe the retrieval capabilities. Are images available on line? How long are images retained on line? The County requires 12 months or greater.
c) Describe any software or hardware requirements.

9. **ACH Services**

ACH services are required, this to include Same Day ACH. ACH transactions (both incoming and outgoing) are currently being processed in both the main operations, and the county treasurer’s accounts. The county requires the ability to initiate both debit and credit ACH transactions in order to accommodate the County’s business processes for direct deposit, vendor payments, distribution of property tax, and utilities and tax billings. The County requires the ability to accept or reject any ACH transactions initiated by anyone other than authorized County personnel. The County requires the ability to apply and remove ACH blocks. The proposal shall address the foregoing and the following:

a) The County requires a pre-notification on all new ACH transactions;
b) ACH services are required to be available on-line;
c) Describe how an ACH addendum is shown in their entirety online;

d) Describe any filters and blocks that may be available;

The County requires the bank to incorporate a lockbox service for Tax Collections into the banking arrangement but may not choose to use the service. The County currently bills 85,000 customers on a computer generated, bar coded statement, with payment coupons. The Offeror must be able to create a posting file compatible with the County’s software, with data scanned from the payment coupons.

Within five business days of receipt of the monthly account analysis (and subsequent approval of the fees by County) the bank may direct debit the designated account for fees due if compensation is being calculated on straight fees.

A complete account analysis will be required monthly regardless of the payment basis. The proposal shall address the foregoing requirements and the following:

The proposal shall address the foregoing requirements and the following:

a) Provide the name and title of the proposed account executive with a short bio.

Every effort will be made to eliminate intra-day and inter-day overdrafts. However, should this situation arise, the proposal shall state the bank’s policy regarding overdrafts. The proposal should detail overdraft fees, if any, to be charged on a per event or per account basis. The proposal shall ensure that all accounts are aggregated for overdraft calculation purposes.

15. **Return Item Debits (Checks/ACH)**

Complete information must be provided for all returned item debits, whether returned check items, or ACH reversals. Original paper copies of all returned checks must be mailed to the County. Images of all returned checks must be made available online through account inquiry. Descriptions of ACH reversal must contain the payee name, reason for return, and the customer reference number as detailed within the original ACH file. Describe the bank’s process for returned checks and ACH reversals.

16. **Stop Payment Requests**

The County currently averages (5) five stop pays a month. An online stop payment process is required. Describe your banks stop payment process; address the following:

18. **Remote Deposit Capture (RDC)**

The County receives a high volume of checks annually over the counter at various locations, via U.S. mail or drop boxes at the County Complex. The County currently has RDC units at all satellite offices, utilities, housing and corrections. The Treasurer’s Office has a total of 5 working through a third party software integrated with the banks software. The County may seek additional units installed at various locations to minimize checks processed at the County Treasurer’s Office and to comply with New Mexico 24-hour deposit rule of public funds. Describe the bank’s ability deploy and work with existing units. If the Bank cannot provide Remote Deposit Capture (RDC) services, the proposal will be deemed not responsive.

19. **Debit Card & Purchasing/Procurement Cards**

The County currently uses debit cards for select individuals and departments with various limits. The daily balance remains the same as the limit and daily limits are swept from the County’s main operational account. The County currently does not utilize Purchasing/Procurement but reserves the right to activate this service when beneficial to the county. If Debit Card & Purchasing/Procurement Card Services cannot be provided, the proposal shall be deemed non-responsive.

20. **Emerging Trend Services**

The County reserves the right to add any Emerging Trend Services that are beneficial to the County such as:

- Block Chain
- Real-Time Payments

- Push to Card

**G. ALTERNATIVE SERVICES**

Responding financial institutions are encouraged to indicate any reservations or exceptions to the RFP and submit alternative approaches. Such reservations or exceptions should be clearly noted in the proposal, and may, or may not be accepted.

**H. BANK COMPENSATION**

1. The County will take into account all costs and earnings potential as part of the evaluation of the proposal.

2. Appendix A details anticipated fees identified by the applicable TMA (APT) code if possible. Bundled fees should be clearly delineated especially regarding those for on-line services to assure accurate evaluation.

