Dear Mr Sisneros,

As a resident of Santa Fe I am very concerned about the possibility of the AES facility being built and endangering the lives and property of those of us who live nearby. Why would the county government even give a moment's thought to approving a facility that will use our precious water, poison our air in case of fire and then send all the profits and energy out of state? Please tell AES to take their greedy business elsewhere and keep Santa Fe safe for the people that love living here.

Thank you, Penny Tracey
