GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
1	Galisteo	Buena Vista LLC		Ag/Ranch	Rural and Rural Residential	See letter from Jim Siebert. The current draft zoning map designates this property as Arg/ranch. The current SLDC allows for lot sizes of 40 acre tracts with water conservation restrictions. The partners of Buena Vista would like to have the parcel zoned Rural for reasons stated in the letter. The UPC number for this property is 1-040-087-051-135	
2	El Centro	Ten Thousand Waves		Commercial Neighborhood		See Letter from Jim Siebert requesting a review of the zoning for this property. Previous zoning granted for this property by EZA and City of Santa Fe. Development agreement is also included in the letter.	
3	El Centro	Sunrise Springs		Commercial Neighborhood		See Letter from Jim Siebert suggesting an amendment to the SLDC which includes a provision which recognizes previously approved development plans.	
4	Galisteo	US 285 Corridor		Mixed Use		Please ensure that the 2005 US Highway 285 South Corridor Plan and Ordinance be used as an overlay to the County Zoning map. This will assure that the hard work of those who passed this Ordinance and the look of our neighborhood will be protected. After all, it is already allowed in the new code as noted above.	
5	Galisteo	US 285 Corridor		Mixed Use		Dear Commissioner Holian, The 285 South Ordinance was adopted in 2005 after a lot of hard work by the homeowners along this corridor. Please ensure that the protection the 285 South Ordinance affords this area are included in the new County Zoning Map, either directly or as an overlay. By the terms of this 2005 285 South Ordinance, if it is not included the new County Zoning Map will be neither accurate nor complete. Thank you for your help with and attention to this matter. Mark Hannan Homeowner, constituent and Treasurer of Rancho de Bosque Owners Association

6	Galisteo	US 285 Corridor		Mixed Use	<p>Santa Fe County Commissioners, As a new ECIA Board Director as of May 5, I would like to associate myself with the below copied opinion from Los Caballos. It's easier than writing my own opinion. Obviously I cannot speak for the entire ECIA Board. Since time is short, I felt I needed to send this email now. When I get on the Board, I will try to get an official opinion from the entire Board anyway, but until then, knowing the Board members as I do, and knowing how they generally support the 285 Corridor Plan, I am sure they would be in favor of the below statement. I'm sorry I cannot forward an actual ECIA passed-resolution. Being a Community Planning fan, I will try to help with that problem in the future... (Greg Colello, Eldorado Community Improvement Association, Director Elect)</p> <p>The Los Caballos Home Owners Association Board met on April 30 and unanimously agreed that the adoption of the 2005 HWY 285 South Ordinance and its immediate inclusion in the new County Zoning Map would be in the best interest of the 285 corridor community. At the very least the 2005 ordinance should be used as a 285 south overlay since the 2005 Ordinance is currently in effect. Non-inclusion of the 2005 Ordinance would render the new County Zoning Map both inaccurate and incomplete.</p>	
7	Galisteo	US 285 Corridor		Mixed Use	<p>Dear Commissioner Holian, The 285 South Ordinance was adopted in 2005 after a lot of hard work by homeowners along this corridor. Please ensure that the protections it affords this area are included in the new County Zoning Map, either directly or as an overlay. By the terms of the 2005 Ordinance, if it is not included the new County Zoning Map will be neither accurate nor complete. Best, Cathy Lewis East Ranch</p>	
8	Galisteo	Madrid ballpark		Mixed Use	<p>Public/Institutional</p> <p>Just wanted to follow-up to see if the Madrid ballpark property and connecting Parking lot property had been properly rezoned. As we reviewed during our planning meeting, the following lots should be listed as "Public Institutional." We want to make sure these changes make it into the new Zoning map so we do not have to go back and revisit this after the fact. Please let me know if this has been addressed. It will be much appreciated.</p> <p>Ballpark (MLA): 2897 Hwy 14 Ballpark (county): 2899 Hwy 14 Ballpark Parking: 2900 Hwy 14, 2903 Hwy 14, 2901 Hwy 14.</p>

13	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		<p>See Letter/e-mail/ attachment: RE: Opposition to Rezoning the Camino La Tierra/ 599 interchange</p> <p>Dear Director Ellis-Green:</p> <p>Three years ago my family and I bought a home in La Tierra Nueva. We were introduced to that community by long-time friends in Santa Fe, friend who specifically steered us clear of Las Companas because of building of the kind we were trying to escape on the East Coast. (We are still trying to sell our previous home in Florida, and are having problems because of how that community was “developed”).</p> <p>Now we hear that a company run by Lyle Anderson, the man most responsible for many serious problems that arose from the development of Las Companas, is trying to have 330 acres of land at the intersection of Camino la Tierra and State Road 599 rezoned for a mixed use. Our attorney tells us that such an action is incompatible with documents previously developed by the county, so we are quite surprised by this request.</p> <p>We bought in this area to avoid the congestion, the crime, the clutter, the compacting of homes, the bright lights and noise and all the other deleterious effects that would come along with Mixed Use zoning. It is incompatible with the lifestyle we chose. We also care about the effect this would have on the value of our property, property our children—who attend UNM—hope to inherit. Our lawyer also expresses concerns over water use. (He is considered a expert on NM water rights.) Should this plan take effect and that land be so “developed”, there would be a significant increase in water use. Well after well in the area could turn dry. The homes we who now live there purchased with certain clear expectations and need of that water's availability—in our case, we have horses and other livestock—would suffer.</p> <p>☐</p> <p>We urge you to ensure that this rezoning proposal does not take effect. One man, whose business ventures have already caused major problems in our community, must not be permitted to do so again.</p> <p>Sincerely yours, Lewie R Baxter, MD and Jane M. Gregoritch, MD</p>	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
14	El Centro	330 acres-599/ Camino la Tierra	Mixed Use		<p>See Letter/e-mail/ attachment: In regard to the rezoning issue "Santa Fe 330" - I think the land in question should either be Residential or Recreational; but not the proposed "Mixed use". I have lived overlooking this open space since 2002. I have worked very hard to maintain and to upgrade my house and land. This was a huge investment of labor, ideas, and money. Some people just "live in a house", but I felt an obligation to do my best to keep and improve the condition of my property. We replaced nearly everything in the 25 year old house. It is my American Dream house of retirement. I worked 35 years towards this; and now I feel that the ambience; the safety; and the view is threatened. My home is directly overlooking the property in question. I wanted to see wilderness and I thought that everyone entering Las Campanas would want the same ambient atmosphere to come home to. The proposed zoning of "mixed use" is ridiculous for several reasons: increased traffic; increased lighting; residential density; and a visual blight. The Camino La Tierra mailbox parking area is heavily used by bicycle and walking enthusiasts. I monitor the number of cars which are there constantly. Camino La Tierra lies adjacent to the "La Tierra Trails." These new City of Santa Fe trails are extremely popular for young runners and bicyclists. La Tierra mailbox area provides additional needed parking. It is particularly well-suited to people who enjoy the less challenging trails - - many appear between age 50 and 100. So this adjacent land is not "empty" - it provides a marvelous "visible healthy identity" to Santa Fe. Such attractions interest visitors and healthy residents of all ages. The last thing we need there is commercial development; gas and convenience stores. Especially we do not want to attract liquor access for those who would frequent these trails at night and/or cause crime to come to this peaceful and beautiful area. The traffic on the 599 bypass is moderately heavy already. We do not have enough overpasses to make crossing 599 safe from car accidents. This is the road built with funds procured for safe transfer of nuclear waste from Los Alamos and is not meant for expansion. A nuclear waste car / truck incident on 599 would be catastrophic. Overpass bridges are extremely expensive. Already there are unsafe traffic crossings. More will be needed. I do hope that you will work to bring to light all of the benefits this open land gives to hundreds of people year round, and keep making Santa Fe attractive. It needs to remain low density. Please help us to plan it. Respectfully submitted; Catherine DiCenzo Sherman marysberman@me.com</p>

