

Community Vision Statement

established in the 2001 Plan

“The vision for our community is one of a peaceful and rural nature, one that respects diversity and is governed through unity. We resolve to protect our natural environment and unique character by honoring our traditional culture and the area’s historical, agricultural, livestock and rural low-density residential development traditions. We wish to maintain our self-sufficiency and protect our community from urban sprawl. We wish to live in a community where people of all cultures and incomes share in decision making; a community in which any changes, improvements and decisions are dictated by realistic understanding of our available resources and by our vision of our relaxed and open quality of life.”