3. The County reserves the right to utilize either a direct fee basis or a compensating balance basis (or a combination of each) for payment of services under the contract. The County reserves the right to change the fee methodology during the contract period upon no less than 30 days’ written notice to the bank with
the change commencing the beginning of the following month. This will enable the County to take advantage of changing interest rate environments.

a) If direct fees are used as the basis for compensation, fees will be paid as a direct debit to a designated account after a five-day County review and approval of the account analysis charges.

b) If a compensating balance basis is used for the basis of compensation, the County requires monthly carry-over of balances.

c) Regardless of the payment methodology a monthly account analysis will be required.

4. This is a two (2) year service agreement with two (2) one-year extension options. Fees and service charges included in the successful proposal shall remain in effect for the initial two-year period; however, any Federal Reserve service charge increase may be passed through to the County upon 30-days written notice. Should new services be required during the contract period not contemplated by this RFP, those services will be provided at fees not more than the bank’s then current published rate. Any changes in fees for the two optional extension periods will be negotiated and must be approved by the County Treasurer in writing. SANTA FE COUNTY INVESTMENT PLAN
APPENDIX D
SAMPLE AGREEMENT

PROFESSIONAL SERVICE AGREEMENT
BETWEEN SANTA FE COUNTY AND _______________
TO PROVIDE BANKING SERVICES

THIS AGREEMENT is made and entered into this _____ day of _______________ 2021, by and between SANTA FE COUNTY, hereinafter referred to as the “County” and _______________ whose principal place of business is located at __________________, hereinafter referred to as the “Contractor”.

WHEREAS, the County Treasurer’s Office handles all banking, treasury, and investment activities and the County Finance Department handles accounts payable, accounts receivables, payroll, and financial reporting functions; and

WHEREAS, it is the County’s intention to minimize banking costs, improve operational efficiency and maximize its investment capabilities and requires banking services to achieve these goals; and

WHEREAS, pursuant to NMSA 1978, Sections 13-1-112 and 13-1-117, competitive, sealed proposals were solicited via a formal Request for Proposals (RFP) No. 2021-0047-TRS/CW for the provision of banking services; and

WHEREAS, based upon the evaluation criteria established within the RFP for the purposes of selecting the most qualified offeror, the County has determined the Contractor as the most responsive and highly rated offeror; and

WHEREAS, the County requires the services of the Contractor and the Contractor is willing to provide these services and both parties wish to enter into this Agreement.

NOW, THEREFORE, it is agreed between the parties:

1. SCOPE OF WORK

A. GENERAL STATEMENT OF BANKING SERVICES REQUIRED

1) The banking services shall be directed towards five major goals:

   f) The safety and liquidity of County funds;
   g) Maximum potential for interest earnings on operational funds;
   h) The efficient utilization of available banking services;
   i) The responsiveness and ability to provide high-quality banking services;
   j) Minimization of banking costs for the County.

2) Collateral: The County requires a depository that is fiscally strong and able to provide the required services on an uninterrupted basis. County funds are public funds and require collateralization in accordance with NMSA, Section 6-10-21 and NMAC 2-60-4, in general, and as specifically delineated by the County’s Investment Policy. If funds are not swept to an agreed upon, SEC registered money market fund or overnight repurchase agreement account, all un-invested time and demand funds, which exceed current FDIC insurance coverage, Santa Fe County requires collateralized at 102% with securities specifically authorized pursuant to NMSA 6-10-7 and by the County’s Investment Policy. Authorized collateral shall include only:

   d) Obligations of the U.S. Treasury.
   e) Obligations of U.S. Agencies and Instrumentalities.
f) Irrevocable Letters of Credit Issued by the Federal Home Loan Bank of Dallas.