21	El Centro	330 acres-599/ Camino la Tierra	Mixed Use		<p>See Letter/e-mail/ attachment: Several years ago my wife and I bought a home in La Tierra Nueva. We specifically steered clear of Las Campanas because of what we felt was a congestion of homes, albeit high priced ones. Imagine our shock when we learned that a company run by Lyle Anderson, the man most responsible for the monstrous problems that arose from the development of Las Companas, is trying to have 330 acres of land at the intersection of Camino la Tierra and State Road 599 rezoned as a mixed use district - a MUD. I'm not yet fully familiar with the legality of such a change, although our attorney tells us that such an action is incompatible with documents previously developed by the county, so my sense is it's legality is in serious question. For those neighbors who have already deeply invested in personal homes and property, the effect would be disastrous. We bought in this area to avoid the congestion, the crime, the clutter, the compacting of homes, the bright lights and noise and all the other deleterious effects that would come along with MUD. None of us bought here to be next to condos or collections of houses on small single lots. It is incompatible with the lifestyle we chose. Lyle Anderson doesn't live in our area; he could hardly care less. But we do; we care about preserving our life styles and we care about the devastation that would follow to the values of our properties. Then, of course there's water. Do we suppose water is going to become less scarce in coming years? Or that the Anderson 330 company will take it upon themselves to "make" some? Should this plan you're considering be passed, there would be a significant increase in population density and hence, an enormous amount of additional water use. Well after well would become dried out and the homes we, who already live there, who purchased with certain clear expectations, would lose a fortune in property value. I urge you in the strongest terms to do everything possible to make sure this rezoning proposal is halted in it's tracks. One man, whose ventures have already caused monumental problems for our area must not be permitted to harm us again.</p>

24	EL Centro	Santa Fe Horsepark		Mixed Use	Planned Development District	See Letter from Jim Siebert indicating that the horse park property has existing entitlements which would be limited by the Mixed Use Zoning which only allows 12 horses on the property whereas the current zoning approval allows for 350 horses.	
25	El Centro	330 acres-599/ Camino la Tierra		Mixed Use	Residential Estate	Letter opposing 599 and Camino La Tierra Mixed Use	
26	El Centro	330 acres-599/ Camino la Tierra		Mixed Use	Residential Estate	Letter in opposition of 599 and Camino La Tierra Mixed Use	
27	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Dear Ms. Ellis-Green: We have received the county's proposed re-zoning plan, and must express a serious concern to you as county homeowners. The corridor along Camino La Tierra proximate to 599 is an exceptionally lovely and pristine one, a pleasure for those who live there, and bike and drive the roads. We noticed in your proposed zoning plan that this area would be rezoned as "mixed use." This would clearly allow for commercial development of the area. We encourage the county to rethink this especially as there appears to be no Master Plan in place. Mixed use would not be compatible with the current residents, their homes and land use in the area, and not a good vision for the future of our county. We ask that you change the zoning to one that better suits the needs of these particular local neighborhoods. With all best wishes. Joan Zegree and Spider Kedelsky, 273 Headquarters Trail, Santa Fe, 87506	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
28	El Centro	330 acres-599/ Camino la Tierra	Mixed Use		<p>Dear Ms. Ellis-Green: I am writing to voice concern about the proposed zonal change that will grievously affect Tierra De Oro residents. We purposely bought our residence in the county of Santa Fe because of the rural atmosphere. We have no light pollution nor do we have congested traffic. With this proposed change, our peaceful living will be negatively impacted. Our property values will be negatively impacted also. Mr. Lyle Anderson, who wants this change, does not appear to be interested in the negative impact of our community but is primarily interested in his economic gain, disregarding the potentially negative impact on property values. He lives in Scottsdale, Arizona, and my perception is that he would not be caring about the negative impact regarding neither property values nor the sense of peace and tranquility in rural Santa Fe.</p> <p>Sincerely yours, Mrs. Judith Lehman</p>	
29	El Centro	CCD	Planned Development District		<p>Concerning the SLDC designations for the Community College District: It would be an incalculable loss to the life of Santa Fe County to cover this area with residential development. The area near the Community College is already dense enough with planned and present subdivisions. To continue that endlessly to the east and south would destroy one of the last great natural landscapes. It is a refuge between El Dorado and Ranch Viejo, for a huge range of wildlife. It should be used for open space, conservation areas, trails, etc. To consider it as a great pie to be sliced up for more houses would be a profound error. Thank you.</p>

30	EL Norte	Bishops Lodge	Planned Development District	Planned Development District	<p>Thank you for your time meeting with me to discuss the proposed Sustainable Land Use Code for Santa Fe County. Congratulations on an extensive, thorough and well-conceived piece of work. As you know, I represent the owners of The Bishop's Lodge Ranch Resort and Spa. I would ask that you and the Board of County Commissioners consider the following comments regarding the zoning designation proposed for the Bishop's Lodge property: The proposed Planned Development District is an appropriate zoning designation for the property, provided it is based upon and inclusive of the current Santa Fe County land use approvals for the Master Plan (aka Master Development Plan) and Final Development Plans for The Bishop's Lodge Resort, Areas B and G as identified in the Master Plan, as amended. The plan for future development in Area B includes new equestrian facilities with related paddocks, corrals, clubhouse with lounge, snack bar, tackroom, bathroom and storage; pool and outdoor barbeque area; road access, parking, trails, utility infrastructure, landscaping, signage, lighting and other accessory improvements. The Area B plans were approved as part of the Final Development Plan for The Hills and Villas at Bishop's Lodge, which Vicki will recall, at the request of the County staff, included relocating the condominiums previously approved for Area B, and replacing the condominium use with a new equestrian center. The plan for future development in Area G includes 33 guest units and related storage, access roads, parking, utility infrastructure, walkways, landscaping, lighting, signage and other accessory improvements. These plans were approved in the Final Development Plan for Phase VII of the Master Development Plan for the resort. We discussed the County's consideration of including the dedicated Open Space area east of The Hills and Villas at Bishop's Lodge in the Planned Development District. Please let us know if you or the County Commission as any interest in this idea. Thanks for the opportunity to comment on the new Land Use Code proposal. I look forward to the discussion of the Code between you and the Board of County Commissioners on May 28, 2014. Please give me a call if you wish to discuss these matters further before or after the meeting. Best regards, Steve</p>	Link

31	El Centro	CCD	Planned Development District		1. If property is grandfathered previously (did not go to a public zoning process) what would be the process in the CCD? E.g. If Amigo Petroleum wanted to go back into his property that now has SF Steel-- what would the process be? 2. If a property in the CCD wanted to be developed and if it currently is zoned employment center and the proposed use if permitted under the employment center of the CCDO and under Planned Development in the new code-- what is the process? Can we just move forward with a development permit?	
32	El Centro	Vegas Verdas LLC	Planned Development District	Commercial General	See letter from Jenkins Gavin which identifies the property received master plan zoning.

