Dear Commissioners,

I strongly support the 'Tell the County Board: Support Solar' initiative. The Rancho Viejo Solar and Battery Storage Project is a crucial step towards achieving energy independence for Santa Fe County. By investing in solar projects with battery storage, we not only enhance our energy capabilities but also provide significant benefits to local farmers and families. It's essential that we voice our support to the County Board, urging them to prioritize sustainable energy solutions that empower our community. Let's make our voices heard for a brighter, more sustainable future.

Marco Pombo,  
Santa Fe
