

HAZARD MITIGATION PLAN UPDATE PUBLIC NOTICE

SANTA FE COUNTY

Santa Fe County is updating their Hazard Mitigation Plan. The Plan Update will address hazards that affect the area. The goal of the Plan Update is to minimize or eliminate the long-term risk to human life and property from known hazards through effective mitigation.

Santa Fe County will hold public meetings to gather public input for updating the Hazard Mitigation Plan. The purpose of the public meeting is to provide a project overview from H2O Partners, Inc., consultant to the project, and solicit information from citizens. Public input will help the project team to analyze potential hazards affecting residents and recommend possible actions to reduce their impact.