34	El Norte	43931380	Residential Community	Commercial Neighborhood	See Letter/e-mail/ attachment: assigned zoning not consistent with historic use, adjacent properties or community plan	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
35	Estancia		Residential Estate	Ag/Ranch	<p>Commissioner Anaya: My name is Josephine Bassett, my late husband Carl and I have ranch property located in Santa Fe County which is now being proposed for zoning as part of the County's changes to it's land use code. The property in question is made up of several different pieces which each contain their own separate Property ID numbers. There are five (5) different Property ID numbers which are as follows: 910001041, 910001033, 910001029, 910001026, and 910001038. These five parcels of property amount to 405 acres of a larger 960 acre ranch that we own. The property has been used for grazing livestock since statehood in 1912. Under the County's proposed new Zone Map these parcels of property are being classified as "Residential Estate" (1 dwelling per 2.5 acres). As the comment period for the new zoning map is now underway, I would like for the County to change the zoning for all five (5) of these parcels to "Ag/Ranch" (1 dwelling per 160 acres). This property is open pasture land that we graze cattle on and we have no intention of developing it anytime soon. I have went online and submitted the information necessary to request a change in zoning for these properties at the County website. I was also advised to send this letter to my Commissioner and request the necessary change from him as well so that a proper paper trail would be established in the matter. I also intend to have my son John attend the Commission meeting on Wednesday May 28, 2014 in order to speak to our request in person. If there is anything else we need to do to insure that our request is granted please feel free to contact us by return e-mail at this e-address or by phone at the number listed below with my contact information. Thank you for your time and attention to this matter.</p>	
36	El Centro	Las Lagunitas	Residential Estate	Commercial Neighborhood	<p>Bob, As an owner of Lots 8 & 10 in the sixth tract of Las Lagunitas development, I feel that the commercial designation for Lot 106 is very necessary to provide local community commercial needs for Las Lagunitas property owners, as well as the local La Cienega community. This is an ideal spot for a mini-commercial center which could include, among other things, food, mail, fuel, and pharmaceutical uses. If you need further testimony at any public hearings regarding your zoning, I would be pleased to testify.</p>

39	EL Norte	Jacona Land Grant	Residential Fringe	Public/Institutional	+/- 20 acres. County seeks to lease 20-25 acres from Jacona Land grant for Public/Institutional use: transfer station, fire station, open space.	
40	Galisteo	Mt. Chalchihuitl open space	Rural	Ag/Ranch	Ross Lockridge, on behalf of the Cerrillos Hills Park Coalition, brought it to my attention that the two properties that are the subject of the Mt. Chalchihuitl open space acquisition the County is actively working to complete are shown on the SLDC Draft Zoning Map as zoned Rural (1 dwelling per 40 acres). The current zoning is Homestead Hydrologic Zone, minimum lot size 160 acres. Any further subdivision requires compliance with the subdivision regulations including an on-site hydrologic report proving long term water availability. The two properties are the Mt. Chalchihuitl parcel owned by the Glockhoff Trust and the Cerrillos Gravel Products parcel owned by Mr. Brad Aitken. I have attached plats of both parcels. The appraisals and offer packages for both parcels have been completed. I am preparing to submit them for legal review next week and to take them to BCC for approval in June. We anticipate closing this fall. The appraisals were completed based on the current zoning. The Sustainable Growth Management Plan depicts both properties within SDA-3, future land use category Agriculture and Ranching (1 dwelling per 160 acres). The change in zoning could potentially affect the valuation of the properties and our negotiations. Please review the proposed zoning and let me know as soon as possible if the Rural zoning is correct and will become effective when the zoning map is approved.

41	El Norte	Rancho Encantado		Rural Residential	Planned Development District	<p>Thank you for your time meeting with me to discuss the proposed Sustainable Land Use Code for Santa Fe County. Congratulations on an extensive, thorough and well-conceived piece of work. As you know, I represent the owners of The Four Seasons Rancho Encantado Resort. I would ask that you and the Board of County Commissioners consider the following comments regarding the Neighborhood Commercial zoning designation proposed for the resort property. The proposed Neighborhood Commercial zoning is not the appropriate designation for the property. As drafted, the Land Use Code calls for neighborhood scaled and oriented commercial uses, and does not allow a "resort" as a permitted use. I believe we agreed that a Planned Development District would be the appropriate designation, provided it is based upon and inclusive of the current Santa Fe County land use approvals for the Master Plan (aka Master Development Plan) and Final Development Plans for The Rancho Encantado Resort, as amended. The first Master Plan for the resort property was approved in 1991. Since then it has gone thru several County-approved alterations. The Master Development Plan and Final Development Plan were most recently amended to include the now constructed 65 room resort and associated facilities, and a complex of 7 condominium units. Accordingly, we request that the proposed Land Use Code be modified to establish the Four Seasons Rancho Encantado property as a Planned Development District based upon and inclusive of these most recent amendments to the resort Master Development Plan and its associated Final Development Plans. We also discussed changing the proposed Rural Residential zoning for the 5AC+/- lot and residence located at 256 SR 592 directly adjacent to the resort along its north property line to Rural Commercial Overlay, per Section 8.11.2 of the proposed Land Use Code. The resort owns this property, and is considering the feasibility of incorporating the existing adobe studio, residence, tack room and corrals into the resort as a venue for equestrian use and small gatherings. This would be located within the present buildings/corrals located on the property. A portion of the corrals already sits within the resort tract. The property currently abuts the resort and property owned by the resort on three sides, with SR 592 on the fourth side. We request that the Planning Staff and the Board of County Commissioners consider establishing Rural Commercial Overlay zoning for this property in the new Land Use Code. This would allow the resort the flexibility of resort and/or residential use of this adjacent property.</p>

42	Galisteo	Apache Springs	Rural Residential	Residential Estate	See Letter from San Cristobal Development regarding existing master plan approval.	
43	County-wide				I am suggesting that all of the County's open space properties/sites (as delineated in Official Map 5) should be placed in O-ERP overlays and am happy to provide a list if need be. I have looked at the provisions in 8.11.4, and I think that these provisions would be beneficial and are aligned well with the County's open space policies. Not only would the O-ERP provide protection for the County's open space sites, but it would send the right message to our communities that the County is truly committed to the conservation of these properties.	
44	County-wide				Mr. Griego, Thank you for the information. If I may ask a further question, I am unclear on the meaning of "initial zoning map." In the following,  14.9.9.9. Nonconforming (Legal) Lots of Record. Any lot that does not conform to a dimension established in Chapter 8 for the relevant zoning district but that is shown on the initial zoning map as being within that zone, shall not be deemed nonconforming. Does the word initial apply to the current zoning map being considered, so that a lot is officially not nonconforming if it exists now, prior to the implementation of the new zoning map? But the next sentence seems to say the owner must submit evidence that the lot existed in 1981, so I am confused as to what is required. Then again, the following sections appear to say that vacant lots that are considered nonconforming can still be used to build a single family dwelling but cannot be further subdivided. If you are comfortable clarifying this for me, I would be grateful. Thank you again, Roger Enfield

48	EL Centro				<p>Dear Penny Ellis-Green, For various reasons, including the death of my wife, I was unable to stay current regarding the status of the ranch for several years. Since I've returned to being active as a citizen of Santa Fe County, I am frankly appalled by decisions being made by the County, not only about the ranch, but the entire La Bajada Mesa. I have lived off grid in western Santa Fe County for over thirty two years. The view from my kitchen window is of the escarpment and mesa. The County formed a steering committee to help determine the best use of the ranch. I've been able to attend several of their meetings. On one hand, it seems that several members of the committee want to develop the ranch to return as much money to the coffers of the county as possible. The money is not gone, it's invested. If it were to be developed, it would be the most secure/ protected/exclusive developments in the state! Only one way in/out, natural barriers on the other sides - I would bet that there wouldn't be any low income housing! I can't imagine the price of the lots enough to recover the \$7million price tag. I've neglected to mention water. The county wants to run a water main from La Cienega to the ranch - water to be provided by the Buckman Diversion. This borders on laughable. With our current history and projections of continued drought, the Buckman Diversion is sticking its straw into an almost empty glass. And when we do get rain, it is more likely than not to be the catastrophic type such as we received last September. At that point, there was plenty of water - it was just too silty to pump/use. We cannot continue to keep our heads in the sand regarding water issues and growth. Aquifers all over the world, are rapidly depleting. The Ogalala, once the source of many artesian wells, has no more. They are now being pumped from hundreds of feet down. How many thousands of years did it take to charge this aquifer? In our community, a fairly large off grid community, I've heard reports from innumerable people regarding the depletion of their aquifers, drilling wells deeper, and having some go completely dry. We cannot under any circumstances, approve development anywhere. We just don't have the water! To move it for miles to build a subdivision that WILL run out of water will certainly leave the county vulnerable to lawsuits when it dries up. As witnessed by the opposition to the strip mine, there are many of us opposed to these proposed uses for La Bajada Mesa, and we're growing stronger. Water is the motivating factor, followed closely by corporate greed. We all want to protect the environment! The best proposal I've seen for the Ranch and the rest of the Mesa is to have it declared a National Monument. The positive</p>

