of fatalities involving
alcohol jumped to

40%

DID YOU KNOW?

In New Mexico, you can be
convicted of DWI even if the
breath or blood test is below
the legal limit if it is proven
that your ability to drive was
impaired to the slightest
degree by drugs or alcohol.

It's just not worth it.

Use DWI offenders
outstanding warrants
as arrest. They have
to comply with court
mandates. If you
information about the
of these people

Graduation is a time of celebration and new
beginnings. Remember to celebrate responsibly
and never drink and drive.

DWWhy?

Plan ahead, designate a driver, or use a
ride-sharing service to ensure everyone's safety.
Your future is too bright to risk with one bad decision.

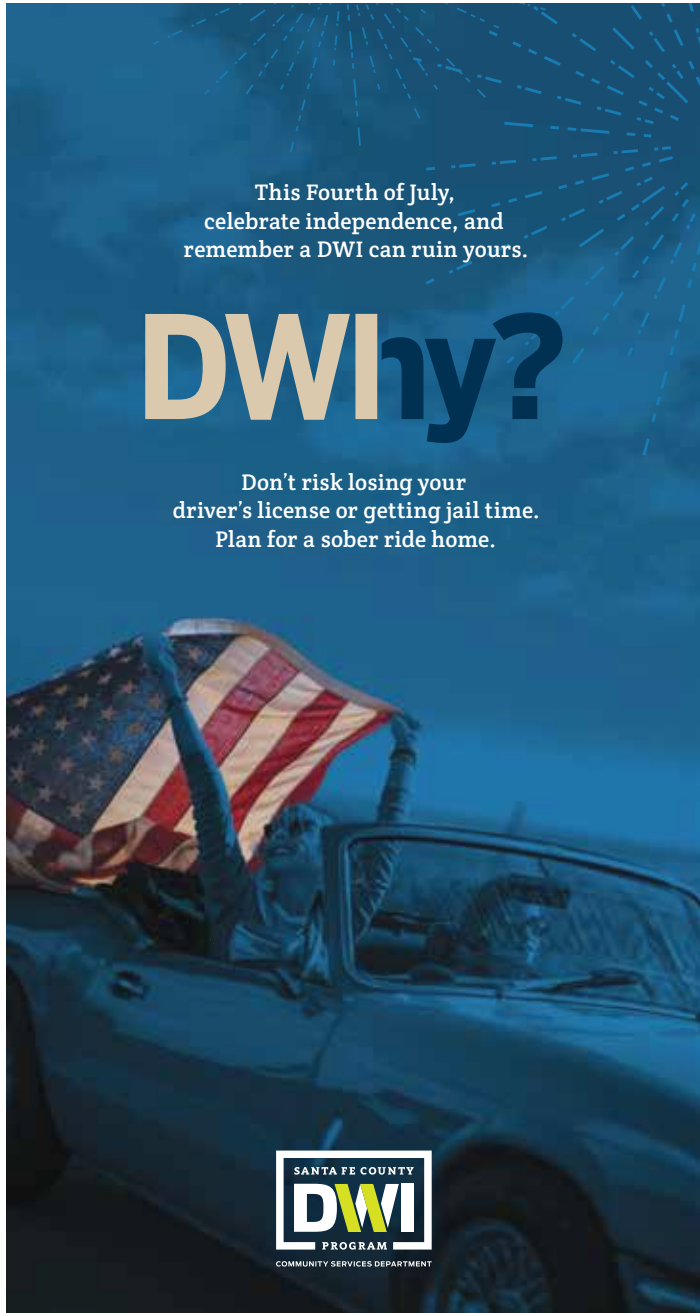

COMMUNITY SERVICES DEPARTMENT

This Fourth of July,
celebrate independence, and
remember a DWI can ruin yours.

DWWhy?

Don't risk losing your
driver's license or getting jail time.
Plan for a sober ride home.

TIP:
Even if you've had only one drink, let someone
who hasn't been drinking take you home.

**A SOBER DRIVER IS ONE WHO
DOES NOT DRINK AT ALL –
not the one who's had the least to drink.**

From 2017 to 2021, there
were **1,460 drivers killed** in
motor vehicle traffic crashes
over the Fourth of July
holiday period.

38%

of the drivers killed
were drunk.

DID YOU KNOW?
Even a blood alcohol
concentration of .02
can affect someone's
ability to perform two
tasks at one time – and
that affects your ability
to drive safely.

These DWI offenders
have outstanding warrants
for their arrest. They have
failed to comply with court
ordered mandates. If you
have information about the
location of these people
contact CRIMESTOPPERS
at 955-5050.

THIS DECEMBER, GET A SOBER RIDE HOME

The drinking limit for driving exists for safety. However, impairment can begin even before reaching that limit. Always plan for a designated driver, a safe-ride, or other sober ways to ensure you get home safely.

.08 BAC IS SERIOUS.
If you've been drinking, don't get behind the wheel.

BE EXTRA CAREFUL WHEN DRIVING AT NIGHT.
In December 2022, driving at night was much more dangerous than during the day. During the hours of 6:00 p.m. to 5:59 a.m., **31%** of drivers involved in fatal traffic accidents were under the influence of alcohol. trafficsafetymarketing.gov

LOS EFECTOS DE LA CONCENTRACIÓN DE ALCOHOL EN LA SANGRE **.08** **THE EFFECTS OF BLOOD ALCOHOL CONCENTRATION**

La coordinación muscular se vuelve escasa (por ejemplo; equilibrio, habla, visión, tiempo de reacción y oído), detectar el peligro es más difícil, el juicio, el autocontrol, el razonamiento y la memoria están deteriorados

Muscle coordination becomes poor (e.g., balance, speech, vision, reaction time, and hearing), harder to detect danger; judgment, self-control, reasoning, and memory are impaired
