

List of Solar Businesses

Santa Fe County’s “*Solarize Santa Fe!*” program promotes solar power via public outreach, education, and free assistance and advice to homeowners and commercial establishments. As part of the outreach efforts, Sustainability has compiled a list of companies providing solar thermal and photovoltaic installations in Santa Fe County. This list is not exhaustive—please contact us if your solar company would like to be added.

The County cannot recommend specific solar companies and urges consumers to engage in the customary research and due diligence to evaluate and select a contractor. Examples of due diligence include reading solar company reviews on www.solarreviews.com, and obtaining quotes from at least three different companies.

For more information, contact Adeline Murthy, Sustainability Specialist at (505) 992-9862 or amurthy@santafecountynm.gov, or visit www.santafecountynm.gov/public_works/sustainability.