48					<p>outcomes for the county could be enormous. The Ranch would be a perfect visitor center. Lots of opportunities for "green education - for our schools, the Community Colleges outstanding "Green" curriculum, a perfect place for the YCC to build trails/practice permaculture - I could go on but I'm sure you get it. It is of the up most importance that the County Commission takes into account ALL of the input from the Steering Committee and from the public prior to making ANY zoning changes that could be harmful to La Bajada Mesa or any other part of the county facing unwanted zoning changes, especially ones that require water. Thank You, Philip F. Taccetta 183 Baja Waldo Road Santa Fe County 505.920.2240</p>	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
49	Galisteo	Hwy 14			<p>All through the planning and writing of the new code Steve Ross had promised us to include an overlay zone for the Turquoise Trail intended to help protect it from encroachment of negative impacts to its scenic qualities preserving it for the future. We would like to incorporate into SF county zoning an overlay preservation zone at least 5 miles on both side of the Turquoise Trail placing mineral extraction and other industrial activities well away from our national scenic byway and the communities along it. While heavy industrial traffic and through truck traffic would be routed away from this scenic byway. Please include our request in the upcoming zoning review meeting. Below I have quoted pertinent information for SGMP. Thank you for your attention to this urgent matter, Karen Yank@vicepresident@ttpt.org 505-281-0243/505-269-9959 ttpt.org KEYS TO ISSUES Protection and conservation of the County's natural resources is key in maintaining the integrity of the environment. The overall goals are to protect the archaeological , historic and cultural resources, species, habitat and biodiversity, scenic beauty and environmentally sensitive lands. Preserving and supporting the conservation of these resources will enhance the character and function of communities, neighborhoods and rural areas.</p> <p>The scenic quality of Santa Fe County as a whole is very vulnerable. The scenic quality of Santa Fe County are being threatened by uncontrolled development patterns. Lack of emphasis on gateways, rural highways, scenic routes and corridors. Gateways and corridors are extremely important to the first impression of a place. These negative impacts on the counties Scenic and National Scenic Byways should be prevented to ensure a strong tourist trade and economic vitality in this area of the county. Maintaining the integrity of view-sheds and scenic byways as a resource, is a priority with regard to tourism, the arts, and the movie industry. Heavy industrial traffic and through truck traffic should be routed away from scenic byways. KEYS TO SUSTAINABILITY Development should be sited and designed to limit the impact on viewsapes that define the County as a tourist destination, such as near designated National Scenic Byways. In addition to its scenic qualities, historic, cultural and archeological resources in Santa Fe County draw visitors to the area, making historic preservation a key element of the County's economy. Scenic vistas and the natural landscape as viewed from the highways should be protected. The County should require the preservation of distinctive natural features such as vistas, arroyos, significant rock outcrop</p>	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
49					<p>pings and large trees in the development review process. Site mineral extraction and related industrial activities well away from existing communities and scenic byways. VISUAL RESOURCES Santa Fe County is filled with a variety of visual resources, ranging from small, definable places to vast, almost limitless plains and vistas. Some of the County's most significant resources are the views from the National Turquoise Trail Scenic Byway (State Highway 14). This highway offers a wonderful view of the basin for motorists who travel to and from Santa Fe and Albuquerque and make stops at local communities and tourist attractions (see Map 5-1 for visual resources). The Santa Fe County Visual Resources Inventory and Analysis, October 1995 report presented the following findings: Scenic places valued by the public. Major landforms such as the Sangre de Cristo, Ortiz, South and San Pedro Mountains; less well-known scenic areas, such as Diablo Canyon, Lamy train station and village, and Devil's throne near Waldo. Scenic Vistas. Important scenic points, such as those from Galisteo toward Ortiz and San Pedro Mountains, From 1-25 coming north up La Bajada looking toward Santa Fe and the Sangre de Cristo Mountains, and the 360-degree views from Tetilla peak near La Bajada. Scenic roads and trails. Scenic roads and trails, such as the El Camino Real, Hyde Park, Turquoise Trail (Highway 14), segments of Highway 285, 41, and 1-25, and trails along Rio Medio and Rio Frijoles. Because of its open landscapes, vast panoramas, and pronounced topography, the scenic quality of Santa Fe County as a whole is very vulnerable. Maintaining the integrity of view sheds is a priority with regard to tourism and the movie industry. This means that if development is not carefully planned it could easily degrade the County's scenic beauty and economic vitality.</p>

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
54	Galisteo	Trenza	Mixed Use	Planned Development District & Rural	<p>Commonweal Conservancy is the nonprofit founder of the Galisteo Basin Preserve, a land conservation and community development initiative located in central Santa Fe County. The Preserve is planned to conserve and restore more than 13,000 acres of open space as well as promote thoughtful, stewardship-oriented community development. As a large landowner in the Galisteo Basin, Commonweal has been an engaged participant in the public meetings and forums that took place prior to the adoption of Santa Fe County’s Sustainable Growth Management Plan (SGMP) in 2010 and the Sustainable Land Development Code (SLDC) in 2013.</p> <p>Commonweal’s concern about the recently released Adoption Draft of the Zoning Map is that it changes the land use and zoning designations that have been assigned to the Galisteo Basin Preserve over the past four years. When the SGMP was approved in 2010, it included a Future Land Use Map (page 48), which designated the lands associated with the Galisteo Basin Preserve as being part of the “Rural Fringe” land use category. The SGMP describes Rural Fringe as allowing, “Residential development at low densities while protecting agricultural and environmental areas that are inappropriate for more intense development due to their sensitivity. Review factors [are] to be based on [a] balance between conservation, environmental protection and reasonable opportunity for development.”</p> <p>The Future Land Use Map also included a star designating a “Community Center” in the location of Trenza (aka the Village at the Galisteo Basin Preserve). Carefully sited in the northeast corner of the Preserve, Trenza is the Mixed Use , mixed-income community of 965 homes that received Master Plan approval from Santa Fe County in June of 2007 and Preliminary Plat approval for its first phase of development in February of 2010.</p> <p>On October 4, 2012, Santa Fe County released a Preliminary Draft Zoning Map, which showed the lands associated with the Galisteo Basin Preserve as being located within the “Rural” zoning designation of 1 dwelling unit per 40 acres. This Rural zoning designation for the Preserve’s open space lands was confirmed in October 2013 when the County released another Preliminary Draft Zoning Map. The October 2013 draft zoning map also included approximately 500 acres in the vicinity of Trenza as being part of a “Planned Development District”.</p> <p>Then on March 21, 2014, the County released an “Adoption Draft” of the Official Zoning Map. For the first time in four years, the Preserve’s open space lands were shown as being part of the “Agriculture/Ranch” zoning</p>	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
54					<p>designation, which only allows for 1 dwelling unit per 160 acres. This zoning change was made without any prior notification or explanation to Commonwealth by County Land Use staff.</p> <p>Santa Fe County's down zoning of approximately 10,000 acres will have a devastating effect on the value of the property that local banks are using as collateral for the land loans they are holding in the Preserve. In addition, by down-zoning the property, Santa Fe County will also be taking away a key incentive for Commonwealth and private landowners to overlay their large parcels with conservation easements, thereby undermining the organization's vision of creating approximately 10,000 acres of permanently-protected wildlife habitat, cultural resources and scenic vistas in this keystone property in the heart of the Galisteo Basin.</p> <p>Commonwealth therefore requests that the Final Zoning Map that will be adopted by the Santa Fe Board of County Commissioners restores the zoning designations for the Galisteo Basin Preserve as shown on the Preliminary Draft Zoning Map, dated October 2013, which includes Rural zoning of 1 dwelling unit per 40 acres for the majority of the Preserve's open space lands and a Planned Development District zoning designation of approximately 500 acres for Trenza.</p>

