## AGREEMENT FORM

As an eligible PNM customer, I certify that the indicated energy efficiency measures, which will be demonstrated with supporting documentation required by PNM, were installed after May 19, 2009. The energy efficiency measures are for use in my business facility and not for resale. I have attached documentation establishing proof of payment for the items installed according to this application. Project documentation, such as copies of dated invoices for the purchase and installation of the measures and product specification sheets, is required. Further documentation requirements can be found in the Policy and Procedures Manual which can be found at the program website [www.PNM.com/rebates](http://www.PNM.com/rebates) or can be ordered by calling the program hotline. Documentation indicating installation dates prior to May 19, 2009, will render this application ineligible.

I understand that the location or business name on the invoice must be consistent with the application information. Final Applications and all required supporting documentation should be received within 60 days of the completion of the project with all required documentation. **Applications submitted more than 6 months after project completion will be ineligible for incentives.**

I agree to verification by the utility or their representatives of both sales transactions and equipment installation.

The energy savings from installed measures must occur on a meter with an eligible rate schedule. Most non-residential rate schedules are eligible. Master metered non-residential rate schedules within multifamily facilities are eligible. Individually metered residential rate schedules within multifamily facilities are eligible only within the context of a property owner/manager sponsored full-facility project. A qualifying multifamily facility consists of a single commercial property containing more than four dwelling units. See below:

PNM Tariffs:

- 2A, 2B, 3B, 3C, 4B, 5B
- Water and Sewage Pumping 11B
- Large Service for Public Universities 15B
- Large Service for Manufacturing 17B
- Special Contract Service for Large Customers 23
- Large Service for Manufacturing- Distribution Level 30B

Any and all environmental credits generated by the project described in this application will be retained by PNM.

I certify that the information on this application is true and correct, and that the Taxpayer ID Number is the applicant's. I understand that incentive payments assume related energy benefits over a period of 5 years or for the life of the product, whichever is less.

I agree that if: (1) I do not install the related product(s) identified in my application, or (2) I remove the related product(s) identified in my application before a period of 5 years or the end of the product life, whichever is less; then I shall refund a prorated amount of incentive funds to PNM based on the actual period of time in which the related product(s) were installed and operating (or the full amount if the product was never installed). This is necessary to assure that the project's related energy benefits will be achieved.

I understand that the program may be modified or terminated without prior notice.

I understand that this project must involve a facility improvement that results in improved energy efficiency. I also understand that all materials removed, including lamps and PCB ballasts, must be taken out of service and disposed of in accordance with local codes and ordinances. I understand it is my responsibility to be aware of any applicable codes or ordinances. Information about hazardous waste disposal can be found at: [ww.epa.gov/osw/hazwaste.htm](http://ww.epa.gov/osw/hazwaste.htm).

In no case will PNM pay more than 100% of the incremental measure cost or 50% of total project cost, whichever is lowest. I understand that PNM or their representatives have the right to ask for additional information at any time. The PNM New Construction and Retrofit Rebates program will make the final determination of incentive levels for this project.

I understand that my company may be recognized as a program participant in promotional materials; however, project details will not be released without prior consent. If I choose to opt-out of any recognition, I will indicate my choice in a written letter.

**AGREEMENT FORM (CONTINUED)**

I understand that PNM does not guarantee the energy savings and does not make any warranties associated with the measures eligible for incentives under this program, and, further, that PNM has no obligations regarding and does not endorse or guarantee any claims, promises, work, or equipment made, performed, or furnished by any contractors or equipment vendors, including Trade Allies listed on PNM's website, that sell or install any energy efficiency measures.

I understand that in the event funds are reserved based on a pre-notification the payment of incentives will be based upon the final application and program terms and conditions, and that the PNM New Construction and Retrofit Rebates program is subject to change or cancellation at any time and without notice. PNM is not responsible for any lost, late, stolen, ineligible, illegible, misdirected or postage-due mail. All completed submissions become the property of PNM and will not be returned. PNM makes no guarantees about the availability of products or rebate forms. By participating in the PNM New Construction and Retrofit Rebates program, customers agree to waive any claims and release PNM from any liability for damages, of any kind. Rebates are funded by a charge on PNM electric customer bills.

I have read and understand the program requirements and Measure Specifications and Terms and Conditions set forth in this application and agree to abide by those requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this program.

RE: PNM New Construction and Retrofit Rebates Project ID# PNM-12-00970  
Application Type: Retrofit  
Project Location: 327 SANDOVAL ST, Santa Fe NM 87501

Dear Erik Aaboe,

We are pleased to inform you that the Public Service Company of New Mexico (PNM) New Construction and Retrofit Rebates Program has received your Final Application requesting \$3,396.00 in incentives funds for your project.

Once we have reviewed your application, we will inform you of your final application status. Your application will be reviewed for eligibility, completeness and accuracy. This process may include verifying the facility's billing rate, reviewing calculations, invoices and possibly performing a post-inspection at the facility.

Please note, the Final Application incentive amount you requested is not guaranteed and may change according to the results of the application review. Actual incentives paid will be based on our review of the final application invoices and supporting project documentation.

We appreciate your interest in the PNM New Construction and Retrofit Rebates Program and thank you for helping promote the efficient use of energy in New Mexico. If you have questions, please don't hesitate to call the PNM New Construction and Retrofit Rebates Team at 1-877-607-0741 or email us at [energyefficiency@pnm.com](mailto:energyefficiency@pnm.com).

Sincerely,

PNM New Construction and Retrofit Rebates Program Team
