You are my county commissioner.

I want to express my total support for the solar project on Highway 14

It makes sense for a number of reasons and especially economically and morally.

I believe the risk of fire is very minimal and risks can be mitigated. I have been surprised by the amount of disinformation that's been produced by those in opposition.

Climate change poses a much greater risk to life in our drying, heating area. We must do whatever we can to be responsible. My daughter, Tara, lives right off Shenandoah Trail near the south end of the project. She supports the project so you won't hear from her.

Thank you for any consideration you give my views.

Sheila Gibbens 87507