55	El Centro	330 acres-599/ Camino la Tierra			<p data-bbox="1020 180 1919 238">See Letter/e-mail/ attachment: Re: Proposed Zoning for 330 Acres formerly known as "Santa Fe Center"</p> <p data-bbox="1020 289 1919 493">We are writing to you to express our distress with the proposed zoning designation of "Santa Fe 330" to a "Mixed Use District." Our home is on the ridge directly above this property, and in fact abuts it. The proposed development of this land into a commercial/residential property with street and parking lot lighting, would forever change the nature of our property and the surrounding neighborhood.</p> <p data-bbox="1020 544 1919 846">Prior to purchasing our home in 2005, we had been frequent visitors to Santa Fe. We fell in love with the city, cuisine, and the people, but most of all we fell in love with the night skies, the quiet, and the outdoors. In fact, we planned several of our trips around the perennial meteor showers. So, when we decided to acquire a property, we looked for an area that was close enough to the culture of Santa Fe -- the Plaza, the museums, the restaurants -- but also one which was far enough from development for us to be able to enjoy the great outdoors that make northern New Mexico so special.</p> <p data-bbox="1020 896 1919 1240">We settled on Tierra de Oro for its uninterrupted views and open space. We made several inquiries before we purchased our place as to the status of the land between our home and the 599 by-pass because we understood how important this undeveloped land was to the neighborhood generally and to the house we were looking at specifically. We were told that in 2002, a 599 Corridor Plan had been passed into law that would keep the area residential and avoid the commercial development that threatened to turn the 599 into another Cerrillos Road. No matter what, this kind of development will lead to greater traffic congestion, pollution, residential density, visual blight, and increased noise and light pollution.</p> <p data-bbox="1020 1258 1919 1495">Admittedly, this impacts us directly, but, having lived in our house for ten years now, we see that it is the Santa Fe community at large which also gets value out of this undeveloped tract. Hikers, joggers, and bikers enjoy unfettered access to the arroyo which cuts below Tierra de Oro and leads up into the Tierra Trails area. As a society, we don't put enough of a premium on open and undeveloped spaces, but in places like Santa Fe and northern New Mexico, we must. It seems like now there is a unique opportunity for Santa</p>

		County-wide				<p>From: Ryan Toups [mailto:findingrien@yahoo.com] Sent: Monday, May 12, 2014 2:43 PM To: Penny Ellis-Green Subject: Re: Drip, Drip, Drip...</p> <p>Penny-</p> <p>I have today learned of this new National Climate Assessment report... It is a comprehensive scientific study weighing the choices to mitigate vs. adapt to the changing climate. It thoroughly breaks down into regions as well. Here is the link to the Responses section. http://nca2014.globalchange.gov/highlights/report-findings/responses</p> <p>Please share with County Staff, especially with the County Commissioners re. their responsibility to make planning decisions based on our current scientific awareness for a sustainable future here.</p> <p>Thank you! Sincerely- Ryan Toups</p> <p>_/_</p> <p>On May 8, 2014, at 3:36 PM, Ryan Toups <findingrien@yahoo.com<mailto:findingrien@yahoo.com>> wrote: Penny-</p> <p>I am writing to voice my objection to the County's proposed zoning map. It appears that County Staff is choosing to disregard the work of the La Cienega - La Cieneguilla Planning Committee, whom met twice monthly over a period of years, working closely with community members to propose a zoning map that best represented the concerns and interests of everyone who lives in the community.</p> <p>County staff has had the results of that committee effort for over a year. Despite this community-based input, staff apparently proposed its own version of a zoning map that takes none of the community-based committee's recommendations into account.</p>	

57

On top of that is anyone in county staff paying attention to reports and articles at this critical juncture of bleak water forecasts?...

Sharing in case you missed these:

<http://www.sfreporter.com/santafe/article-8613-new-report-says-climate-change-will-hurt-sw.html>

<http://www.sfreporter.com/santafe/article-8494-times-out-for-the-rio.html>

& a poignant opinion (also in The Reporter)

Drip, Drip, Drip

Yes, clocks are dripping, and time is running out for the negligence shown our sacred rivers. As a community, we have failed to show the proper amount of outrage toward the development of Santa Fe and the political powers that seem eager to rubber-stamp this rampant growth with little or no acknowledgment of a water crisis. Laura Paskus' wonderful exposé should be required reading for Santa Fe city and county officials. Whether future generations will enjoy the river is in their hands.

I live in Rancho Viejo, where we have been at odds with the developer and county politics that would seem to be in collusion in declaring open season for runaway residential and commercial development. All of this with no clue as to the sustainability with regard to water issues. Given what Paskus has stated, there should be a moratorium on further development until there is a comprehensive water plan for our future. Instead, the powers that be are building while Rome burns (translate: while the Rio dries up).

-G Russell (Santa Fe)

Perhaps you can share these with the County Commissioners?... Perhaps moratoriums on development need to seriously enter the conversation?...

Sincerely-
Ryan Toups

65	Galisteo	960002095	Ag/Ranch	Rural	<p>On prior zoning map these lots were zoned as Rural on current zoning map they are zoned Ag./Ranch.</p> <p>I own this lot of record (80 acres). My family has owned this land since before NM statehood. Under the present zoning I intended to by family transfer five a 40 acre parcel to 2 of or prior zoning map the area was proposed as rural which would have allowed me to do so. The proposed Ag/Ranch would not all a 40 acre tract under any circumstance. I would be the only such sized lot of record in the general area limited to 160 acre family transfer. The majority of lots of record in the area are smaller than 40 acres. I request the final map be reverted to the prior Rural designation to allow me to provide 40 acres lots to my children.</p>	
66	Galisteo	236009853	Ag/Ranch	Rural Residential	<p>It appears as though the zoning would eliminate any possibility of use of the land for an off-the grid home, is that right? We bought this land with the dream of retiring here and building an ecologically sustainable home. There is a structure on the adjoining property.</p>	
67	Galisteo	104596802	Ag/Ranch	Rural	<p>We are requesting this change as our adjoining neighbor has subdivided his same-sized parcel in order to grant ownership to each of his children. We would like to do the same. Thank you for your consideration.</p>	
68	Galisteo	910018260	Ag/Ranch	Rural	<p>not enough water for ag - This property is 140 acres; I was told when I received my well permit that I could maintain a residence, but was not allocated enough water rights to practice agriculture. The SFCo zoning and the State Engineer need to reconcile this.</p>	
69	Galisteo	910019161	Ag/Ranch	Ag/Ranch	<p>I commend the County staff for following the draft zoning of the Land Development Plan, as Glorieta mesa's cultural values and environment need to be preserved. Various correspondence is already on file with the County.</p>	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
70	Galisteo	760002603	Ag/Ranch	Rural	I own, and have been paying taxes for a long time, on three properties within the proposed Ag/Ranch zoning classification. The assessments for all three parcels have been based on the their value as being developable for residential purposes. All three properties, (760002603, 940001932, 940001933), are smaller than 160 acres. My concern is that, if the 160 acre minimum lot size is adopted, these parcels will become essentially without value. This morning I attended the information meeting in Eldorado to discuss the status of these properties. Timothy Cannon, a senior planner, told me that it seemed likely that these smaller lots within the Ag/Ranch area would be "grandfathered" and would continue to be developable as residential lots. I am therefore asking the County Commissioners to ensure that, when the zoning map is adopted, smaller inholdings like mine will be "grandfathered" as described above. Should this not be the case, I hope that the County Commission will notify the owners of affected small inholdings to give us an opportunity to discuss what further steps we might be able to take.