An independent third party institution, outside the bank’s holding company, shall hold all securities pledged to the County, as collateral. Pledged securities shall be held on the books of the third party institution in the name of the County. The pledging bank will be contractually liable for securing and reporting the monthly market value of pledged securities, and for the continuous monitoring and maintenance of required margin levels. The pledging bank shall provide a monthly listing of pledged securities to the County Treasurer which shall include market values and complete security descriptions. The Contractor shall identify the third party institution that it intends to utilize for collateralization services, and shall fully disclose all associated costs for providing such services.

The depository shall be required to agree to all collateral requirements and the County’s Investment Policy.

B. OVERVIEW

The County currently maintains forty-one (41) bank accounts with our custody bank. The approximate average daily balances for these accounts are outlined in the chart that follows:
Funds are “swept” from the Main Operations account to the Warrant account and to the County Treasurer account to cover disbursements. The Main Operations account has been used as a “clearing” account for receipt of funds from matured investments, before initiating a next-day transfer-out of those funds. The Main Operations account also receives “sweeps” of funds initially deposited in the Lockbox account, when active, and the Credit Card account, daily.

Most bank activity will occur in the Main Operations Account. This account may be swept to a SEC registered money market fund, or an overnight repurchase agreement account whenever the County Treasurer determines a need for such an account; however, the County has the right to sweep any, or all, accounts as deemed necessary to accommodate the County’s business processes. ACH (both incoming and outgoing), wires and securities transactions occur, for the most part, in the Main Operations Account, but can occur in both the County Treasurer account and the SFC Housing Authority account. Positive Pay has been established for Payroll and Accounts Payable checks clearing the Warrant Account, and for checks issued from the County Treasurer account. Additionally, Positive Pay has been established for the Inmate Trust

d) Gross receipt taxes are collected through the State and received and deposited monthly by ACH or Wire transfer. An average of $6.5 million is received monthly, usually on the 15th.
e) Approximately $5.0 million is processed in payables monthly.
f) The County has a bi-weekly payroll for approximately 957 employees totaling an average $1.5 million. The County requires ACH payroll transactions for approximately 772 employees averaging $1 million on a bi-weekly basis.

The County anticipates that it will maintain the current account structure. All account balance decisions will be made by the County Treasurer.

Any or all County funds may be maintained and invested by the County outside of this Agreement. The County Treasurer will be under no obligation to maintain funds in the bank except under a compensating balance situation.

Primary responsibility for administration of this Agreement within the County organization resides with the County Treasurer who shall monitor the bank’s performance against provisions of the Agreement, including the Contractor’s submitted proposal. The County Treasurer shall be responsible for administering the agreement with respect to day-to-day activities, including deposits and withdrawals, ACH and wire transactions, maintenance of account balances, daily reporting, etc. A list of County personnel authorized to deal directly with the bank shall be provided to the Contractor. The Contractor shall provide a similar list of key personnel authorized to make decisions for the bank to the County.

C. REQUIRED BANKING SERVICES

1) Consolidated Account Structure with Sweep Mechanism

The County’s banking transactions occur, for the most part, in the Main Operations account. This account serves as the “master” account for automated sweeps between operations-related accounts. Contractor shall automatically sweep funds both “from” and “to” specified ZBA or target-balance accounts, on both a daily basis and, to cover checks (warrants) in assuring that all its funds are earning the best, then-current interest rate available at all times. The County may require the ability to sweep to a money market fund or overnight repurchase agreement in order to procure this full investment goal. A SEC registered government, or enhanced government, money market fund or overnight repurchase agreements must be used for the sweep. If the bank has a valid alternative to a SEC money market fund it should be proposed. A repurchase agreement with the bank is acceptable as a sweep investment vehicle as long as the rate is competitive with fed funds and the securities purchased are equal to AAA rated government securities or U.S. Treasuries.

2) Automated Cash Management Information Access

The County requires on-line cash management services and daily balance reporting for timely access to balance information and transactions. Minimum automated services shall comply with the foregoing and shall include:

- prior day summary balance reporting on all accounts,
- initiation and monitoring of stop pays,
- ACH fraud filter exception transactions,
- positive pay exception transactions,
- initiation and monitoring of account transfers, and
1) initiation and monitoring of wire transfers i.e. Federal Government transfers from DOJ, HUD, etc.

