

Are you ready to be a part of a transformative clean energy initiative that will not only power our homes but also fuel our community's growth?

The Rancho Viejo Solar Project by AES is a groundbreaking 96 MW solar and 48 MW battery storage system poised to bring us closer to our state's carbon-neutral goals and enhance our energy independence. Located in south Santa Fe off the Turquoise Highway, this project promises significant economic and environmental benefits, including job creation, increased tax revenue, and substantial clean energy production. Join us in supporting this vital project and help pave the way for a sustainable and prosperous future for New Mexico!

- **Job Creation:** 200+ jobs expected to be created during peak construction. \$28 million in labor and wages; \$5 million in new wages/material in Santa Fe County; \$18 million in New Mexico manufacturing output
- **Tax Revenue:** Estimated \$10+ million in tax revenue for Santa Fe County over the life of the project
- **Clean Energy Produced:** Provides enough clean energy to PNM customers to power 37,000 New Mexican homes annually.
- **Environmental Tests Passed:** 8 environmental, biological, and aquatic tests completed over the last two years on the site.
- **Clean Energy Goals:** Directly supports New Mexico's clean energy goal of 50% renewable by 2030, and 100% renewable by 2045.

Right now, we need YOUR VOICE to ensure all these benefits become a reality! Please sign below to tell the Santa Fe County Planning Commission to support the Rancho Viejo Solar Project!

Att: Dominic Sisneros, djsisneros@santafecountynm.gov

As a resident of Santa Fe County and a clean energy supporter, I strongly urge you to support the Rancho Viejo Solar project. Not only will this project provide needed power to our residents, but it will also get us closer to reaching our clean energy goals. Please support Rancho Viejo!
