

# Known Groundwater Contamination

Factor 12 :  
Proximity to Areas  
of known Groundwater  
Contamination

## Legend

### Groundwater Contamination

-  Low Suitability
-  Moderate Suitability
-  High Suitability
-  gprdsall arc
-  contamination\_sites\_sfco

Disclaimer: The ranking showed on this map was utilized in the map based analysis but it was decided by the Water Focus Group that a 1 mile blackout area should be assigned. This will eliminate any wells within 1 mile of a known groundwater contamination site.

**DRAFT**  
**March 11th, 2010**

0 0.5 1 2 Miles
