COOPERATIVE PROJECT AGREEMENT

This Agreement is made and entered into this 9th day of March, 2012, by and between the New Mexico Department of Transportation (Department) and the County of Santa Fe (County), collectively referred to as the "Parties."

In consideration of the covenants contained herein and pursuant to NMSA 1978, § 67-3-28, the Parties agree as follows:

SECTION ONE: PURPOSE

The purpose of this Agreement is to provide Federal Highway Administration (FHWA) funds to the County for a transportation project described in the County's Plans Specifications and Estimate Package (PS&E), the Project Identification Form (PIF) and the Statewide Transportation Improvement Program (STIP). This Project is referred to interchangeably as "Project" or "Project Control No. S100120." The Project is a joint and coordinated effort for which the Department and the County each have authority or jurisdiction.

SECTION TWO: FUNDING

1. The total funding for Project Control No. S100120, is Five Hundred Thousand Dollars (\$500,000) which will be shared by the Parties as follows:

- A. **2011/2012 Surface Transportation Under (TPO) Funds**
Department's 85.44% share \$427,200
 For preliminary engineering of NE and SE connectors in Santa Fe County, Phase A and B to provide additional access to County connectors and subdivisions in the Rancho Viejo area, thus removing traffic from Richards Avenue.
- B. **County's matching 14.56% share** \$72,800
 For the purpose stated above.
- C. **The Total Project Funding** **\$500,000**

- 2. The **County** shall pay all Project costs that exceed the total funding amount specified in this section.
- 3. FHWA's obligation of federal funds shall be supported by a certified cost estimate based on the County's Engineer's Estimate of Probable Cost. The engineer's estimate shall be submitted to the Department's Regional Division Manager or Designee prior to the PS&E Review pursuant to 23 CFR Part 630B.
- 4. After the project is advertised, bids shall be submitted to the Department's Regional Division Manager or Designee, who will review and determine if the amount of federal funds obligated by the FHWA requires adjustment pursuant to 23 CFR Part 630.106. The

County's approved responsive low bid for the project, including approved alternates, will be compared to the amount obligated. The Department will allow a 15% increase over the base bid and any approved alternates to cover Engineering and Contingencies and Gross Receipts Tax. If the difference between the FHWA's obligation amount and the responsive low bid plus the 15% is within \$250,000, the amount of funds obligated will not change. If the difference between the obligation amount and the responsive low bid plus the 15% exceeds \$250,000, the difference will be deducted reducing the amount of funds obligated.

5. The County shall abide with the conditions identified within 23 CFR 635.120 in entirety. If the County identifies additional work that may be justifiable in incorporating into the construction contract this work shall be reviewed and approved by the Department prior to commencing with the additional work.

SECTION THREE: METHOD OF PAYMENT--REIMBURSEMENT

The Department's District Office shall reimburse the County upon receipt of payment requests for the purposes stated in Section Two, with supporting documentation as determined and/or approved by the Department, certifying that costs have been incurred in compliance with this Agreement. Invoices shall be submitted monthly to the Department District Office. Payment requests shall be identified by the project control number and certified that the requests accurately reflect work completed, amount due and the remaining Agreement balance. All expenses must be actual, rather than estimated, and listed on the payment request as charged. Only those expenses that are properly documented and deemed eligible will be reimbursed. Incomplete submittals will be returned to the County for corrections. Reimbursements shall include the information contained in **Appendix J**.

The Department's District Office will not reimburse the County for costs incurred prior to the full execution of the Agreement and obligation of federal funding, after the expiration of the Agreement, or in excess of the maximum dollar amount of the Agreement. Costs incurred prior to FHWA authorization require additional justification pursuant to 23 CFR Part 1.9. Preliminary Engineering/Construction Engineering

1. The County may select design consultants for studies and preliminary engineering and construction engineering. Preliminary Engineering/Construction Engineering, consultant selection procedures shall be in accordance with 23 CFR Part 172 and the State Procurement Code, NMSA 1978, §§ Chapter 13-1-1 et. seq. If the County is a Home Rule City, their Procurement Code shall be followed.
2. Costs incurred for Preliminary Engineering/Construction Engineering may be reimbursed if funding for design is stipulated in Section Two of the Project Agreement, programmed into the Statewide Transportation Improvement Program (STIP), authorized and obligated under the design phase, and comply with applicable provisions listed in paragraph 1 above.
3. On occasion, state funds are used for the design of a federal aid construction project. Stand-alone projects funded with these monies, such as Municipal Arterial Program, Severance Tax, or General Fund are normally certification projects that require minimal oversight by the Department. If state funds are used for preliminary engineering for a federal aid construction project, the associated Request for Proposals and Architectural/Engineering Contracts must follow the same procedures as if federal funds were being used.
4. Engineering consultants shall prepare a final fee estimate of any work to be performed, indicating each element or task with estimated personnel-hours and associated unit costs. The County shall keep this on file for five years.
5. Requests for Proposals (RFP) for federally funded professional engineering services shall be reviewed and approved by the Department's Regional Division Manager or Designee before it is advertised. After approval, the County can advertise the RFP and can enter into a contract with the consultant pursuant to the Department's Consultant Services Procedures Manual or their own procedures that comply with 23 CFR Part 172. After the contract is in place the FHWA will authorize the federal funds. If the County uses their own funds for design or construction engineering, no approvals for the consultant selection or process are required.
6. Reimbursements to the County for preliminary engineering or construction engineering will be made in accordance with reimbursement provisions of this Agreement, and based upon appropriate, timely submittals by the County of **Appendix F-1**, and compliance with applicable provisions listed in **Appendix A** of this Agreement. Costs incurred prior to FHWA authorization require additional justification pursuant to 23 CFR Part 1.9.
7. The County's Project Manager shall keep the Department's Regional Division Manager and Assistant District Engineer or their respective Designees apprised of the Project's progress and important issues as well as forward to them all pertinent correspondence in a timely manner.
8. The County shall invite the FHWA Area Engineer, Department's Regional Division Manager, Assistant District Engineer, and Construction Liaison Engineer to participate in any design reviews, pre-construction conference and any pre-paving and partnering meetings.

Location Corridor Study Guidelines
The County shall:

1. Be responsible for the Location Corridor Study, preliminary design, environmental documentation, and preliminary right of way activities.
2. Agree to comply with the Department's Location Study Procedures, Phases A, B, and C.
 - a. **PHASE A – INITIAL CORRIDOR STUDY**
Determine the need for the project, define the full range of viable alternates, identify social, economic, environmental constraints, and select the most practical alignments for further study.
 - b. **PHASE B – DETAILED ALTERNATE EVALUATION**
Refine alternate alignments and generate feasible designs for each alternate at a conceptual level and provide adequate detailed information to serve as a basis for the preparation of the environmental documentation and the selection of the final alternate.
 - c. **PHASE C – ENVIRONMENTAL DOCUMENTATION**
Complete the environmental documentation process, subsequent circulation and public hearing procedures in accordance with the action plan and federal requirements.
3. Initiate and ensure the reports detailed in Number 2 above are prepared.
4. Require its Engineering Consultant to prepare a final fee estimate of the work to be performed, indicating each element or task with estimated personnel-hours and associated unit costs. The County shall keep this on file for a minimum of five years.
5. Secure the Department's approval of the reports detailed in Number 2 above. The Department shall coordinate all related activities through the FHWA.
