Dear County Commissioners,

I'm writing as an Eldorado resident to express my support for the Rancho Viejo Solar project. I believe that the project is safe and that we need clean energy projects NOW to address the climate crisis that our region and our planet urgently faces. I hope the commission will not cave in to the alarmist and NIMBY feelings of many of my neighbors and will allow this important project to go ahead as rapidly as possible. This is especially pressing now that Federal Credits have been threatened with discontinuation for projects that are not started in the very near term.

Sincerely,

Adam Eigner-Herrera