92	El Centro	Polo Grounds	68100876	Mixed Use	Planned Development District	Property has received master plan preliminary and final development plan approval and want to keep prior entitlements on property which included the ability to keep 350 horses on the property	
93	EL Centro	330 acres-599/ Camino la Tierra	58000643	Mixed Use		Dear Ms. Ellis-Green: We have received the county's proposed re-zoning plan, and must express a serious concern to you as county homeowners. The corridor along Camino La Tierra proximate to 599 is an exceptionally lovely and pristine one, a pleasure for those who live there, and bike and drive the roads. We noticed in your proposed zoning plan that this area would be rezoned as "mixed use." This would clearly allow for commercial development of the area. We encourage the county to rethink this especially as there appears to be no Master Plan in place. Mixed use would not be compatible with the current residents, their homes and land use in the area, and not a good vision for the future of our county. We ask that you change the zoning to one that better suits the needs of these particular local neighborhoods. With all best wishes. Joan Zegree and Spider Kedelsky, 273 Headquarters Trail, Santa Fe, 87506

94	EL Centro	330 acres-599/ Camino la Tierra	990003348	Mixed Use	Residential Estate	<p>My name is Steve Inman and I am a full time resident at 68 E. Wildflower Drive in the community of Tierra de Oro immediately adjacent and to the northwest of the 330 acres (parcel #990003348 and parcel #990003350)that is under consideration for rezoning from residential estates to mixed use. Mixed use, as I understand it, permits among other things, high density residential (apartments, condos), commercial, and retail. My wife and I are both retired and moved to Santa Fe approximately 3 years ago. One of the major attractions to us was the quality of life found in Santa Fe. We moved from a large metropolitan city with all the congestion, traffic, noise, and population density associated with larger cities. What specifically attracted us to Tierra de Oro was the rural setting with low density (2.5 acres per dwelling), the open spaces, the walking trails, the absence of street lights (we can actually see stars at night!), and the abundant wild life. Before we purchased our house we asked our realtor to find out what the property to the south was zoned (i.e., the 330 acres now under consideration). We were told Residential Estates which permitted only the lower density of 2.5 acres per dwelling. We relied upon that existing zoning when we made our purchase decision.</p> <p>It is my understanding that in the late 1990's the owner of the 330 acres submitted an amended master plan for Mixed Use zoning that included a resort hotel, a spa, a wellness center a corporate center. Strong neighborhood resistance was met and his attempt was defeated. The County also informed the owner that any prior master plan that he submitted in the late 1980's had expired. Why this is puzzling is that when I met with Ms. Penny Ellis-Green at the Nancy Rodriguez Center, I went away with the distinct impression that she based the proposed Mixed Use zoning now appearing on the map on an "approved master plan" that had been done in the past. She did not have a copy of this master plan available as the county was still looking for the file (???). The proposed Mixed Use high density zoning is certainly not compatible with the rural and scenic neighborhood. Given the scarce water resources, why would the county trade low density residential with high density residential and commercial development? In summary, the proposed zoning to Mixed Use will decrease both the neighborhood's quality of life AND property values as a result of (a) increased traffic, (b) increased density, (c) increased security risk, (d) increased trash generated by the commercial and multifamily development,(e) diminished scenic views, and (f) destroy the rural nature of our neighborhood and wild</p>

106	Estancia	94433725	Residential Estate	Rural Residential	Please keep existing character of neighborhood. "Cedar Grove" is a very small cluster of homes on the 1st bend of 344. Please do not change our zoning just to match theirs. Theirs is grandfathered in from the 60's. For 20 years this neighborhood stayed the same acreage (10 acre lots). Peaceful, scenic. Ideal for me as landscape artist. Dark at night-- for stargazing (lunar eclipse last night). Smaller parcels are closer to Edgewood (town of). We are about 8 miles north of Rt 66/ I40 on 344. Words from our appraisal: "the lack of major services is offset by the desirable characteristics of a semi-rural atmosphere and the appeal of superior environmental qualities." Our next door neighbor--who was moving away years ago-- who my sons did yard work for and we were friends, tried to divide her property to get more money from the sale showing that she did not care what happened to the neighborhood after she left. (Thankfully zoning did not permit her). (When we moved from our previous 65 acres we did NOT sell it to the developer for the higher price as it would have changed the neighborhood. WE sold it to our neighbor who would keep it the same. Our adjacent 10 +/- acre parcels are very narrow, only 330 feet wide and dividing one for different owners would be very impactful (please see attachment).If you are trying to create clusters of homes such as at the "corner of Cedar Grove" PLEASE DON'T. That's where my kids either got in trouble or were badly influenced.

110	Galisteo	238800196	Residential Estate	Residential Community	The one parcel of property I own at this address was divided in the early seventies and it is a 1 acre family portion. The area is already portioned as residential community and only needs the formal classification so that the residents can have a clear title to their residences and not have three or four households on one title. However, I would not like to see parcels that are now unoccupied and of larger than 10 acres subdivided and built with one dwelling or multiple family units on one acre (commercial subdivision).	
111	Galisteo	235253585	Residential Estate	Residential Community	I would like to request a zoning reclassification because I would like to leave my property to my children, evenly divided before I die. This property was homesteaded in 1987 and has been passed down to the children since then. We humbly ask (plead) that you consider this request. It will be most deeply appreciated. Thank you so much!

128	Estancia	960002782	Residential Estate	Rural	<p>We are landowners in Santa Fe County. Our property which consists of 40.33 acres is proposed to be zoned for "Residential Estate (1 dwelling per 2.5 acres)". The property that surrounds us is also proposed to be zoned the same. I strongly object to this zoning for the following reasons:</p> <ul style="list-style-type: none"> 1. Our property along with most of the surrounding lands is currently zoned agricultural. 2. There is currently not enough water in the area to support the residences already built here. Several of our neighbors are hauling water because their wells have dried up. We, in fact, are on our second well in less than 9 years as our first well went dry two years after we drilled it. By proposing to allow one house per 2.5 acres there is a possibility of more residences being built in the area than the aquifer can support. 3. We bought 40+ acres to live and raise our children in a pollution free, traffic free area. By re-zoning the area, we would no longer have that environment. 4. Edgewood does not have enough schools to support the population that this re-zoning would create. We don't even have a high school and our children are currently bussed to Moriarty. Moriarty High School would not be able to handle the influx of students from Santa Fe County. The quality of education would be sacrificed. <p>Obviously no one from the County Commissioners has even made a trip to our area so see for themselves what is here and what type of impact this would have on your taxpayers. I was told by your representative, Robert Griego, that this action would have no impact on our agricultural status or would not raise our property taxes. I wonder then why is Santa Fe County going to the expense to re-zone the area. The whole area would have to be surveyed at an enormous expense. Where is the money coming from to do this? I find it hard to believe that the county isn't proposing these changes just to raise more money in the form of property taxes. If not, then what is the benefit of this idiotic proposal? We have lived in our current residence and paid property taxes for over 8 years now yet Santa Fe County can't even seem to give us an assigned address. Why don't you get your house in order before you take on new projects? We don't want to live in the city of Santa Fe and that is why we moved to the location that we love. Please leave us alone and quit wasting our taxpayers money.</p>

136	El Centro	330 acres-599/ Camino la Tierra	58309617	Mixed Use	Residential Estate	We are concerned about the Mixed Use zoning for Santa Fe 330 Investments, LLC property at the intersection of 599 and Camino La Tierra. This designation is inconsistent with the Sustainable Growth Management Plan since mixed use will directly impact surrounding rural single family property values and enjoyment. Mixed use will require street lighting, affecting the present dark skies and will allow commercial and high density housing development. Mixed use will also increase traffic along the designated WIPP route, defeating the purpose of 599. The Santa Fe 330 Investments property is presently receiving heavy use as access to the city's La Tierra Trails district. One possible option for the county would be purchase of the property for inclusion in the County Open Lands and Trails Program. In conclusion, we request that the county zone the property Residential Estate or purchase the property for the enjoyment of all County residents.

