County Officials:

This is an appeal to stop or cancel the above named project. Our land and homes are at risk. We live in a beautiful place and a common tourist destination. Why put this at risk? The value in tourism far exceeds the value of this potentially harmful project. The risks are well known. At the same time AES has a poor record of environmental safety. Why not locate it in an industrial section of Albuquerque or on Sandia Labs grounds? Please terminate this project.

Thank you, Don McCloskey
