I am disappointed to find that the AES hearing for the proposed lithium Ion BESS facility will be in chambers and not open to the public. As a concerned citizen, it is my right to witness this hearing in a live, transparent environment. Could it be that you're counting on a smaller turnout if they can only attend via Zoom? This is not in the best interest of the community—only the interests of AES.

Please reconsider your position and allow attendees to be there in person.

Thank you,
Adair Seldon
