Dear Mr. Sisneros,

I live in Eldorado and I am absolute opposed to having a solar Array and particular a **lithium battery storage** in our neighborhood, as I see there are many other unpopulated areas in New Mexico where this could be built without putting as many lives at risk as here!

I'm highly concerned about possible fires and the then extreme long process of putting out those lithium battery fires as before reported in California.

So please take those reports of lithium fires in California in consideration.

Best regards,
Tina Raddatz