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
164	Galisteo	950000281	Rural Residential	Residential Fringe	i wish to object to the proposed zoning of my property to RUR-R (one dwelling per 10 acres), and would propose that my property be zoned RES-F (one dwelling per 5 acres). several nearby lots are already between 5 and 10 acres, and the covenants that came with our property allow division down to 5 acres. The proposed zoning would deprive me of the right to sub-divide in the future if I chose to do so. Additionally, with several nearby properties already less than 10 acres, this would create non-conforming lots, making selling and financing in the future harder, as lenders may not loan on a property that does not comply with current zoning. Similar concerns would be raised with property insurance, as you may not be allowed to rebuild from a total loss on a non-conforming lot.	
165	Estancia	94403456	Rural Residential		Our small piece of property is about one quarter acre as are the other lots around us. How do you justify zoning this area rural residential with only one dwelling per 10 acres. Which property of the 40 will be allowed to have a house? How are RV trailers classified?

171	El Centro	58207500	Traditional Community	Mixed Use	Not sure about the one-size-fits-all TC zoning designation under the proposed SLDC zoning map. The other general classifications seem reasonable where individually property owners may request change from one zoning to another now or in the future depending on future development. But within a THC, each THC's prior zoning ordinance should be incorporated as the county's zoning for that THC. This could potentially be done as a zoning overlay.	
172	El Norte	38801585	Traditional Community	Residential Estate	Existing development on adjacent properties is 1 dwelling per 2.5 acres per covenants. County of Santa Fe should not rezone to 1 dwelling per 0.75 acres.	
173	Estancia	94407930	Traditional Community	Mixed Use	We have already obtained a business license for a small family farm. Growing and selling plants and produce is what we are licensed for. Please advice as to which zoning we will need to apply for. Thank you

214	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: we pay a lot of taxes to enjoy quiet lovely neighborhood 
215	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: impact nature of the neighborhood- peace and quiet lost forever 
216	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: alarmed at high- density commercial- does not respect height and density restrictions of the neighborhood covenants 
217	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	See Letter/e-mail/ attachment: opposed to 48' height and 20 du per acre residential density, impacts to traffic, investment in low density residential area 
218	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: opposed; will move if approved 
219	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: opposed; inconsistent with current housing, expectation for low density residential neighborhood 
220	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		See Letter/e-mail/ attachment: The proposed zoning and density change is dramatic, to say the least.... To go from one residence per 2.5 acres to an allowed use of up to 20 units per acre at a height of up to four stories, is an extraordinary, unwarranted and completely unjustified land use change. The only benefit this could possibly bring is to allow the entity that owns the land to unreasonably profit from their recent purchase as a result of the master developer's financial problems. 

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
221	County-wide		Residential Estate		See Letter/e-mail/ attachment: seem like it's a case of- "lets hurry up and pass this so we can see what's in it", inconsistent answers from staff, detrimental to agricultural land and production, land classified as agricultural should not now be assigned "Residential Estate" ; perhaps county is seeking to collect more taxes from smaller lots? Preserve land in a manner consistent with its history and good conservation		
222	Galisteo	NM 14	Mixed Use		See Letter/e-mail/ attachment: The San Marcos Association objects to the proposed inclusion of large blocks of "mixed use" and "industrial" zoning along State Route 14 between the County Jail and the Turquoise Trail Elementary School. We believe that it is not in the best interest of the County to extend predominantly urban zoning to what is currently a ranching and rural residential area. We also believe that the County should not dictate where such zoning should occur prior to prospective developer's submittal of a master plan - especially in large ranch holdings such as those found South of the State Penitentiary. Having the County pre-zone portions of ranch-land for either industrial or urban development provides the selected land owner with an unfair commercial advantage, greatly increases the value of the selected property, changes the character of current land use, and eliminates a significant part of the application process identified in the code. Arguments are put forward in support of these objections and suggested alternative zoning, better suited to the character of the area, are advanced.		
223	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Concur with the opinion of Santa Fe County Staff to change the 44 acre property owned by Las Campanas Land Holdings, LLC on Camino la Tierra and Tierra del Oro from Mixed Use to Residential Estate. Request that a methodology is established in the SLDC for "group quarter living" for all residential zoning classifications.

255	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Object to rezoning the 44 acre parcel and enlist County assistance to protect the environment and way of life. 
256	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Opposes proposed rezoning of 44 acre parcel. 

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
257	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose the proposed rezoning of the 44 acre parcel.	
258	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose the proposed change in zoning for the 44 acre tract of land owned by Las Campanas Land Holdings, LLC on Camino La Tierra, specifically the potential for high-density housing.	
259	El Centro	330 acres- 599/ Camino la Tierra		Mixed Use		Ask that the proposed rezoning not be allowed. The new zoning would impact this area environmentally and take away some of the benefits such as nature walks, biking, etc.	
260	El Centro	330 acres- 599/ Camino la Tierra		Mixed Use		Oppose proposed rezoning for 330 acre parcel at the intersection of Camino la Tierra and State Road 599.	
261	County-wide	Ranch land		Ag/Ranch		Asks Commissioner Mayfield to support reinstatement of ranch land zoning in the Proposed Zoning District Map. Certain ranch lands have been changed from one home per 140 acres to one home per 20 or 40 acres. These density changes are proposed all over the county would be better made as individual zoning changes rather than as a blanket change on the SLDC. Individual zoning changes could be approved by the Commission in a way that allowed more notification to neighborhoods near the ranch lands and more considerate thought. Reviewing each zoning change individually would provide discussions about the impacts of increased housing density on traffic density on local roads, fire protection, drinking water, and other local issues.	
262	El Centro	Las Campanas Town Center- 44 acres and 599/ Camino la Tierra-330 acres		Mixed Use		Oppose proposed rezoning of Las Campanas area to mixed use from residential.	
263	N/A					Suggestions on how to improve the interactive zoning map.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
264	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose proposed rezoning of the 44 acre tract in Las Campanas.	
265	Galisteo	SR 14 Mixed Use Site		Mixed Use		Petition states: "Stop Santa Fe County from rezoning land along Highway 14 east and north of the Rancho San Marcos subdivision from Rural Residential to Mixed Use which includes high density residential (up to 3 stories) and commercial structures." 308 signers.	
266	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose rezoning of 44 acre parcel. Given the potential economic, health, and environmental impact of the proposed changes, the allotted comment time of several business days is totally inadequate.	
267	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Opposition to spot zoning of parcel 980001322 (Las Campanas Town Center-44 acres).	
268	El Centro	Las Campanas Town Center-44 acres and 599/ Camino la Tierra-330 acres		Mixed Use		Oppose the rezoning from residential to mixed use in the Las Campanas area. Increased housing and commercial establishments will be a detriment and increase the water shortage problems and traffic pollution.	
269	El Centro	Hacienda del Cerezo				Attached document for the Master Plan for the tract of land.	
270	County-wide					League of Women Voters of Santa Fe County urges commissioners to finalize the approval of the zoning map so that the code will go into effect. Urge commissioners to finalize technical changes to the SLDC without weakening the code within the same time frame as the zoning map. Until the code is adopted and the zoning map approved, residents of Santa Fe County will not benefit from a consistent, up to date package of land development procedures and standards that support the sustainable growth management plan.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
271	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose the Proposed County Zone Map and change of zoning at La Tierra.	
272	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose change in zoning in La Tierra.	
273	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose proposed change in zoning of the 44 acre parcel adjacent to the Fire Station.	
274	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose proposed mixed use development adjacent to the fire station. Would like to know where the project stands at this time and what is the process for approval.	
275	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose mixed use zoning proposed for a 44 acre parcel adjacent to the fire station in Camino La Tierra. Oppose for water usage, traffic, height of buildings and negative impact on property values.	
276	El Centro			Mixed Use	Rural Residential	Oppose rezoning of a section of Camino La Tierra to be Mixed Use Zoning. This is a rural residential area.	
277	County-wide	Ranch land			Ag/Ranch	The Zoning of actively utilized ranch and agricultural land (Ag/Ranch) must be shown on the official zoning map as "Ag/Ranch", regardless of where it is situated within the County. County Staff has placed several ranches in the vicinity of the City of Santa Fe (on Highway 14 near the Santa Fe Studios, for example) at risk by proposing that what is currently ranch-land be zoned as either high density "mixed use" or the highly disruptive "industrial" use. Such "pre-zoning" is inappropriate and violates the County Sustainable Growth Management Plan (SGMP) and Sustainable Land Development Code which advocate the preservation of Ranches and Agricultural properties, and that there are ample processes in the Code to permit re-zoning in the future.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link

