

NETWORK INFORMATION

In Network Providers in New Mexico — PPONew Mexico

The State of New Mexico Dental Plan, administered by Delta Dental, features the PPONew Mexico Network, a preferred provider network with over 1,525 points of access in New Mexico. This network was designed to offer members savings based on provider discounts (maximum approved fees) while providing access to general dentists and specialists in every category. In addition, benefit levels are enhanced when a PPONew Mexico dentist is selected.

In-Network Providers in other states — Delta Dental PPOSM

When services are received outside New Mexico, the national provider network called Delta Dental PPO is considered in-network. Delta Dental PPO is a national preferred provider network with more than 168,000 locations nationwide.

Reduce your out-of-pocket costs by always selecting an in-network dentist. By selecting participating providers, you are only responsible for your co-payment and deductible, if applicable, at the time services are received. No balance billing applies and your dentist will file claims on your behalf.

Delta Dental has multiple provider networks and not every dentist participates in every network. When asking a dentist if he or she participates with Delta Dental, make sure to specify the PPONew Mexico provider network (or Delta Dental PPO if outside New Mexico). Provider directories and a dentist search tool are also available at DeltaDentalNM.com in the [Find a Dentist](#) link.

Out of Network Providers

Dentists who are not considered in-network have not agreed to the provider fee maximums applicable under the dental plan. Out-of-pocket costs can be much higher because patients may be billed for the difference up to the full amount charged by the dentist. Reduced benefit levels also apply to out of network services.

2013 Open Enrollment

You must re-enroll you and your eligible dependents in order to continue coverage in the dental plan.

Important dates to remember:

- ✓ April 1st — May 10th Open/Switch Enrollment
- ✓ July 1st, 2013 benefit elections take effect

Thank you for your enrollment!

Oral Health Tip

Nearly 31,000 Americans are diagnosed with oral cancer each year, yet it is one of the more treatable forms of cancer when detected early. Early detection is important because oral cancer is responsible for over 9,000 deaths in the US and the five year survival rate has remained at 57% over the last 40 years; however, if caught early, the survival rate jumps to 81%. So what can you do?

Visit your dentist today!

Preventive care exams are covered at 100% as part of your dental benefits. Adding an oral cancer screening takes just a minute and is of no cost to you or your family.

Getting answers to your benefit and claims questions is now more convenient than ever.

Delta Dental's automated voice response system is available 24/7.

- Benefit/eligibility verification
- Get an ID card by fax
- Provider Directories (fax, voice or email)
- Check claim / pre-treatment estimate status
