

AES solar and lithium battery storage

To Dominic J. Sisneros <djsisneros@santafecountynm.gov>

Dear Mr. Sisneros,

I oppose the construction of the solar array and lithium battery storage in the Eldorado/ Rancho Viejo area. We live in one of the more populated areas in NM and the storage poses too great a fire risk. We rely on volunteer firefighters out here and this could be way too dangerous for them. I also have concerns about the amount of water needed to run this operation. There are many areas in our state where very few people live. Couldn't a more suitable location be found?

Respectfully,
Ellen Chandler
