Dear Commissioners,

I am against this, there should be money to be helping our schools already!!! We are ranked 51 in a 50 state country!! Until you all start snapping and coming up with ideas and ways or start holding meeting about the schedule schools and sweeney doeant have a rape from student to student, or ej martyrs nez teaches basics curriculum of having the students learn math, English science history, art band and take out those teachers that are implementing to be gay telling the students that they can go out and love each other, girls two girls and boys to boys and then you have boys there who run around and dresses? This ptoject is a for me!!! The roads have been shitty for a long time. All you guys do is patch them up I just that is a state or federal responsibility because if it was city then why the hell is our city streets been so shitty for so long, but yet they make all these stupid apartments fuck Mary Weber He's a piece of shit. So I was just gonna go towards Santa Fe county roads or Santa Fe city?

And I don't see that they're gonna be hiring locals? Not only no but hell no, webber has all his east coast contractor friends here making low income appartments all over the city and they brought there own crews, who are they going to hire for the work? And i need a map of where you want to plant this at?

Joseph Chavez,
Santa Fe