3) All statements shall be available on-line. Daily reporting shall include descriptive and image detail on all transactions, and summary account reporting shall include both ledger and collected balances, and include one-day float.

4) Standard Deposit Services

Standard commercial deposit services are required for all accounts. Deposits will consist of coin, currency and endorsed checks. The County requires same bank day credit on all cash (coin and currency) deposits. Coin may be deposited loose, or partially filled bags. Coins will not be rolled. The County averages one daily deposit by armored car. Locking deposit bags are required. The County will not encode checks. The County Treasurer may have a recurring need for strapped cash and coins.

All deposits received by the bank’s established deadline shall be processed for same day credit. The Contractor shall also guarantee immediate credit on all incoming wire transfers, US Treasury checks, ACH transactions, on-us items, and U.S. government security maturities and coupon amounts.

The County expects all checks to clear based on the bank’s current published availability schedule, but, any other availability policies shall be provided to the County. Failure to credit County accounts in a timely fashion shall require interest payment reimbursement to the County at the then current daily Fed Funds rate.

5) Standard Disbursing Services

Standard disbursing services for all accounts are required to include the payment of all County checks without charge upon presentation. Checks are written for operations, payroll and accounts payable through the Warrant Account and County Treasury Accounts. Checks are also issued from the Inmate Trust Fund, Juvenile Trust Fund, Sheriff’s Bond Account, Sheriff’s Writ Account and SFC Public Housing Escrow.

6) Positive Pay

To safeguard against fraudulent checks, positive pay services shall be provided. Positive pay is currently used for payroll and accounts payable through the Warrant Account and County Treasurer’s Account. Positive pay is also used in the Inmate Trust Account. The County requires positive pay services to provide complete indemnification for fraudulent checks.

7) Wires and Funds Transfer Services

The County currently has approximately four outgoing repetitive wires, per month. Some outgoing, non-repetitive wires for purchases, and some non-repetitive incoming wires for revenue, may also be required. Incoming wire transfers shall receive immediate same day collected credit. Wire initiation and monitoring shall be available on-line. The County requires compensation for delays caused by bank errors at the day’s Fed Funds rate.

8) Optical Imaging

The County requires optical imaging for all accounts that issue checks.

9) ACH Services
ACH services are required. ACH transactions (both incoming and outgoing) are currently being processed in both the main operations, and the County Treasurer’s accounts. The County requires the ability to initiate both debit and credit ACH transactions in order to accommodate the County’s business processes for direct deposit, vendor payments, distribution of property tax, and utilities and tax billings. The County requires the ability to accept or reject any ACH transactions initiated by anyone other than authorized County personnel.

10) **Lock Box**

The County requires the Contractor to incorporate a lockbox service for Tax Collections into the banking arrangement but may not choose to use the service. The County currently bills 65,000 customers on a computer generated, bar coded statement, with payment coupons. The Contractor shall create a posting file compatible with the County’s software, with data scanned from the payment coupons.

It is critical that the lockbox encoding and reporting provide full information for research on individual checks which are returned or imaged after processing. It is critical that batch references enable the County to facilitate that research. All items processed thru the lock box shall be posted to the credit of Santa Fe County on the same business day.

11) **Account Analysis**

Monthly account analysis reports shall be provided for each account, together with a consolidated account analysis report by the fifth business day after calendar month end. Within five business days of receipt of the monthly account analysis (and subsequent approval of the fees by County) the bank may direct debit the designated account for fees due if compensation is being calculated on straight fees.

A complete account analysis shall be required monthly regardless of the payment basis.

12) **Monthly Statements**

The Contractor shall provide daily, weekly and/or monthly account statements, as needed, on all accounts. Hard copy statements shall include complete supporting documentation. Statements shall be received by the second business day of the succeeding month, and shall be available online.

At a minimum, the following information will be required for each account statement:

- j) Imaged detail of all debit and credit transactions;
- k) Images of all cleared checks;
- l) Full wire and ACH trailer information, if not remitted previously;
- m) Images of all deposit slips
- n) Beginning and ending balances, and average daily balances;
- o) Copies/images of all transactions performed by bank personnel.