282	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose the rezoning of the 44 acre parcel to mixed use classification.	
283	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose potential rezoning of Las Campanas Town Center- 44 acres to mixed use classification.	
284	El Centro	330 acres- 599/ Camino la Tierra	Mixed Use	Residential Estate	Oppose potential rezoning of 330 acres Tierra de Oro.		
285	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose potential rezoning of 44 acre parcel to a mixed use classification.	
286	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose potential rezoning for 44 acre parcel to mixed use classification.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
287	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose mixed use rezoning of Santa Fe Center from residential estate	
288	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Object to the mixed use classification for the Las Campanas Town Center- 44 acres.	
289	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose mixed use zoning in the area.	
290	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Oppose the rezoning of the 44 acre parcel.	
291	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose rezoning to the 44 acre parcel to mixed use which would allow high density development in the area.	
292	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Opposed to altering or change the existing zoning designation.	
293	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Opposed to altering or changing the existing zoning designation.	
294	El Norte	Riverside		Residential Community	Mixed Use	Would like zoning changed on Riverside A parcel. The property is, and has been for many years, a residential rental community of five residences on .9268 acres. It has been used in that manner since before 1971. Believe that the proper zoning for this property is mixed use and request that the draft SLDC zoning map be amended accordingly.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link	
295	El Norte	Riverside		Residential Community	Mixed Use	Would like zoning changed on Riverside B. The property has been a residential rental community of eleven mobile homes and two site-built structures on 2.95 acres for many years. Classifying this property as residential community, with a maximum of one dwelling per acre, is not consistent with the uninterrupted use of the property as a mobile home park for the last forty-three + years. It is also inconsistent with the property location which is on NM 22, a high traffic area directly opposite the Tesuque post office.	
296	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose proposed zoning changes because proposed development would be incompatible with surrounding area, incompatible with existing growth management plan, incompatible with existing recreational area, and incompatible with resident safety.	
297	Galisteo	Rancho San Marcos		Mixed Use	Residential Community	Oppose mixed use zoning for the large block of land stretching south from the prisons to the north edge of Rancho San Marcos and the Turquoise Trail Charter School. The proposed zoning would forever alter the residential atmosphere and could open the door for indiscriminate, unplanned and uncontrolled building on any part of the property further devaluing other parts of this rezoned property to the detriment of further development of the rezoned area.	
298	El Centro	Avanti Business Park		Commercial		Under the proposed zoning, Lot 4B of the Avanti Business park has been designated as Commercial General. Concerned that CG does not allow all the uses previously allowed in Major Commercial District. Request that uses previously allowed in Major Commercial District continue to be allowed in Commercial General District.	
299	El Centro	330 acres-599/ Camino la Tierra		Mixed Use		Oppose proposed changes from residential to mixed use.	
300	County-wide					Urge commissioners to keep the code as presented at the meeting on Dec. 3. Supports the SLDC use table as presented on December 3rd. Imposing greater restrictions on Commercial horse operations hurts individual horse owners.	

GMA	Property	Parcel #	Assigned Zoning	Requested Zoning	General Comment	Link
301	Estancia	Entranosa	Rural Residential	Rural Residential	Comment received at meeting 5.27.2014. The area north of Frost Rd (472 and North of Entranosa Rd and East of Mountain Valley Road in the far Southwest corner of Santa Fe County. All plots but 3 north of Entranosa are 10 acres or more.	
302	County-wide				Comment received at meeting 5.27.2014. Water is already at historically low levels, how can anyone consider new developments?	
303	Estancia		Residential Estate	Residential Estate	Comment received at meeting 5.27.2014. Favor the rezoning of area. Smaller acreage per residence is beneficial because 5 acres is unmanageable for most people resulting in excessive space being unkept and often littered with non-function automobiles.	
304	El Centro		Mixed Use		Comment received at meeting 5.27.2014. Against the proposed zoning change from residential to mixed use in the area of La Tierra de Oro.	
305	El Centro	Las Campanas Town Center-44 acres and 599/ Camino la Tierra-330 acres			Comment received at meeting 5.27.2014. Object to change of zoning at both 330 and 44 acre parcels in Las Campanas. Dense housing and commercial buildings will destroy habitat for wildlife, increase traffic, impact availability of water and increase flood potential, cause light pollution. There is no need to provide services to residents in the area. There will be a loss of access to trails from Camino La Tierra. Downzoning. Why is this change considered?	
306	N/A				Comment received at meeting 5.27.2014. How does a rural community with its specific ordinance with over 2 years of work (by La Cienega -La Cieneguilla Planning Committee) allow a "planned development district"?! It is counter to the mission statement and ordinance of the said communities.	
307	N/A				Comment received at meeting 5.27.2014. Need a bigger seating area.	
308	N/A				Comment received at meeting 5.27.2014. Please provide agenda at beginning of meeting.

309	Galisteo	Rancho San Marcos		Mixed Use		Comment received at meeting 5.27.2014. Adding commercial business and high density housing is not sustainable in this area. Water availability-- aquifer already serves two jails, ranches and homes. Traffic will be increasingly dangerous especially around the school. Map is impossible to read. Would like to see an analysis of increase in service, fire, education, social services and health services.	
310	N/A					I am against this it my property and I don't need the county telling me wht I can and cant do with it.	
311	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	Oppose rezoning of 44 acre tract. Residential estate is much more appropriate.	
312	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use		Oppose proposed rezoning of 44 acre tract near Las Campanas.	
313	El Centro	44 acres- Las Campanas Town Center	980001322	Mixed Use	Residential Estate	On behalf of Neighbors Against Mixed Use (NAMU). Do not adopt the proposed MU zoning of this parcel, zone residential estate to conform with the surrounding zoning and to avoid spot zoning per pg 58, policy 7.4 of the SGMR.	
314	El Centro	330 acres- 599/ Camino la Tierra		Mixed Use		Oppose rezoning to mixed use district of 330 acre parcel. Concerned about the problems brought on by this type of zoning, including congestion, crime and increased water use. The crass commercialization of this beautiful area is unforgivable.	
315	El Centro	330 acres- 599/ Camino la Tierra		Mixed Use		Oppose rezoning to mixed use of 330 acre parcel. Rezoning would increase congestion, crime and water use. Those who live in the area would lose a fortune in property value.	
316	El Centro	Bonanza Creek Ranch		Mixed Use	Commercial	Letter to Commissioners requesting change of zoning from Mixed Use to Commercial in order to continue filming movies in the location as well as developing opportunities for more "film tourism."
