WHAT IS GOFORTH CARSHARING?

Forth, a nonprofit organization focused on clean transportation, has partnered with PNM, Land of Enchantment Clean Cities Coalition, and the Santa Fe County Housing Authority to bring carshare to Santa Fe. Our goal is to provide access to affordable all-electric cars for residents to test drive or use for errands, shopping or appointments.

WHAT IS CARSHARING?

Carsharing is a system where individuals have access to a network of vehicles for short-term rental. You can view where cars are located and make reservations in a few simple steps using the carsharing app. With GoForth CarShare, the first ride is free but there is a small hourly fee for each additional ride. Drivers must verify their license information prior to reserving a car.

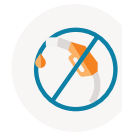

WHAT IS AN ELECTRIC CAR?

Electric cars drive much like traditional cars. The pedals, steering wheel and controls are the same, but they are fueled by electricity instead of gas. They charge through a plug, just like your phone.

This material is based upon work supported by the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy (EERE) under the Vehicle Technologies Office Award Number DE-EE0009864. The views expressed herein do not necessarily represent the views of the U.S. Department of Energy or the United States Government.

Why Drive Electric?

No more gas stations

You'll never have to stop for gas again.

Top-of-the-line technology

All the must-have technology for today's driver.

Higher performance

Electric cars offer the quickest acceleration and greatest torque possible.

A cheaper drive

It's like paying \$1 per gallon. Plus there are practically zero maintenance costs.

Turn down the radio

Electric cars are nearly silent at all speeds.

Benefit the economy & the environment

Electric cars produce 85% less carbon emissions, no smog.