13) **Account Executive**

To insure smooth contract implementation and continuation of services, a specific account executive and a back-up shall be assigned to the County Treasurer’s account to coordinate services and expedite the solution of any problem encountered. The account executive shall be available to County staff on banking matters as needed and at regularly scheduled monthly meetings which are required.
14) **Overdrafts**

Every effort shall be made to eliminate intra-day and inter-day overdrafts.

15) **Return Item Debits (Checks/ACH)**

Complete information shall be provided for all returned item debits, whether returned check items, or ACH reversals. Original paper copies of all returned checks shall be mailed to the County. Images of all returned checks shall be made available online through account inquiry. Descriptions of ACH reversal shall contain the payee name, reason for return, and the customer reference number as detailed within the original ACH file.

16) **Stop Payment Requests**

The County currently averages (5) five stop pays a month. An online stop payment process shall be provided by the Contractor.

17) **Courier or Armored Car Service**

The Contractor shall provide courier or armored car services. The courier shall deliver the County Treasurer’s deposit to the bank each business day (from one County deposit location).

21. **Merchant Card Services**

The County is currently accepting credit/debit card payments for property taxes, via the Santa Fe County online site, and over-the-counter payments. The Contractor shall create and host a payment site for credit/debit card transactions. Additionally, the County may wish to consider using credit/debit cards in payment of County services not related to property taxes.

2. **ADDITIONAL SERVICES**

A. The parties agree that all tasks set forth in Section 1 (Scope of Work), of this Agreement shall be completed in full, to the satisfaction of the County, in accordance with professional standards and for the amount set forth in Section 3 (Compensation, Invoicing and Set-off), of this Agreement, and for no other cost, amount, fee or expense.

B. The County may from time to time request changes in the scope of work to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor’s compensation, which are mutually agreed upon by and between the County and the Contractor, shall be incorporated in a written amendment to this Agreement.

3. **COMPENSATION, INVOICING AND SET-OFF**

A. In consideration of its obligations under this Agreement the Contractor shall be compensated as follows:

1) County shall pay to the Contractor in full payment for services satisfactorily performed and all costs and expenses shall be in accordance with Exhibit A.

2) The County reserves the right to utilize either a direct fee basis (per item) or a compensating balance basis (or a combination of each) for payment of services under this Agreement. The County reserves the right to change the fee methodology during the contract period upon no less than 30 days’ written notice (via email or fax) to the Contractor with the change commencing
the first of the next following month. This will enable the County to take advantage of changing interest rate environments.

a) When a direct fee basis is used as the basis for compensation, fees will be paid as a direct debit to a designated account after a five-day County review and approval of the account analysis charges.

The Contractor shall provide the County with an “account analysis statement” within five business days after calendar month-end. Within five business days of the County’s receipt of the monthly account analysis statement, County staff will review the proposed fees, and will either agree or disagree with the amount to be charged. When the County has approved the final monthly account analysis fee, the Contractor shall initiate a direct debit in the Main Operations account for the agreed upon amount.

b) When a compensating balance basis is used for the basis of compensation, the County will require monthly carry-over of balances.

All operations-related accounts shall be swept to their targeted compensating balance prior to computation of net monthly banking fees due.

c) Regardless of the payment methodology a monthly account analysis shall be required.

d) All item and account charges shall remain at the price quoted for the duration of this Agreement regardless of changes in service volumes during the term of this Agreement. Should new services be required during the contract period not initially contemplated, those services will be provided at fees not more than the Contractor’s then current published rate and must be approved by the County Treasurer. Any changes in fees for the remaining extension periods shall be negotiated and approved by the County Treasurer in writing. The rate increase in any extension period shall not exceed Consumer Price Index (CPI) increases (for the Western Region) during the same period, as reported by the Bureau of Labor Statistics.

