Dear Mr. Sisneros,

I strongly support the AES BESS and Solar Facility, and I live in Eldorado.

We must move forward ASAP with projects - this one and others - that will strengthen our local electric grid and move us towards the transition to renewable energy. Our environment and our well-being depend on it.

The risks of this project have been wildly exaggerated.

I urge all the County Commissioners to vote in favor of this project.

Respectfully,

Signa Larralde