3) This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Agreement shall equal the amount stated herein. The parties do not intend for the Contractor to continue to provide services without compensation when the total compensation amount is reached. The County will notify the Contractor when the services provided under this Agreement reach the total compensation amount. In no event will the Contractor be paid for services provided in excess of the total compensation amount without this Agreement being amended in writing.

B. The Contractor shall submit a written request for payment to the County when payment is due under this Agreement. Upon the County’s receipt of the written request, the County shall issue a written certification of complete or partial acceptance or rejection of the contractual items or services for which payment is sought. The Contractor acknowledges and agrees that the County may not make any payment hereunder unless and until it has issued a written certification accepting the contractual items or services. Within thirty (30) days of the issuance of a written certification accepting the contractual items or services, the County shall tender payment for the accepted items or services. In the event the County fails to tender payment within thirty (30) days of the written certification accepting the items or services, the County shall pay late payment charges of one and one-half percent (1.5%) per month, until the amount due is paid in full.
C. In the event the Contractor breaches this Agreement, the County may, without penalty, withhold any payments due the Contractor for the purpose of set-off until such time as the County determines the exact amount of damages it suffered as a result of the breach.

D. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payment.

3. EFFECTIVE DATE AND TERM

This Agreement shall, upon due execution by all parties, become effective as of the date first written above and shall terminate two (2) years later, unless earlier terminated pursuant to Section 5 (Termination) or Section 6 (Appropriations and Authorizations). The County has the option to extend the contract at the same price, terms and conditions for two (2) additional years upon the approval of the County. The County may exercise this option by submitting a written notice to Contractor that the Agreement will be extended an additional year. The notice must be submitted to Contractor at least sixty (60) days prior to expiration of the initial Agreement.

Fees and service charges included in this Agreement shall remain in effect for the initial two-year period; however, any Federal Reserve service charge increase may be passed through to the County upon 30-day written notice. Should new services be required during the contract period not contemplated by this Agreement, those services will be provided at fees not more than the bank’s then current published rate. Any changes in fees for the two optional extension periods will be negotiated and must be approved by the County Treasurer in writing. In no instance will the rate increases in extension periods exceed the CPI increases during the same periods as reported by the Bureau of Labor Statistics.

5. TERMINATION

A. Termination of Agreement for Cause. Either party may terminate the Agreement based upon any material breach of this Agreement by the other party. The non-breaching party shall give the breaching party written notice of termination specifying the grounds for the termination. The termination shall be effective thirty (30) days from the breaching party’s receipt of the notice of termination, during which time the breaching party shall have the right to cure the breach. If, however, the breach cannot with due diligence be cured within thirty (30) days, the breaching party shall have a reasonable time to cure the breach, provided that, within thirty (30) days of its receipt of the written notice of termination, the breaching party began to cure the breach and advised the non-breaching party in writing that it intended to cure.

B. Termination for Convenience of the County. The County may, in its discretion, terminate this Agreement at any time for any reason by giving the Contractor written notice of termination. The notice shall specify the effective date of termination, which shall not be less than fifteen (15) days from the Contractor’s receipt of the notice. The County shall pay the Contractor for acceptable work, determined in accordance with the specifications and standards set forth in this Agreement, performed before the effective date of termination but shall not be liable for any work performed after the effective date of termination.

6. APPROPRIATIONS AND AUTHORIZATIONS

This Agreement is contingent upon sufficient appropriations and authorizations being made for performance of this Agreement by the Board of County Commissioners of the County and/or, if state funds are involved, the Legislature of the State of New Mexico. If sufficient appropriations and authorizations are not made in this or future fiscal years, this Agreement shall terminate upon written notice by the County to the Contractor. Such termination shall be without penalty to the County, and the County shall have no duty to reimburse the Contractor for expenditures made in the performance of this Agreement. The County is expressly not committed to expenditure of any funds until such time as they are programmed, budgeted, encumbered and approved for expenditure by the County. The County’s decision as to whether sufficient appropriations and authorizations have been made for the fulfillment of this Agreement shall be final and not subject to challenge by the Contractor in any way or forum, including a lawsuit.
